Type of interaction	Meeting with Youth Meeting with family Phone call
Notes:	CM met with the client [REDACTED] to explain how the reunification process was going to proceed, the shelter rules, and the client's rights while at the shelter. Minor was then asked if he understood what CM had explained, and upon confirmation minor was asked to sign the acknowledgement and client handbook form. Minor was then explained the services that will be offered to him while in care with SWK Casa Padre, such as case management services, counseling services, medical services, educational and vocational classes, and legal services. Minor was also informed on what was sexual abuse and harassment are and how to identify any potential instances. Minor was also asked questions about his emotional and physical well being and whether he was in need of anything at the time of the interview. CM then advised minor that he would be receiving two outgoing calls at the time of the interview and then every week during his stay in shelter care. Minor was also informed he could receive incoming calls from approved family/sponsors for his emotional well being. CM also advised minor that she would be meeting with minor once a week to update him on his case and allow him a phone call to his family members. At this time, no medical problems were reported. Client is currently doing well and stated that he feels safe. Minor states he came to the U.S. to reunify with his uncle, however, did not have contact information for uncle. CM reached out to minors father in COO in order to receive contact information for potential sponsor. However; father advised this CM that he would have to reach out to minor uncle to see if he will be willing to move forward reunification. CM will continue communication with minors father until a possible sponsor is found. [REDACTED] Case Manager

Notes:

CM meet with minor today and contacted potential sponsor [REDACTED] upon contacting sponsor CM explained the reunification process and what will be need in order to proof a pre-existing relationship between minor and sponsor. Sponsor informed me he has been in the U.S. for approximately 10 years therefore only saw minor when he was very small and believe there are no pictures between minor and him. CM asked if there was phone record between him and UC family he stated they would communicate but is unsure if we will be able to provided proof. CM informed potential sponsor that she will reach out to UC family to try to verify if there is in fact a pre-existing relationship between minor and [REDACTED] CM thank [REDACTED] for his time and advised she would contact him again in order to explore further his relationship with minor. [REDACTED] stated he would like to make sure that he qualify to sponsor minor before accepting sponsorship. CM contact UC parents in COO. CM used an interpreted in order to communicated with UC mother since she does not speak Spanish. Interpreted explained to UC mother that we need to proof their is a relationship between family and sponsor. Interpret talk phone drop before UC mother would be able to responded. UC asked minor if she understood and UC mother stated she will be looking into what she can gather. CM will continue to attempt communication.

Mental Health

Provide a short summary of the UAC's current functioning:

Update 06/07/2019: Minor is a 15-year-old [REDACTED] from Guatemala. Clinician is working on establishing a rapport with the minor and securing a therapeutic alliance. Clinician has covered topics such as shelter adjustment, behavior expectations, how to report any abuse, services available at shelter, what services will be provided and available, and safety plan measures. Throughout the session, the minor was attentive and receptive to the information. Minor has disclosed that she has been communicating with family in home country. Overall, the minor has demonstrated a good understanding of the information discussed during his individual sessions. In addition, the minors affect, cognition, and behavior appear normal based on his developmental level. Moreover, there are no disturbances in her functioning (e.g. sleep, appetite, suicidal/homicidal ideation, mood, & hallucinations). Minor does not appear to be a risk to self or others. As reported by Clinician [REDACTED] MS 06/07/2019

Mental Health:

UPDATE 60TH DAY: UAC at the present moment does not have any mental health concerns Minor remains well mannered, attentive and cooperative Minor appears to be functioning at an appropriate level for her age, as evident by her appropriate mood and behavior Minor reported that she has adjusted well to the program, and currently he has no problems with peers Minor remains calm, and she is oriented to person, place, and time situation Minor reported never being in a psychiatric hospital for any inpatient or outpatient services Minor reported that he never been prescribed, nor has ever taken psychotropic medications Minor denied any drug any history of drugs and alcohol abuse Minor stated she has been eating and sleeping well while in the program Overall, youth does not indicate to have any therapeutic needs or psychological services at this time Minor has not presented any emotional or mental health concern have been voice or identified Minor has participated of individual and group session weekly; also participate in outing activities Minor also participate in vocational classes Minor will continue to have her family call in home country and sponsor This clinician will further assist minor in coping while in placement and will address any concerns with minor as they arise Minor receives individual counseling on a weekly basis and group session In addition, clinician will assist minor any other day upon request other and his regular individual session As reported by Clinician [REDACTED] MS 07/05/2019 ***** On 06/22/2019, Clinician had family session via video cam with minor [REDACTED] due minor father is sick and she has not seen him sin he left home country Minor was able to speak and see her father her tranquility Minor disclosed that he sometime calls her by her sister name but she just wanted to see him During the conversation, her dad told her to be patient that soon she will be with her sponsor Minor also interacted with her small sister and saw the four pig that he left and now there are very big Minor disclosed to clinician that she was one to take care of them Minor spoke with her mother and both got emotion but wore calm, minor was very pleased that clinician was able to give her a video called with her family she felt like she was near them During the family session, clinician was able to observe that family is very caring for one another, very expressive with their love for everyone The family session was ended by minor saying good-bye to everyone, and that she love them As reported by: Clinician [REDACTED] MS ***** On 06/21/2019, a family session was conducted via video cam and with minor [REDACTED] and minor's Sponsor [REDACTED] Sponsor was informed with an explanation of the role of the clinician Minor shared with sponsor that she has been adjusting well to the Program Sponsor was informed that minor actively participate in weekly individual session and group session There are mental health concerns at this moment Sponsor was excited to see her cousin through video cam Sponsor disclosed that the last time she saw [REDACTED] a was a couple of weeks before she left home country However, sponsor reported that she has maintain communication with minor weekly sin she arrived to the program and family in home country Sponsor shared that she knows that is priority for minor is to attend to school Additionally sponsor disclosed that she has already identified and adult school near her home Clinician informed sponsor the importance for [REDACTED] to obtain a high school equivalent diploma for a better opportunity in her future when looking for a job Sponsor disclosed that she would focus on [REDACTED] learning English and completing her high school Clinician informed sponsor that the minor was provided with shots and she will need to provide the school with the shots record upon enrollment Sponsor reported that she would be responsible for all of her cousin emotional and financial well-being Sponsor reported that the minor would sleep in her own bed and her room is already upon her arrival Sponsor was informed that minor is not allowed to work, that she must complete her academic studies Sponsor reported that she would be available to spend time with minor at school, medical appointments, or any other need that his sister would require Clinician share with sponsor minor is responsible for cleaning after herself and helping with household chores, such as mopping, throwing away trash, washing dishes, and fix her room Furthermore, sponsor stated that minor main responsibility would be to attend school and complete all her assignments Additionally, sponsor reported to minor that she must follow rules in home, such as going to bed around 9pm, and returning home after school to eat and do her homework or project assigned During the family session Clinician discuss, the safety plan with sponsor and minor Sponsor share that she will discipline minor by giving her advice and modeling positive behavior Minor had the opportunity to speak with her sponsor it was a positive conversation In addition minor was able to see and speak with sponsor family were all very excited to see [REDACTED] see her thru video camera Sponsor was cooperative and asked good question during the family session Minor and sponsor appeared to have a positive relationship as evidenced by their interactions, family session was complete by minor say good bye hope to be reunify soon Sponsor cannot wait for minor to be reunify with her Clinician informed minor and sponsor how to report threats to the school and the police if necessary Sponsor stated she would make sure that minor is safe, and if anything would happens, must be reported to the authority Minor and sponsor communicated well throughout the family session Clinician is recommending straight release to minor sponsor As reported by Clinician [REDACTED] MS 06/21/2019 ***** UPDATE: 30 Th Day: Clinician meets with minor [REDACTED] once a week and attends group counseling covering a variety of topics each week Minor affect appears reactive and is mood congruent During individual sessions, clinician has covered topics such as shelter adjustment, setting short-term/long-term goals Overall, the minor has demonstrated a good understanding of the information discussed

#34905
during her individual sessions. Minor will continue to attend individual counseling and group counseling sessions weekly. The goal of the session focused on building rapport with the minor and increasing awareness regarding her emotional well-being and coping skills. Minor will notify staff or clinician if she has any emotional issues or concerns. The minor reports feeling prepared for reunification; clinician has successfully helped the minor process her feelings and thoughts about the subject. Minor has not presented any mental health concerns and has stated she is doing well and appears to be doing well. Minor is waiting for her case to be submitted. In addition, minor does not present any high-risk behavior posing a risk to self or others. As reported by [REDACTED] MS Clinician, 06/07/2019.

[illegible]

UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF VIRGINIA
Harrisonburg Division

A.E.S.C.
Plaintiffs-Petitioners,
v.
JONATHAN HAYES, et al
Defendants-Respondents.

**DECLARATION OF JAMES DE LA CRUZ,
ADMINISTRATION FOR CHILDREN AND FAMILIES,
UNITED STATES DEPARTMENT OF HEALTH AND HUMAN SERVICES**

I, James S. De La Cruz, for my declaration pursuant to 28 U.S.C. § 1746, hereby state and depose as follows:

1. I am the Senior Field Program Specialist Supervisor for the Office of Refugee Resettlement (“ORR”), a component of the Administration for Children and Families within the United States Department of Health and Human Services (“HHS”). I supervise all Supervisory Federal Field Specialists (“FFS”) within ORR. The following statements are based on my personal knowledge, information acquired by me in the course of performing my official duties, information contained in the records of HHS, and information supplied to me by current HHS employees. I am located in Washington, D.C.

2. On October 31, 2019, A.E.S.C. was stepped down from SVJC to a less restrictive placement. As of 5 a.m. October 31, A.E.S.C. had been discharged from SVJC in order to travel to

the less restrictive care provider, BCFS San Antonio Staff Secure, in San Antonio, Texas, which is a state-licensed facility.

3. SVJC is a secure facility – the highest level of restriction in the ORR network of care providers. A minority of unaccompanied children in the legal custody of ORR reside in such secure placements. Out of approximately 4,000 minors in ORR custody, about 22 are currently in the two secure facilities maintained by ORR – SVJC and another secure facility in Yolo County, California. Secure facilities are facilities with a physically secure structure and staff able to control violent behavior. ORR uses a secure facility as the most restrictive placement option for minors who pose a danger to self or others or have been charged with having committed a criminal offense. *See* ORR Guide to Terms, available at: <https://www.acf.hhs.gov/orr/resource/children-entering-the-united-states-unaccompanied-guide-to-terms>.

4. ORR and care provider staff continuously review minors placed in secure facilities to determine whether they should be moved to a less restrictive placement. These reviews occur at least every 30 days, and often more frequently, such as on a weekly basis.

5. In A.E.S.C.'s case, the case manager recommended step-down on October 9, 2019 after A.E.S.C. completed 30 days of good behavior. The recommendation then went before a "case coordinator" under contract with ORR, who concurred in the step-down. Finally, the FFS for SVJC approved the step-down recommendation and accordant transfer on October 18, 2019. Although the FFS approved A.E.S.C.'s transfer to a less restrictive level of care, ORR still had to find a facility with available beds and that would accept A.E.S.C. for transfer. On October 30, 2019, ORR learned that BCFS San Antonio could accept A.E.S.C., and SVJC scheduled the transfer for October 31, 2019.

6. SVJC also notified the Capital Area Immigration Rights ("CAIR") office of the step-down as early as 10 days prior to his transfer. On October 21, 2019, the Case Manager at SVJC sent

the CAIR Coalition a census of all ORR-funded minors housed at SVJC. For A.E.S.C., the census notes: “SD [step-down] approved. Pending acceptance.” SVJC sent this census to the ducsinfo@caircoalition.org email address. On October 28, 2019 another census (including the same information that step-down was approved, but pending acceptance by a less restrictive placement) was again sent to CAIR. On October 30, 2019, SVJC again emailed Caroline Hodge at CAIR (among others) to notify CAIR that A.E.S.C. would be transferred from SVJC to the less secure care provider, BCFS San Antonio. I understand that Ms. Hodge then requested a phone call with A.E.S.C. prior to his transfer, and SVJC facilitated the confidential phone call on October 30, 2019.

7. As a matter of policy and practice, A.E.S.C.’s Case Manager would have been meeting with him on a weekly basis and informing him of the status of his case, including a potential, and then, approved step-down. Thus, A.E.S.C. in conversations with his attorneys would also have been able to notify them of the upcoming transfer.

8. ORR policy is to ensure that care provider staff continuously work to reunify the unaccompanied alien children in the legal custody of ORR without unnecessary delay, taking into account that potential sponsors must be evaluated for the risk they could pose to the minor, and that children are released safely.

9. When A.E.S.C. first arrived at SVJC, the documents show he was asking for repatriation to his home country of Honduras. SVJC case managers worked with him and advised that he should speak to CAIR attorneys first, before deciding on such repatriation. SVJC also immediately began working with A.E.S.C. to determine if there were family members in the United States with whom he could reunify. These efforts – to locate a possible family member to serve as a potential sponsor for A.E.S.C. – continued through the month of June.

10. In early June, case managers contacted the Honduran Consulate to request assistance in locating A.E.S.C.’s family in Honduras. Calls to the consulate were made weekly for updates, but

the consulate often did not pick up and voice mail was full. SVJC case managers also reached out to a store close to the location of A.E.S.C.'s father in Honduras (A.E.S.C.'s mother has passed away). The Case Manager was successful in obtaining the father's location, and also learned that A.E.S.C. had a female adult caregiver in Honduras, who had served like an adoptive mother and allowed A.E.S.C. to live with her. Eventually, after calling the store numerous times, the Case Manager reached the caregiver. This caregiver reported on a half-brother living in the United States – in Bridgeport, Connecticut. The caregiver reported she would gather information on the brother and provide the information at a later date. The SVJC Case Manager also made contact with A.E.S.C.'s father in Honduras. A.E.S.C.'s father said he would gather contact information on the brother and report back.

11. The documents show that by early July, A.E.S.C.'s brother had called SVJC and requested a call back. A.E.S.C.'s brother said he was willing to act as a sponsor, and the case manager said she would send the family reunification packet the next day on July 3, 2019, which she did. SVJC facilitated phone calls between A.E.S.C. and his brother. The sponsor confirmed he would be willing to be fingerprinted at a police station. The SVJC case manager provided the brother with visitation information if he were interested in visiting. By July 15, however, A.E.S.C.'s brother had not yet submitted the application or indeed any paperwork. The case manager called to follow up and asked about the family reunification packet. The sponsor reported he was still working on the forms and would send them back that week. The case manager asked if the brother had any questions, but he said he did not. The Case Manager reminded A.E.S.C.'s brother that until the forms came in, fingerprint appointments could not be scheduled, and that the longer it takes for the forms, the slower the case will move. On July 23, the Case Manager attempted to contact A.E.S.C.'s brother, but there was no answer, and the voicemail box was full. Another phone call was attempted later in the day, but again, the voicemail box was full. On July 25, the Case Manager successfully

contacted A.E.S.C.'s brother. He said he was in the process of moving and had not completed the documents. He said he would send the documents no later than the next week. He also said he did not possess his own birth certificate (which is required to prove relationship), and would have to request it from his home country. The Case Manager advised to send everything but the birth certificate and then send the birth certificate when it arrived. On July 30, 2019, the Case Manager again contacted A.E.S.C.'s sponsor for an update. The brother reported that he was still working on gathering the documents. Also, A.E.S.C.'s father in Honduras had not provided the "Letter of Designation" that would acknowledge and agree for A.E.S.C. to live with a custodian other than a parent. SVJC's Case Manager advised to send the letter of designation once received. The Case Manager also highlighted other documents required by the family reunification packet, including proof of address, proof of identity, and a photographic ID. The sponsor said he did not have copies of his ID, but the Case Manager said he could send a picture via email or text. The Case Manager advised that the brother should call her with any questions and she would reach out in a few days.

12. Throughout August, the case notes show the Case Manager continuing to work with the sponsor but the brother failing to provide supporting documents or delaying responses. On August 2, 2019, A.E.S.C.'s Case Manager contacted the brother for an update. He said he had been locked out of his car at work and his car was 30 minutes away from home. He said he was very busy and had not been able to send the documents. On August 7, the Case Manager again reached out for an update. The sponsor was very apologetic and said he would be sending the documents for sure. He said they were filled out, but he had not been able to make it to the post office. On August 9, 2019, SVJC received an incomplete family reunification packet (including the signed "Authorization for Request of Information," an application form, and confirmation that A.E.S.C.'s brother had read the sponsor handbook). The package lacked supporting documentation, such as proof of address and proof of identity. On August 16, 2019, the Case Manager attempted to contact A.E.S.C.'s brother to

obtain the missing documents. The brother was not sure what documents the Case Manager was referring to, and the Case Manager explained the pending documents and examples of documents that could be sent. The Case Manager also said she had sent an email, but the sponsor reported he had not received it. The Case Manager asked him to check spam or to send the Case Manager an email so they could establish email communication. On August 21, 2019, the Case Manager again sent a prepaid FedEx package with pending family reunification packet documents and instructions. As of August 21, 2019, the sponsor had not yet sent fingerprints on provided fingerprint cards in order to run a criminal background check.

13. In September of 2019, SVJC continued to work with A.E.S.C.'s brother to attempt to finalize the reunification and the release of A.E.S.C. from custody, however, the process delayed due to the brother moving residences and household members not being willing to provide information that ORR could use to ensure A.E.S.C.'s safety. A.E.S.C.'s brother had reported he was living with two other adults. Such adults, then, would also require fingerprints to ensure ORR did not release A.E.S.C. to live with adults that could put him at risk. A.E.S.C.'s brother, however, reported that his housemate was unwilling to participate in the sponsorship process. On September 12, the Case Manager attempted to contact A.E.S.C.'s brother, but there was no answer – the Case Manager left a voicemail. Again, on September 13, the Case Manager left a message requesting a callback on the housemate and documents. Later the Case Manager was able to connect with A.E.S.C.'s brother, and the brother confirmed that he would be moving in with his cousin whom he understood would need to provide information in order to be evaluated by ORR. On September 18, the Case Manager attempted to connect with the brother but there was no answer. On September 19, 2019, they connected – but the brother had not yet spoken to his cousin. As of September 24, 2019, there were still no updates from A.E.S.C.'s sponsor. However, on September 25, 2019, A.E.S.C.'s brother confirmed that his cousin would be willing to participate and he would be sending documents that

week. As of September 30, 2019, however, the Case Manager could see (through tracking the prepaid FedEx package) that the brother had not yet placed the additional documents in the mail. The Case Manager called A.E.S.C.'s brother for an update, and said that the FedEx tracking showed no package in the mail. The sponsor said he had almost all the documents ready, but he still needed his housemate's fingerprints. When asked if he, the brother, had been fingerprinted, he said he had not, but that he and the housemate were planning on going together.

14. The sponsorship process continued through October, with A.E.S.C.'s brother unfortunately unable to meet the requirements for a complete family reunification packet, and the SVJC Case Manager attempting to guide him through the process. On October 8, 2019, an SVJC Case Manager contacted A.E.S.C.'s brother for an update. He reported that his cousin was now not willing to continue with the process, so he was going to move to an apartment just for himself and A.E.S.C. (This would be A.E.S.C.'s brother's third move since beginning the reunification process.) The Case Manager reminded him that he would need to identify a backup caregiver if he was living alone, and he expressed that he was stressed about trying to find another person who could assist in sponsorship. He said he would call his father to see if his father could help and would respond by the end of the week. The Case Manager said she would call at the end of the week for an update and reminded him to send a copy of his ID or other completed documents. By October 11, 2019, A.E.S.C.'s brother had sent a blurry copy of his ID, but no other information necessary for the family reunification package. On October 15, 2019, when asked if he had contacted his father as a backup caregiver, the brother said it was unlikely his father would agree to such a process and that he would contact another uncle to determine A.E.S.C.'s care plan. As of October 16, 2019, FedEx tracking revealed that the family reunification package supporting documents had not been placed in the mail. On October 23, 2019, the Case Manager attempted to contact A.E.S.C.'s brother, but there was no answer. The Case Manager left a message, asking for a call back. On October 24, 2019, the

Case Manager again attempted to contact A.E.S.C.'s brother, but there was no answer, and the Case Manager left a voicemail. On October 29, 2019, the Case Manager contacted A.E.S.C.'s brother for an update on documents and a backup care plan. He said he had found a backup caregiver, and that he would have information that week, including fingerprints. Unfortunately, at the time of A.E.S.C.'s step-down, his brother had not completed the family reunification packet.

15. While placed at SVJC, A.E.S.C. was notified of his right to request a Flores bond hearing. These hearings are available for children whose release is being denied or delayed solely due to the minor's own characteristics of being a danger to self or community were they released. The hearings are before immigration judges. A.E.S.C. did not request a bond hearing.

16. I understand that BCFS San Antonio recently contacted A.E.S.C.'s brother, on November 12, 2019, and confirmed that his brother had not yet completed his Family Reunification Packet (including for example, identity information for new household members, as well as a backup caregiver).

17. In addition, on November 4, 2019, A.E.S.C. disclosed behavior that triggered a referral to the Office of Trafficking in Persons as a victim of trafficking. This identification as a victim of trafficking also mandates a home study under the Trafficking Victims Protection Reauthorization Act. See 8 U.S.C. § 1232(c)(3)(B) ("A home study shall be conducted for a child who is a victim of a severe form of trafficking in persons . . .").

I declare under penalty of perjury that the foregoing is true and correct. Executed on
November 14, 2019.

FIELD GUIDANCE – April 6, 2020

RE: ORR Field Guidance # 4, COVID-19 Discharge Guidance

GUIDANCE

ORR's policies require the release of unaccompanied alien children to sponsors in a manner that promotes public safety, which includes concerns related to public health. These instructions fall under authority of [ORR Policy Guide Section 3.4.8 Medical Clearance Prior to Release and Transfer:](#)

“Unaccompanied alien children who have serious physical or mental health issues or have had exposure to a communicable disease may not be transferred or moved until they have been medically cleared by a physician or ORR is consulted....

Children who are infectious with communicable diseases of public health concern, which have potential to cause outbreaks, will not be released from ORR care until they are non-infectious.”

ORR is issuing the following guidance to care providers and to ORR staff as it relates to UAC discharges during the COVID-19 pandemic.

INSTRUCTIONS

- (1) **Postponing release related to COVID-19.** To ensure the health and safety of the sponsor, UAC, and the general public, ORR may postpone release of a UAC to a sponsor:
 - (a) If an ORR care provider facility (or in the case of transitional foster care, for individual foster homes) experience one or more confirmed cases of active COVID-19 infection in either children or staff, releases are temporarily postponed for all children at the care provider facility or in the foster care home until ORR's Division of Health for Unaccompanied Children (DHUC) lifts the hold on releases or allows the release of specific children on a case by case basis following CDC recommendations.

- (b) If a sponsor or a member of the sponsor's household has an active COVID-19 infection, postpone release until a medical or public health professional determines it is safe to release the UAC to the sponsor household¹;
- (c) If a State licensing agency or a state or local public health agency with jurisdiction over a care provider requires or recommends that a care provider isolate or quarantine children in their care, UAC cases that have completed the release process are postponed until cleared by DHUC and the state licensing or state or local public health agency; or,
- (d) If DHUC determines that a specific child's case must be postponed due to COVID-19 related concerns in order to ensure health and safety of the sponsor, sponsor's household, UAC, and/or the general public.²

(2) Post Release Reporting.

- (a) Case Managers must follow up with sponsors for 14-days following UACs release from custody for updates on the minor's health and to check on symptoms of acute respiratory illness.
- (b) As a condition of release, until further notice, sponsors must immediately quarantine any released UAC for 14 days following their physical discharge from ORR custody. Further, the sponsor will report any signs of acute respiratory illness or fevers to their local medical provider.

(3) Documentation. Any postponement of release must be documented in the *UAC Assessment* or *UAC Case Review*, as appropriate, citing the public health reason for the delay under (1)(a), (b), (c) or (d). Any postponement of release must be sufficiently explained to the UAC and to their sponsor.

(4) Post-18 Plans. All children approaching age out must have a post-18 plan in place, which includes a recommendation for a non-secure placement, if appropriate. In the event a child

¹ For COVID-19 patients who are not hospitalized, isolation may be discontinued if the CDC recommended isolation time has passed since symptom onset, or if 3 days have passed since recovery/resolution of fever and improvement of symptoms. <https://www.cdc.gov/coronavirus/2019-ncov/hcp/disposition-in-home-patients.html> . However, if other members of the household are quarantined and then go on to develop illness, the timeframe could be longer than 14 days.

² ORR considers any increased risk posed to the child, sponsor, or sponsor household members when making the decision to discharge, such as conditions in the sponsor or family member that increase the risk of severe disease, such as the potential exposure to a sponsor or family member with close contact to a confirmed case in prior 14 days.

is within 30 days of aging out and postponing release may result in their transfer to DHS/ICE custody, please notify your ORR/FFS and Case Coordinator for further instruction.

- (5) **Voluntary Departure/Order of Removal.** In the event a child has a pending voluntary departure or removal order, care providers work with their ORR/FFS to determine whether DHS/ICE plans to execute the order and initiate removal. If removal appears unlikely evaluate the child for release following general ORR policies and procedures.
- (6) **Monitoring for Potential Symptoms:** After a release is approved in accordance with ORR policies (see [ORR Policy Guide Section 2.7 Recommendations and Decisions on Release](#)), ORR care providers continually evaluate the child's health on a daily basis (until the child is physically discharged) for signs and symptoms of acute respiratory illness (e.g., fever, cough, shortness of breath).
 - (a) Children with symptoms of acute respiratory illness **must not** be transferred or released until they have been medically cleared³.
 - (b) Follow technical instructions provided in the "COVID-19 AND OTHER RESPIRATORY DISEASE CHECK" tool available on the UAC Portal home page under the "COVID-19 Guidance and Materials" folder in the "Documents to Download" section.
 - (c) For children with symptoms follow medical isolation instructions in ORR's March 13th Guidance.
- (7) **Transportation.** Travel for the purpose of discharging a UAC is considered an essential activity. The safety of children and staff during the physical transfer of children to sponsors is a priority for ORR. To that end, ORR complies with any state or local governmental restrictions on travel. Additionally:
 - (a) ORR directs care providers to follow provisions of [ORR Policy Guide, Section 2.8.2 Transfer of Physical Custody](#) and utilize air carrier escorts, to the greatest extent feasible, for children aged 14 and older. For children under 14, care providers and ORR/FFS will work with ORR/FFS Supervisors to use airline escorts following air carrier policies, in compliance with ORR's policy.
 - (b) Where care provider escorts are still required, and travel is to a state or city which would require the escort to self-quarantine, care provider case managers must look into potential alternative transport locations where escorts would not be required to self-quarantine (such as traveling to Newark, NJ instead of New York City or Providence, RI instead of Boston, MA).

³ See Footnote 1.

- (c) Consider using ground transportation following ORR's generally applicable transport policies (see [ORR Policy Guide Section 3.3.14 Transportation Services](#)), as opposed to air transport, where travel is expected to be less than 10 hours.
- (d) Travelers (including UAC and staff) must adhere to current recommendations for prevention measures (such as wash hands frequently, limit touching face) while conducting essential activities.

_____	)	

DECLARATION OF MELLISSA B. HARPER

I, Mellissa B. Harper, hereby make the following declaration with respect to the above-captioned matter:

1. I am the Chief of the Juvenile and Family Residential Management Unit (JFRMU), Enforcement and Removal Operations (ERO), U.S. Immigration and Customs Enforcement (ICE), Department of Homeland Security (DHS). JFRMU addresses issues confronting unaccompanied alien children (UAC) and alien family groups who come into ERO custody, including those detained at a Family Residential Center (FRC). JFRMU develops policies sensitive to the various vulnerabilities and needs of these populations. JFRMU trains, monitors, and advises Field Office Juvenile Coordinators (FOJCs). These officers serve as subject matter experts on juvenile and family matters in their respective field offices. As JFRMU advises FOJCs, they in turn, advise their fellow FOJCs who encounter minors during enforcement activities. JFRMU oversees and monitors the implementation of nationwide court orders that impact this population, including those in the present case.

2. Currently, ICE oversees three FRCs: 1) the Karnes Family Residential Center (Karnes) in Karnes City, Texas; 2) the South Texas Family Residential Center at Dilley (Dilley), in Dilley, Texas; 3) the Berks County Residential Center (Berks), in Berks County, Pennsylvania. Each FRC strictly adheres to the Family Residential Standards (FRS). The FRS promote a unique, non-secure, open-movement environment which permits parents and children to live in a dorm-like setting with access to education, recreational opportunities and health care on site. The FRS were developed with input from medical, psychological, and educational subject matter experts and various organizations such as the DHS Office of Civil Rights and Civil Liberties and many non-governmental organizations.
3. I submit this declaration to provide a snapshot of the FRCs, and in response to this Court's March 28, 2020, order. The information in this declaration is based upon my personal knowledge and experience as a law enforcement officer, and on information provided to me in my official capacity as JFRMU Chief. Due to the constantly evolving nature of the COVID-19 crisis, and the frequency of custody and discharge determinations, the information in this declaration is current and accurate as of the time of signature, or for the reported data, as of the date or time noted in conjunction with the information provided.

FRC Capacities and Current Census

1. Housing capacity at the three FRC are as follows: Karnes can house up to 830 total individuals; Dilley can house up to 2,400 total individuals; Berks can house up to 96 total individuals. While these numbers represent the total number of beds at each facility, given the open nature of the facility, and the living spaces within the facility, factors

including family unit composition, gender of parent, and ages and gender of children, will dictate which families can be housed together in the living spaces. Therefore, the total number of individuals that may be housed at an FRC at any given time varies based on current population configurations and may ultimately be significantly less than the actual capacity of the facility.

2. As of April 5, 2020, the number of individuals housed at the FRCs are as follows:
 - a. At Karnes, there were a total of 426 individuals, comprised of 246 adults and 180 juveniles.
 2. At Dilley, there were a total of 557 individuals, comprised of 247 adults and 310 juveniles.
 3. At Berks, there were a total of 21 individuals, comprised of 13 adults and 8 juveniles.
3. From March 1, 2020, through March 31, 2020, ICE released¹ 942 total individuals from its FRCs. The breakdown of these releases are as follows:
 - a. At Karnes, there were a total of 274 individuals released from custody during this time period, comprised of 153 adults and 121 juveniles.
 - b. At Dilley, there were a total of 579 individuals released from custody during this time period, comprised of 248 adults and 331 juveniles.
 - c. At Berks, there were a total of 89 individuals released from custody during this time period, comprised of 46 adults and 43 juveniles.

¹ Released into the U.S. interior. Data from ICE Integrated Decision Support (IIDS), queried on 4/3/2020 with data from Enforcement Integrated Database that is current through 4/1/2020.

4. From March 29, 2020, through April 4, 2020, ICE released² 250 total individuals from its FRCs. The breakdown of these releases are as follows:
 - a. At Karnes, there were a total of 100 individuals released from custody during this time period, comprised of 56 adults and 44 juveniles.
 - b. At Dilley, there were a total of 132 individuals released from custody during this time period, comprised of 54 adults and 78 juveniles.
 - c. At Berks, there were a total of 18 individuals released from custody during this time period, comprised of 11 adults and 7 juveniles.

Implementation of U.S. Centers for Disease Control and Prevention (CDC) Guidelines

5. As ICE continues to adapt and incorporate COVID-19 guidance issued by the U.S. Centers for Disease Control and Prevention (CDC) into its existing protocols, the field offices, including the FRCs, are provided with updated guidance and instructions.
6. In light of the rapidly changing nature of this guidance, the current difficulties in air travel, and the implementation of stay-at-home orders, I have not visited these facilities since the COVID-19 outbreak. I have, however, worked closely and frequently with the staff physically located at the FRCs to monitor the implementation of, and compliance with, applicable guidance issued by the CDC and ICE. Nevertheless, the staff on the ground have more familiarity with the specific operations of each facility. Therefore, additional declarations from individuals charged with this oversight at each of the FRCs are being submitted concurrently with my declaration, and I will remain in

² Released into the U.S. interior. The sources for this data are 1) ICE Integrated Decision Support (IIDS), queried on 4/3/2020 with data from Enforcement Integrated Database that is current through 4/1/2020; and 2) information that is manually reported from Family Residential Centers on 4/2/2020, 4/3/2020, and 4/4/2020. This is because IIDS does not have information to cover the currently manually reported data points, until the next IIDS system refresh on Monday, 4/6/2020.

communication with those individuals to ensure that this oversight remains ongoing throughout this crisis.

7. On-site personnel also completed the court-ordered videotaping of the living conditions of the FRCs, at my direction.

Information Listed in the Order Appointing Special Master/Independent Monitor

8. The specific identifying information and detention history for juveniles in ICE custody in any FRC as of March 28, 2020, as outlined in the Order Appointing Special Master/Independent Monitor, at B.1.c.i(i)-(x) is being filed concurrently herewith.
9. Juveniles, and their accompanying parent(s) or legal guardian(s), may be processed for removal proceedings under Section 240 of the Immigration and Nationality Act (INA) or processed for expedited removal pursuant to Section 235 of the INA. Family units processed under *both* provisions are asked to provide possible sponsor contact information and other parole-related information (such as medical and mental health conditions) during intake at an FRC.
10. Family units residing at an FRC that are placed into removal proceedings under Section 240 of the INA are typically detained while a sponsor is identified, release paperwork is processed, and transportation is arranged, which typically takes less than 10 days. Detention times for family units at an FRC that are in expedited removal proceedings pursuant to Section 235 of the INA, typically depend on the speed and results of credible and reasonable fear interviews conducted by the U.S. Citizenship and Immigration Services), as well as, immigration court proceedings conducted by the Executive Office for Immigration Review. Delays due to scheduling and/or rescheduling these adjudications may occur.

11. Family units residing at FRCs who are subject to final orders of removal are increasingly subject to judicial and administrative stays of removal issued by various courts in various cases, which may impact the length of stay at an FRC. The cases involving family units with final orders of removal at FRCs that are subject to judicial stays are individually evaluated for risk of flight to determine whether continued detention is necessary or whether release is a viable option.
12. In addition to the FRC intake questions designed to identify possible sponsors, and other factors that are considered in evaluating continued detention or release, the FRCs proactively screened their populations for individuals that are potentially at a higher risk for serious illness from COVID-19, including pregnant detainees and detainees over the age of 50 years, if any, to determine whether continued detention was appropriate. The FRCs will continue to implement additional COVID-19 guidance as it is received.

This declaration is based upon my personal and professional knowledge, information obtained from other individuals employed by ICE, and information obtained from various records and systems maintained by DHS. I provide this declaration based on the best of my knowledge, information, belief, and reasonable inquiry for the above-captioned case.

Signed on this 6th day of April 2020.

Mellissa B. Harper
Unit Chief, Juvenile and Family Residential Management Unit
ICE Enforcement and Removal Operations

DEFENDANTS' EXHIBIT 3

DECLARATION OF CHRISTOPHER GEORGE

I, Christopher George, hereby declare that the following statements are true and correct to the best of my knowledge, information and belief:

1. I am an Assistant Field Office Director (AFOD) for the U.S. Department of Homeland Security (DHS), U.S. Immigration and Customs Enforcement (ICE), Enforcement and Removal Operations (ERO) – Philadelphia Office. I began my employment with ICE on October 14, 2007 as an Immigration Enforcement Agent and later served as a Deportation Officer and Supervisory Detention and Deportation Officer. I have held my current position as an AFOD, since August 2018. As part of my current duties, I oversee the day-to-day operations relating to the case management of aliens detained at the Berks Family Residential Center (BFRC), located in Leesport, Pennsylvania.
2. The following statements contained in this declaration are based on my personal knowledge and on information provided to me in my official capacity.
3. ICE contracts with Berks County, Pennsylvania for the housing and care of the families housed at the BFRC, pursuant to an Intergovernmental Service Agreement.

Background Information About the BFRC

4. The BFRC can house a maximum of 96 individuals; however, the use of bed space per room will depend on family configuration. Currently there are seven (7) family units, totaling 21 residents, at the BFRC.
5. Conditions at the BFRC, are governed by the ICE Family Residential Standards (FRS), which may be found at the following link: <https://www.ice.gov/detention-standards/family-residential>.
6. ERO at the BFRC is responsible for ensuring detention conditions comply with relevant standards, and must observe, identify, and notify Berks County Staff of any perceived deficiencies in its adherence to the FRS in its management and operation of the BFRC. Additionally, ERO, among other things, conducts individualized custodial determinations; initiates removal proceedings and issues removal orders, as appropriate and consistent with the law; monitors the status of immigration cases pending before the Immigration Court, the Board of Immigration Appeals (BIA) or U.S. Citizenship and Immigration Services (USCIS); addresses inquiries and concerns raised by the residents; and coordinates and handles the execution of removal orders involving residents, who are the subjects of final orders of removal.
7. The BFRC is also subject to Pennsylvania Department of Human Services (PADHS) oversight and must comply with the requirements found under 55 Pa.Code § 3800. ICE and the BFRC honors all requests for inspections and orders from PADHS. The latest PADHS state inspection took place on February 25, 2020, and the PADHS found no deficiencies. PADHS also

conducts routine licensing inspections at the BFRC on a monthly basis. PADHS' last inspection was conducted virtually on March 30, 2020.

Compliance with CDC COVID-19 Prevention Guidelines at the BFRC

8. Since the inception of the Coronavirus Disease 2019 (COVID-19) outbreak in the United States, I have participated in regular meetings with ICE Health Service Corps (IHSC) staff, including with the Health Services Administrator Lieutenant Commander Illecia Benefield; almost daily meetings with the BFRC's Executive Director, Diane Edwards; and daily meetings with senior ICE leadership on resident care during the COVID-19 outbreak. I have also received, and reviewed guidance issued by ICE epidemiologist addressing infection prevention and control protocols, as well as the screening and management of any potential exposure of the disease among residents.
 - a. Ms. Edwards is a Berks County official, who serves as the Executive Director of the BFRC. In this role, Ms. Edwards manages daily operations at the BFRC, as well as Berks County staff at the BFRC, and ensures compliance with PADHS requirements and the FRS.
9. Based on my discussions with IHSC personnel at the BFRC and review of ICE directives, both IHSC and ICE are following guidance issued by the U.S. Centers for Disease Control (CDC) on safeguarding those in its custody and care in light of COVID-19. Ms. Edwards has informed me that the BFRC follows the same CDC guidance, to include the Interim Guidance on Management of COVID-19 in Correctional and Detention Facilities at: <https://www.cdc.gov/coronavirus/2019-ncov/community/correction-detention/guidance-correctional-detention.html>.
10. Each resident is screened for medical issues and for disabilities upon admission. Typically, residents are screened for the presence of a fever, cough, or sore throat within 24 hours of known exposure to someone who tested positive for COVID-19, and/or recent travel through high-risk countries. The residents all have their vital signs taken, and their relevant vaccine history, medical history, and current medication are reviewed.
11. Although the BFRC has not processed-in new families since March 18, 2020, the existing protocols require that during intake, residents are to be assessed for fever and respiratory illness, asked to confirm if they have had close contact with a person with laboratory-confirmed COVID-19 in the past 14 days, and asked whether they have traveled from or through area(s) with sustained community transmission in the past two weeks.
12. Based on my discussions with IHSC personnel at the BFRC and review of ICE guidance, if a resident is exposed to an individual who tests positive for COVID-19 but is asymptomatic, the resident's movement will be restricted for the duration of the most recent incubation period (14 days after most recent exposure to an ill individual). The resident will also be monitored daily for fever and symptoms of respiratory illness. During the incubation period, the resident will be housed (or placed in cohort) with other residents, who were also potentially exposed to

the individual with COVID-19. There is a 14-day incubation period to avoid the resident from becoming an undetected source patient, since he or she may already be contagious with COVID-19 before becoming symptomatic. If the resident shows the onset of fever and/or respiratory illness, he or she will be referred for evaluation to the onsite medical provider. If the resident is then diagnosed with COVID-19, per ICE guidance, the resident will be quarantined in accordance with CDC, as well as, state and local health department guidelines.

- a. Individuals in cohort will continue to be monitored by BFRC staff, who will ensure the resident's other needs continue to be met, to include receiving daily meals and snacks, maintaining continued communication with counsel, family and friends, and engaging in daily exercise, if medically feasible.
 - b. As part of their normal duties, BFRC staff maintains "sight and sound" of all residents – meaning they will monitor the residents to see if they are displaying any symptoms or behavior warranting immediate referral to the in-house health care provider for evaluation and treatment, as appropriate.
13. Family units at the BFRC continue to have daily access to sick call in a clinical setting, onsite mental health and dental services, and an infirmary equipped with negative pressure rooms. The onsite medical provider will refer residents' requiring higher level of care to the local hospital for evaluation and treatment as needed. On March 18, 2020, IHSC, in coordination with offsite healthcare providers, temporarily suspended scheduled elective medical procedures for all residents consistent with CDC guidance.
14. I have been informed by IHSC that as of April 3, 2020, there are zero confirmed cases of COVID-19 at the BFRC.
 - a. There was one case involving a resident, a minor, who had symptoms of coughing and wheezing that the treating healthcare provider found to be consistent with a cold and not COVID-19 given the absence of other general COVID-19 symptoms. However, in abundance of caution, the minor was tested for COVID-19 on March 23, 2020 and the result was negative.
15. The BFRC has a population within their approved capacity and is not overcrowded. The facility is currently operating at 22% capacity.
16. Since at least March 12, 2020, the BFRC staff and residents have received continued COVID-19 education on, among other things, the importance of personal hygiene and social distancing. The residents have been given this training in their preferred language. CDC signage on preventative measures to mitigate against COVID-19, such as frequent handwashing, has also been posted throughout the facility in the English, Spanish, Creole, and Hindi languages given the current nationalities of the families housed at the BFRC.
17. Additionally, the BFRC, in coordination with ICE, has taken the following measures for the safety of residents and facility staff given the CDC's evolving guidance:

- a. As of March 12, 2020 - encourage the residents to engage in social distancing, as well as advise residents to frequently wash their hands and to use hand sanitizer. Residents are also routinely informed about the availability of personal protective equipment (PPE), such as masks and gloves, which are provided upon request.
- b. As of March 18, 2020 - suspended all new admissions to the BFRC.
- c. Suspended the BFRC's in-person educational program in accordance with Pennsylvania Governor Wolf's March 13, 2020 order and March 31, 2020 order, which directed that K-12 schools throughout the state remain closed.
- d. As of March 20, 2020 – suspended all in-person legal visits, in accordance with Governor's Wolf's county and statewide stay at home orders.
 - 1. Although in-person legal visitations have been temporarily suspended, residents may continue to communicate with their attorneys by telephone, email, and written correspondence.
 - 2. Prior to suspending in-person legal visits, the BFRC screened all visitors, to include asking questions to ensure they were not feeling ill or displaying symptoms related to COVID-19, prior to allowing entry into the facility. Visitors who cleared the screening process were required to wash their hands before entering the facility. Although there were no visitors who had a positive COVID-19 screening, had that happened, the individual would have been denied access to the facility.
- e. As of March 12, 2020 - suspended all social visits with residents.
 - 1. Although in-person social visits have been suspended, residents may continue to communicate with their families and others by telephone, email, and written correspondence.
 - 2. Prior to suspending in-person legal visits, the BFRC screened all visitors, to include asking questions to ensure they were not feeling ill or displaying symptoms related to COVID-19, prior to allowing entry into the facility. Visitors who cleared the screening process were required to wash their hands before entering the facility. Although there were no visitors who had a positive COVID-19 screening, had that happened, the individual would have been denied access to the facility.
- f. As of March 12, 2020 - suspended all BFRC resident community field trips, shopping trips, and social trips outside the facility.
- g. As of March 12, 2020 - suspended all volunteer programs, which generally involve members of the local community, that would potentially expose residents to in-person contact.

- h. As of March 12, 2020 - suspended non-essential civilian access to the facility.
- i. As of March 12, 2020 - lifted a ban on the use of alcohol-based hand sanitizers for all staff and residents. BFRC also continues to supply residents with a constant supply of soap for washing hands. Soap dispensers are checked daily and immediately replenished, when necessary. There are no reports of damaged or broken soap dispensing machines. Hand sanitizer dispensers and sanitizing wipes are located throughout the facility for the residents and the BFRC staff's use.
 - 1. Even prior to the ban having been lifted, non-alcohol-based hand sanitizers were and continue to be available for use by the BFRC staff and residents.
- j. Continued cleaning and disinfecting of commonly touched surfaces, such as tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks at various times each day. Moreover, a BFRC supervisor may also direct additional cleaning of these items, as appropriate.
- k. As of March 12, 2020 - increased the frequency in which preventative cleaning procedures are taking place from multiple times a day to continuously throughout the day upon conclusion of a resident's use of the item. These cleaning procedures focuses on routinely used items by the residents, to include recreational items, computers, children toys and entertainment devices.
- l. Since March 7, 2020 - engages in a deep cleaning of all surfaces in areas where residents congregate, including classrooms, dining facilities, and other common areas.
- m. As of March 18, 2020 - temporarily placed non-essential BFRC staff on telework.
- n. As of March 19, 2020 - temporarily closed all *non*-resident weight training rooms and fitness rooms at the BFRC.
 - 1. The exercise room for the residents remains open and is regularly cleaned and monitored to limit the number of individuals in the room at one time to no more than 10 people, as recommended by the CDC in order to promote social distancing.
- o. As of March 13, 2020 - limit medical transports to only when necessary (e.g., medical emergency) with an added requirement that residents and staff wear PPE before and during the transport.
- p. As of March 13, 2020 - limit the service of food items from the soup and salad bar in the BFRC's dining hall to BFRC SERV Safe certified staff. Previously, residents were able to assist in the service of food through the BFRC's Kitchen Work Program. However, this program has been temporarily suspended. BFRC residents do not prepare meals.

- q. As of March 19, 2020 - implemented medical screening for influenza like illness (ILI) symptoms, to include mandatory temperature checks for all BFRC and ICE staff entering the facility pursuant to ICE, CDC, and IHSC guidance. To date, zero staff members have been denied entry into the facility due to exhibiting ILI symptoms.
- r. Continued to provide residents open access to multiple media outlets through television and internet access, thereby allowing for additional education about the COVID-19 pandemic in their preferred language.
- s. Continued regular monitoring of residents and BFRC staff to see if anyone develops ILI symptoms throughout the course of the day.
- t. As of March 16, 2020 – augmented cleaning protocol for shared BFRC staff equipment, such as phones, radios and facility keys, to require that the equipment be cleaned several times a day and upon conclusion of its use.
- u. Continued to thoroughly clean transport vehicles after each use.
- v. As of March 16, 2020 - staggered meal service and lengthened meal service times; rearranged the seating configuration to augment social distancing and assigned seating for families in the dining hall so that each table only has one family per table.
- w. As of March 16, 2020 - changed the food available to residents in kitchenettes on residential floors to individually served, self-contained items. Foods that are not prepacked are served by a BFRC staff member. Whole fruit that is taken by a resident cannot be stored and should be consumed or thrown away. Disposable utensils are being utilized and BFRC staff are also providing these utensils upon request by a resident.
- x. As of March 12, 2020 - limit the size of group activities at the BFRC in accordance with CDC measures recommending social distancing in order to minimize the potential spread of COVID-19.
- y. As of March 16, 2020 - rearranged beds within the bedrooms to provide more space and further foster social distancing among residents.
- z. Before any family units are placed in recently vacated rooms, the rooms are cleaned and sanitized. As of April 5, 2020, the BFRC is only housing one family unit, comprised of a mother or father and their accompanying children, per bedroom, so to enhance separation and encourage social distancing to the greatest extent possible.
 - 1. Since March 18, 2020 - multiple family units that had been housed together in a room began to be separated as vacant rooms became available so that each family unit had their own room. Prior to then, families who roomed together

would remain together, and newly vacant rooms were used for incoming families.

aa. As of March 16, 2020 - provide PPE to residents upon discharge, if requested.

bb. As of the end of February 2020 - increased orders of all supplies, to include soap and hand sanitizer, to ensure items remain fully stocked for the residents' use.

18. In addition to CDC, ICE and IHSC guidance, the BFRC continues to operate in compliance with all mandates issued by the PADHS and the Pennsylvania Department of Health. To date, the BFRC has been found to be in compliance with state guidelines.

Video of the Facilities

19. On April 2, 2020, I was present at the BFRC and used my government issued iPhone to take video footage of different areas within the BFRC. The video shows true and correct images of the conditions at BFRC at the time of my visit.

Continuous Efforts at Releasing Minors

20. ICE makes individual parole determinations for all minors in the facility. Information regarding possible sponsors and other parole factors is gathered shortly after intake. The determination is recorded in a parole worksheet.

21. Most families that come into the BFRC are released within 20 days. In some cases, removal arrangements may take additional days. In other cases, family units have been held beyond 20 days where the family has, for example, a judicial or administrative stay of removal; a pending motion to reopen before the Immigration Court or the BIA; a pending credible fear or reasonable fear claim before USCIS or the Immigration Court; or where the family is pending removal from the United States.

22. Currently there are seven (7) family units at the BFRC. Five (5) of the families are awaiting an Immigration Judge's review of USCIS' negative credible fear determination of their claims; one (1) family, who has a final order of removal, is the subject of stay of removal based on a pending federal court case, and one (1) family has a pending motion to reopen before the Immigration Court. All (7) families have removal orders and are considered to be flight risks.

Executed on this 6th day of April 2020.

Christopher George
Assistant Field Office Director
Office of Enforcement and Removal Operations – Philadelphia Field Office
U.S. Immigration and Customs Enforcement
U.S. Department of Homeland Security

DEFENDANTS' EXHIBIT 4

DECLARATION OF MICHAEL SHERIDAN

I, Michael Sheridan, pursuant to 28 U.S.C. § 1746, hereby declare under penalty of perjury that the foregoing is true and correct.

1. I am currently a Supervisory Management and Program Analyst (SMPA) of Enforcement and Removal Operations ("ERO"), U.S. Immigration and Customs Enforcement ("ICE"), in the San Antonio Field Office. I have held this position since January 2016. I am currently the Contractor Officer Representative (COR) at the South Texas Family Residential Center (STFRC) and the Karnes County Family Residential Center (KCFRC). Prior to assuming my current position, I worked in various other positions within the Department of Homeland Security since starting with the Department on December 08, 2008. The statements contained in this declaration are based upon my personal knowledge or upon information provided to me in my official capacity.
2. As the COR for both Family Residential Centers (FRCs), I manage each intergovernmental service agreement (IGSA) and ensure that the facilities comply with applicable standards. Specifically, at each FRC, I ensure that the Family Residential Standards (FRS) are upheld and contract requirements are adhered to in support of the detention operations that are conducted within each facility. My primary responsibilities include contract oversight at the STFRC and KCFRC, including monitoring of adherence to the FRS, conducting compliance walkthroughs, ensuring operational changes are within contract requirements, and working cohesively with all the stakeholders of the facility.
3. ICE contracts with the GEO Group, Inc. ("GEO") for the management and operation of the KCFRC, and with CoreCivic for the management and operation of the STFRC. The Government is also a party to an intergovernmental service agreement for each FRC with the local government.

Compliance with CDC COV-19 Prevention Guidelines Generally

4. Since the onset of reports of Coronavirus Disease 2019 (COVID-19), ICE epidemiologists have been tracking the outbreak, regularly updating infection prevention and control protocols, and issuing guidance to field staff on screening and management of potential exposure among residents. More information regarding ICE's efforts in response to COVID-19 are available at www.ice.go/covid19.
5. ICE and the ICE Health Service Corps (IHSC) are following guidance issued by the U.S. Centers for Disease Control (CDC) to safeguard those in ICE's custody and care.

1 I directly received the planning guidance from the Office of the Executive Assistant
2 Director on March 24, 2020, under which the STFRC and KCFRC are following the
3 CDC guidance, including the *Interim Guidance on Management of Coronavirus*
4 *Disease 2019 (COVID-19) in Correctional and Detention Facilities*,
5 at: [https://www.cdc.gov/coronavirus/2019-ncov/community/correction-](https://www.cdc.gov/coronavirus/2019-ncov/community/correction-detention/guidance-correctional-detention.html)
6 [detention/guidance-correctional-detention.html](https://www.cdc.gov/coronavirus/2019-ncov/community/correction-detention/guidance-correctional-detention.html). I communicate directly with the
7 Health Services Administrators (HSA) for the STFRC (CDR Johnson) and the KCFRC
8 (Mrs. Green) who provide the COVID guidance issued by ICE IHSC, specifically the
9 *Interim Recommendations for 2019 Novel Coronavirus (COVID-19 Risk, Assessment*
10 *and Early Management* and *Screening and Early Management*, which was updated on
11 March 31, 2020. Upon receipt of the guidance, I tasked the FRC Facility
12 Administrators at STFRC and KCFRC with implementing the operational changes
13 necessary to adhere to the CDC guidance and incorporated it into the guidance for
14 residents and into the duties for personnel.

11
12 **Background Information About South Texas Family Residential Center**
13 **(STFRC/Dilley)**

- 14 6. Conditions of detention at the STFRC are governed by the ICE FRS. The FRS promote
15 a unique, non-secure, open-movement environment which permits parents and children
16 to live in a dorm-like setting with access to education, recreational opportunities, and
17 health care on site. The FRS were developed with input from medical, psychological,
18 and educational subject matter experts and various organizations such as the DHS
19 Office of Civil Rights and Civil Liberties (CRCL) and many non-governmental
20 organizations (NGOs).
- 21 7. The STFRC can house 2,400 individuals but the use of beds depends on family
22 configuration. Currently, as of April 3, 2020, there are 609 individuals in the facility
23 and ICE is housing only 1-2 families per dormitory area, dependent upon family
24 configuration.
- 25 8. ERO at the STFRC is responsible for ensuring that detention conditions comply with
26 relevant standards for managing the immigration cases of detained individuals. In
27 addition, ERO is responsible for observing, identifying, and notifying CoreCivic of any
28 perceived deficiencies in its adherence to the FRS in its management and operation of
the STFRC.
9. The STFRC is also subject to the Texas Department of Family Protective Services
(TXDFPS) oversight. ICE complies with any requests for inspections and orders from

1 the TXDFPS. The latest TXDFPS state inspection took place on February 27, 2020,
2 and the TXDFPS found 3 deficiencies: 2 deficiencies for information not gathered on
3 the initial 72-hour assessment (juvenile chronic health issues and contraindications for
4 use of crisis prevention intervention (CPI) techniques) and a deficiency for the
5 requirement that CPI training be received every 6 months. TXDFPS provided technical
6 assistance and STFRC generated a corrective action plan which it submitted to
7 TXDFPS on March 18, 2020.

8 10. Pursuant to the FRS Admission and Release, Medical Care, and Security, each resident
9 is screened for medical issues and for disabilities upon admission. Medical issues and
10 disabilities identified by IHSC are further evaluated and addressed as medically
11 appropriate.

12 11. Pursuant to CDC guidelines disseminated on March 24, 2020, by the Office of the
13 Executive Assistant Director, prior to entering the STFRC facility, temperature checks
14 are taken at the sally port. See <https://www.cdc.gov/coronavirus/2019-ncov/community/correction-detention/guidance-correctional-detention.html>. During
15 intake medical screenings, residents are assessed for fever and respiratory illness, and
16 are asked to confirm whether they have had close contact with a person with laboratory-
17 confirmed COVID-19 in the past 14 days and whether they have traveled from or
18 through area(s) with sustained community transmission in the prior two weeks.

19 12. The residents' responses, and the results of these assessments, dictate whether the
20 resident is monitored and/or isolated. On the occurrence of a resident presenting with
21 symptoms compatible with COVID-19, he or she will be placed in isolation, and will
22 be tested. The STFRC has 20 medical housing unit (MHU) beds and 6 negative
23 pressure rooms for medical isolation. If testing is positive, the resident will remain
24 isolated, and will be treated. In case of any clinical deterioration, they will be referred
25 to a local hospital. The STFRC has procedures in place to continue monitoring the
26 population's health, including additional temperature checks of residents where
27 medical circumstances indicate the need for additional checks.

28 13. As part of my oversight responsibilities, I spoke to the HSA. The HSA provided me
with, and informed me of, the IHSC guidance providing that, in cases of known
exposure to a person with confirmed COVID-19, asymptomatic residents are placed in
cohorts with restricted movement for the duration of the most recent incubation period
(14 days after most recent exposure to an ill resident) and are monitored daily for fever
and symptoms of respiratory illness. Cohorting is an infection-prevention strategy
involving housing together residents who were exposed to a person with an infectious
organism but who are asymptomatic. This practice lasts for the duration of the 14-day
incubation period, because individuals with these and other communicable diseases can
be contagious before they develop symptoms and can serve as undetected source

1 patients. Those residents who show onset of fever and/or respiratory illness are referred
2 to a medical provider for evaluation. Cohorting is discontinued when the 14-day
3 incubation period ends with no new cases presenting. Per ICE policy, residents
4 diagnosed with any communicable disease who require isolation, including COVID-
5 19, are placed in an appropriate setting in accordance with CDC or state and local health
6 department guidelines.

7 14. Family units at the STFRC have daily access to sick call in a clinical setting, onsite
8 mental health and emergency dental services, and an infirmary equipped with negative
9 pressure rooms onsite. Regular dental services are currently suspended. The facility
10 can admit patients to the local hospital for a higher level of care when needed.

11 15. The medical watch list is a daily generated list of all the residents that the medical
12 department is tracking, such as pregnancies, diabetes, allergies, and other medical
13 conditions. As part of my responsibilities, I receive the medical watch list and all
14 facility medical notifications from IHSC:

15 a. As of April 2, 2020, there are zero confirmed cases of COVID-19 at the
16 STFRC.

17 16. The STFRC has a population within their approved capacities and is not overcrowded.
18 The facility is currently operating at 25% capacity.

19 17. As of March 25, 2020, the STFRC increased sanitation frequency and provides
20 sanitation supplies, as follows:

21 a. All common areas in the facility are being disinfected every 2 hours from
22 8:00am – 8:00pm per day. These areas include resident housing areas,
23 law libraries, dining halls, medical areas, Intake areas, door handles
24 throughout the facility, desk and counter surfaces in high traffic areas,
25 lobby seating areas, restrooms, court rooms and any other areas the facility
26 identifies as needing such cleaning.

27 b. Additional cleaning products have been added to housing areas and are
28 available to residents.

c. Alcohol based disinfectant dispensers have been placed in lobby areas for
public and staff use.

d. Internal facility areas have been equipped with disinfectant dispensers for
use by residents and staff.

- 1 e. Residents have been educated through social-distanced in-person
2 meetings with their assigned CoreCivic Case Managers on best practices
3 to keep from spreading any contagions. Educational posters with
4 illustrations demonstrating good hygiene practices have been placed
5 throughout the facility to include resident living areas.
- 6 f. Each resident is provided with hand soap and/or bar soap, and there is
7 ample access to running water for hand washing and drying supplies.
8 Residents upon admission are provided a small bar of soap. There are
9 soap dispensers, paper towels and sinks in every suite, pantry, restroom
10 and shower areas. In addition, there are hand sanitizer dispensers at
11 recreation, library, visitation, intake and dining. In addition, there are
12 posters in the facility indicating proper hand washing technique. There
13 are posters in English, Spanish, and French Creole that promote
14 handwashing, social distancing and general prevention in all suites,
15 pantries, laundry area, activity rooms, telephone rooms and other common
16 areas around the facility; such as recreation, library, dining and chapel.
- 17 18. The STFRC provides education on COVID-19 to staff and residents to include daily
18 video presentations on hand washing hygiene presented in English and Spanish on
19 housing unit televisions. Through social-distanced one-on-one meetings with their
20 CoreCivic Case Manager, their handbook, orientation, and staff communications,
21 residents are reminded to seek medical care if they feel ill. The STFRC provides
22 residents daily access to medical staff through a sick call process. Medical staff also
23 are available at the medical trailers located throughout the facility grounds.
- 24 19. Due to the current COVID-19 global pandemic, and for the safety of ICE residents and
25 facility staff, as of March 13, 2020, in-person social visitation and facility tours at the
26 FRCs are suspended until further notice.
- 27 20. In-person legal visitation is permitted at the STFRC, and accommodations have been
28 made to respond to the COVID-19 Pandemic. If available, non-contact legal visits
conducted telephonically are offered and strongly encouraged in order to limit exposure
to ICE residents. However, if the attorney believes the legal visit requires contact,
attorneys are able to meet with their clients in the attorney visiting rooms. Legal
visitors who wish to enter the STFRC beyond the lobby must submit to a temperature
check and complete a questionnaire to determine COVID-19 risk. Further, for contact
visits, attorneys must wear the appropriate personal protective equipment (PPE) (eye
protection, surgical or N95 mask, and latex gloves or equivalent), as designated by
CDC guidance. All attorneys are allowed daily access to contact and non-contact
visitation with residents.

- 1 21. Talton Communications is ICE's telecommunications provider, and upon request
2 during the intake process a resident is allowed a phone call and thereafter each resident
3 is provided with a free three-minute phone card at the conclusion of the intake process.
- 4 22. Residents have access to dayrooms (wherein social distancing, as described in
5 paragraph 25 below, is practiced) and telephones 24 hours a day. In addition, residents
6 have access to the law library computers and legal visitation, in compliance with
7 paragraph 20 above, 12 hours a day from 0800-2000. There are 20 telephones per
8 housing complex, which are checked daily and rarely out of order. The only
9 interruptions to dayroom access and telephones are during the evening count during
10 which residents must be by their beds. Counts take approximately 30-45 minutes.
- 11 23. As of March 13, 2020, all family visitation was suspended. Visitors who wish to enter
12 the STFRC beyond the lobby must submit to a temperature check and complete a
13 questionnaire to determine COVID-19 risk. All visitors must provide their own PPE
14 in order to enter the facility.
- 15 24. Staff entering on duty each day must submit to temperature checks and complete
16 questionnaires to determine COVID-19 risk prior to assuming their posts and positions.
- 17 25. On March 23, 2020, the STFRC has implemented the following social distancing
18 strategies to increase physical space between residents:
 - 19 a. No more than 10 residents are allowed in common areas such as the
20 commissary.
 - 21 b. Based on social distancing space available within the library, gymnasium or
22 chapel, no more than 50 residents are allowed in at a time. A schedule has
23 been established to ensure access for each neighborhood and complex within
24 the facility.
 - 25 c. No more than 1-2 family units are placed in a housing unit.
 - 26 d. Dining halls have been rearranged so that resident families are more than six
27 feet apart while eating their meals, and each neighborhood and complex is
28 escorted individually to the dining facilities to ensure appropriate occupancy
 - e. Group activities and school have been suspended for the time being.

1 26. In addition to complying with CDC Guidelines, the STFRC also complies with state
2 guidelines. The following actions have been taken to comply with the Texas state
3 COVID-19 prevention guidelines: Suspension of Education Services and Dental
4 Services, except Emergency Dental Services, which are permitted pursuant to the
5 guidance.

6 **Video of the Facilities**

7
8 27. On April 1, 2020, I went to the STFRC and used a camera to take video footage of
9 twenty-nine different areas. The video shows true and correct images of the conditions
10 within the STFRC at the time of my visit.

11 **Continuous Efforts at Releasing Minors**

12 28. The STFRC makes individual parole determinations for all minors housed in the
13 facility. Information regarding possible sponsors and other parole factors is gathered
14 shortly after intake. The determination is recorded in a parole worksheet.

15 29. The vast majority of families that come into the STFRC are released within 20 days.
16 In some cases, removal arrangements may require additional days. In other cases,
17 family units have stayed beyond 20 days in cases involving judicial stays. Out of the
18 population as of April 3, 2020, 190 of 258 family units have been detained longer than
19 20 days. Of these, 58 families are pending ongoing federal litigation, 46 families are
20 pending removal, 42 families are pending USCIS interview results, 40 families are
21 pending a credible fear review by an Immigration Judge (IJ) review, and 4 families are
22 pending release.

23 **Background Information About Karnes County Family Residential Center**
24 **(KCFRC)**

25 30. Conditions of detention at the KCFRC are governed by the ICE FRS.

26 31. The KCFRC can house 830 individuals, but the use of beds depends on family
27 configuration. Currently there are 433 individuals in the facility and ICE is housing
28 only one family per dormitory area.

32. ERO at the KCFRC is responsible for ensuring detention conditions comply with
relevant standards for managing the immigration cases of detained individuals. In

1 addition, ERO is responsible for observing, identifying, and notifying GEO of any
2 perceived deficiencies in its adherence to the FRS in its management and operation of
3 KCFRC.

4 33. The KCFRC is also subject to TXDFPS oversight. ICE complies with any requests
5 for inspections and orders from the TXDFPS. The latest TXDFPS state inspection took
6 place on February 26, 2020, and the TXDFPS found no deficiencies.

7 **Compliance with CDC COVID-19 Prevention Guidelines**

8
9 34. Each resident is screened for medical issues and for disabilities upon admission.
10 Identified disabilities and medical issues are further evaluated and addressed as
11 medically appropriate.

12 35. Pursuant to CDC guidelines, prior to entering the KCFRC facility, temperature checks
13 are taken at the sally port. See <https://www.cdc.gov/coronavirus/2019-ncov/community/correction-detention/guidance-correctional-detention.html>. During
14 intake medical screenings, residents are assessed for fever and respiratory illness, are
15 asked to confirm if they have had close contact with a person with laboratory-
16 confirmed COVID-19 in the past 14 days, and whether they have traveled from or
through area(s) with sustained community transmission in the past two weeks.

17 36. The residents' responses, and the results of these assessments, dictate whether to
18 monitor or isolate the resident. Those residents presenting with symptoms compatible
19 with COVID-19 are placed in isolation and are tested. On the occurrence of a positive
20 test, the resident will remain isolated and treated. In case of any clinical deterioration,
21 they will be referred to a local hospital. The KCFRC has procedures to continue
monitoring the population's health, including additional temperature checks of
residents where medical circumstances indicate the need for additional checks,

22 37. Cohorting is used at KCFRC in the same manner described above. Family units at the
23 KCFRC have daily access to sick call in a clinical setting, onsite mental health and
24 emergency dental services, and an infirmary equipped with negative pressure rooms
25 onsite. The facility can admit patients to the local hospital for a higher level of care
when needed.

26 38. As part of my responsibilities, I receive the Medical update from the HSA during the
27 weekly KCFRC Stakeholder meeting and all facility medical notifications from GEO
28 Medical staff:

- 1 a. As of April 3, 2020, there are zero confirmed cases of COVID-19 at the
2 KCFRC.
- 3 b. There were 3 ICE Residents who were tested for COVID-19 due to the
4 symptoms they were experiencing, but whose test results were negative.
5 The three patients have been cleared and returned to general population.
- 6 c. On March 13, 2020, there was one family unit (FAMU) that arrived at the
7 KCFRC with an unverifiable travel history. The FAMU was
8 asymptomatic and afebrile. All three were tested for COVID-19 and
9 placed in medical observation for 14 days. The test results returned
10 negative. and the FAMU was returned to general population.
- 11 39. The KCFRC has a population within their approved capacities and is not overcrowded.
12 The facility is currently operating at approximately 52% capacity.
- 13 40. Pursuant to CDC guidelines, the KCFRC has increased sanitation frequency and
14 provides sanitation supplies as follows:
 - 15 a. All common areas in the facility are being disinfected multiple times per
16 day. KCFRC has resident compound workers that are overseen by staff
17 and assigned to disinfecting all high-touch areas, i.e. handrails, picnic
18 tables, door handles, toys, windows, benches, chairs, counters. This is
19 completed sanitation practice is conducted twice daily (AM and PM).
20 This does not include the staff cleaning teams that disinfectant the high
21 touch area throughout the day. The PM staff cleaning crew utilizes spray
22 disinfectant to the play areas and grounds (the entire parks is covered in
23 artificial grass). All cleaning products used for this process are CDC
24 approved. These areas include resident housing areas, law libraries, dining
25 halls, medical areas, Intake areas, door handles throughout the facility,
26 desk and counter surfaces in high traffic areas, lobby seating areas,
27 restrooms, court rooms and any other areas the facility identifies as
28 needing such cleaning.
 - b. Additional cleaning products have been added to the clean cart that is
made available to housing areas and are available to residents upon
request. Halt is a CDC approved disinfectant utilized on cleaning carts.
These carts are available for residents to utilize during the waking hours
for their rooms and all common areas.

- 1 c. Alcohol based disinfectant dispensers have been placed in lobby areas for
2 public and staff use.
- 3 d. Internal facility areas have been equipped with disinfectant dispensers for
4 use by residents and staff.
- 5 e. Residents have been educated through in-person meetings with their
6 designated GEO Case Manager on best practices to keep from spreading
7 any contagions. Educational posters with illustrations demonstrating
8 good hygiene practices have been placed throughout the facility to include
9 detainee living areas.
- 10 f. Residents are provided with liquid soap in their bathroom; there is ample
11 access to running water for hand washing and drying supplies. There is a
12 coordinated effort between Case Management and the Fire & Safety
13 departments to inspect all staff restrooms, residents' rooms, and any other
14 location that may have a hand-washing station. This is to ensure there is
15 an abundant level of soap, disposable paper towels, tissue/toilet paper and
16 a trash receptacle for disposal purposes. In addition, there are posters in
17 the facility indicating proper hand washing technique. KCFRC has posters
18 that are in English and Spanish. These posters illustrate hands washing
19 techniques, the use of soap, the 20 second timeframe at which they are to
20 run their hands under water, use of the paper towels for drying their hands,
21 and to properly dispose paper towels in the trash receptacles. KCFRC has
22 support services staff, with the assistance of language lines, to assist with
23 any residents who cannot read or understand the illustrated posters
24 displayed throughout the facility.

25 41. The KCFRC provides education on COVID-19 to staff and residents to include daily
26 video presentations on hand washing hygiene presented in English and Spanish on
27 housing unit televisions. Residents are reminded to seek medical care if they feel ill.
28 At both FRCs, residents have a resident Handbook in the English and Spanish
languages, with language lines available to interpret the handbook, that outlines the
Medical services offered at the facility, residents receive an orientation on the
handbook and facility operations, receive updates from their Case Managers if they
have questions or need assistance on adapting the facility, and can approach staff who
will direct or if needed, escort them to medical. The KCFRC provides residents 24-
hour access to medical staff through a sick call process.

42. For the safety of ICE residents and facility staff, as of March 13, 2020, in-person social
visitation and facility tours at the KCFRC were suspended until further notice.

1
2 43. However, residents have access to dayrooms, telephones, law library computers, and
3 tablets. There are telephones in each housing unit, which are checked daily and rarely
4 out of order. The only interruptions to dayroom access and telephones are during
5 evening count during which Residents must be by their beds. Counts take
6 approximately 30-45 minutes.

7 44. Talton Communications is ICE's telecommunications provider, and upon request
8 during the intake process a resident is allowed a phone call and thereafter each resident
9 is provided with a free three-minute phone card at the conclusion of the intake process.

10 45. The KCFRC has 5 tablets available with video visitation and audio capabilities, which
11 residents can use to communicate with attorneys.

12 46. In-person legal visitation at the KCFRC is currently occurring via tablet
13 communication. However, if the attorney believes the legal visit requires contact,
14 attorneys are able to meet with their clients in the attorney visiting rooms. For contact
15 attorney visits, attorneys may elect to wear self-provided PPE depending upon their
16 client's health. All attorneys are allowed daily access to contact and non-contact
17 visitation with residents.

18 47. All visitors, including attorneys, who wish to enter the KCFRC beyond the lobby must
19 submit to a temperature check and complete a questionnaire to determine COVID-19
20 risk.

21 48. Staff entering on duty each day must submit to temperature checks and complete
22 questionnaires to determine COVID-19 risk prior to assuming their posts and positions.

23 49. The KCFRC has implemented the following social distancing strategies to increase
24 physical space between residents.

25 a. No more than 10 are allowed in common areas such as the activity rooms,
26 dayroom, playscapes, library and other indoor amenities.

27 b. Satellite feeding has been implemented in order to reduce congestion in the
28 dining halls. Satellite feeding is the delivery of food service outside of the
dining facilities. Satellite feeding is accomplished through individual
containers, such as pots with lids; or larger conveyances that can move
objects in bulk, such as enclosed, satellite feeding carts. All food safety
provisions (sanitation, safe handling, storage, etc.) apply to food in transit.

1
2 c. Group activities and school have been suspended indefinitely.

3 50. In addition to complying with CDC Guidelines, the KCFRC also complies with state
4 guidelines. The following actions have been taken to comply with the Texas state
5 COVID-19 prevention guidelines: Suspension of Education Services and Dental
6 Services, except Emergency Dental Services.

7 **Video of the Facilities**

8 51. On April 2, 2020, I went to the KCFRC to take video footage of 29 different areas.
9 The video shows true and correct images of the conditions within the KCFRC at the
10 time of my visit.

11 **Continuous Efforts at Releasing Minors**

12 52. The KCFRC makes individual parole determinations for all minors in the facility.
13 Information regarding possible sponsors and other parole factors is gathered shortly
14 after intake. The determination is recorded in a parole worksheet.

15 53. The vast majority of families that come into the KCFRC are released within 20 days.
16 In some cases, removal arrangements may take additional days. In other cases, families
17 have remained in custody beyond 20 days in cases involving judicial stays. On April
18 3, 2020, 93 of 134 family units have been detained longer than 20 days due to judicial
19 stays. Of these families, 12 are pending USCIS interview results, 12 families are
20 pending ongoing litigation, 31 families are pending removal, and 38 families are
21 pending an asylum Immigration Judge (IJ) review.

22 Executed this 6 day of April, 2020 at 8:30AM.
