

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF NEW YORK

CESAR FERNANDEZ-RODRIGUEZ; ROBER
GALVEZ-CHIMBO; SHARON HATCHER;
JONATHAN MEDINA; and JAMES WOODSON,

individually and on behalf of all others similarly
situated,

Petitioners,

-against-

WARDEN MARTI LICON-VITALE,

Respondent.

No. 20 Civ. 3315 (ER)

**DECLARATION OF
ISHITA KALA**

ISHITA KALA declares pursuant to 28 U.S.C. § 1746:

1. I am an attorney at Covington & Burling LLP, counsel to the Petitioners in this action. I am submitting this declaration to put documents before the Court in connection with Petitioners' motion for a Preliminary Injunction in this case. This declaration is based on my personal knowledge and on information and documents in the possession of my firm.

2. Attached hereto as Exhibits are true and correct copies of the following discovery materials in this action, which are referred to in the accompanying papers in support on Petitioners' motion:

Ex.	Date	Document / Description
1.	May 20, 2020	Deposition transcript of Dr. Robert Beaudouin (excerpts)
2.	May 20, 2020	Deposition transcript of Charisma Edge (excerpts)
3.	May 19, 2020	Deposition transcript of Cesar Fernandez-Rodriguez (excerpts)
4.	May 19, 2020	Deposition transcript of Rober Galvez-Chimbo (excerpts)

Ex.	Date	Document / Description
5.	May 19, 2020	Deposition transcript of Sharon Hatcher (excerpts)
6.	May 22, 2020	Deposition transcript of Robert Hazlewood (excerpts)
7.	May 21, 2020	Deposition transcript of Marti Licon-Vitale (excerpts)
8.	May 21, 2020	Deposition transcript of Nicholas Sueich (excerpts)
9.	May 19, 2020	Deposition transcript of James Woodson (excerpts)
10.	May 13, 2020	Photograph taken during MCC inspection visit – dormitory on 11 South This exhibit is being filed under seal.
11.	May 13, 2020	Photograph taken during MCC inspection visit – dormitory on 11 South This exhibit is being filed under seal.
12.	May 13, 2020	Photograph taken during MCC inspection visit – sink on 11 South This exhibit is being filed under seal.
13.	May 13, 2020	Photograph taken during MCC inspection visit – cockroach caught in a trap on 11 South This exhibit is being filed under seal.
14.	May 13, 2020	Photograph taken during MCC inspection visit – empty cell in the Solitary Housing Unit This exhibit is being filed under seal.
15.	May 13, 2020	Photograph taken during MCC inspection visit – empty cell in the Solitary Housing Unit This exhibit is being filed under seal.
16.	May 13, 2020	Photograph taken during MCC inspection visit – telephone on 11 South This exhibit is being filed under seal.
17.	May 13, 2020	Photograph taken during MCC inspection visit – computers in the Women’s Unit This exhibit is being filed under seal.

Ex.	Date	Document / Description
18.	May 13, 2020	Photograph taken during MCC inspection visit – trash receptacle and disinfectant solution on the Women’s Unit This exhibit is being filed under seal.
19.	May 13, 2020	Photograph taken during MCC inspection visit – computer terminal and rag This exhibit is being filed under seal.
20.	Mar. 23, 2020	<i>Interim Guidance on Management of Coronavirus Disease (COVID-19) in Correctional and Detention Facilities</i> , CDC (Mar. 23, 2020), https://www.cdc.gov/coronavirus/2019-ncov/community/correction-detention/guidance-correctional-detention.html , Bates MCC PET 0000615
21.	Mar. 26, 2020	Memorandum For Director of Prisons re Prioritization of Home Confinement As Appropriate in Response to COVID-19 Pandemic, Office of the Attorney General, Washington, D.C., Bates MCC PET 0000644
22.	Apr. 3, 2020	Memorandum For Director of Bureau of Prisons re Increasing Use of Home Confinement at Institutions Most Affected by COVID-19, Office of the Attorney General, Washington, D.C., Bates MCC PET 0000641

VIDEO DEPOSITION OF
DR. ROBERT BEAUDOUIN
May 20, 2020

Reported by:
ERICA L. RUGGIERI, RPR

1 DR. ROBERT BEAUDOUIN

2 coverage. So this doesn't
3 essentially apply to us because we
4 don't have -- we don't have 24-hour
5 coverage.

6 Q. Under the heading Purpose,
7 do you see the text there?

8 A. Yes.

9 Q. Is the purpose of this
10 document to provide guidance on
11 setting up an infirmary for COVID-19
12 patients at an institution without
13 an on-site infirmary?

14 A. Yes. But we don't have the
15 capacity to set up an infirmary.

16 Q. So has the MCC created any
17 sort of on-site infirmary to deal
18 with the COVID-19 pandemic?

19 A. No.

20 Q. And you mentioned that this
21 document -- please go ahead.

22 A. Okay. The infirmary would
23 mean that we would need 24-hour
24 coverage. We don't have the
25 capacity to provide 24-hour

1 DR. ROBERT BEAUDOUIN

2 not apply. Of course there are
3 certain things that not only
4 specific to something as specific to
5 isolation we will follow them but we
6 do not have an infirmary to do the
7 isolation infirmary -- to follow the
8 isolation infirmary guidance.

9 Q. But the MCC is putting
10 individuals with suspected or
11 confirmed COVID-19 in isolation?

12 A. Yes.

13 Q. But it does not have the
14 resources to follow this infirmary
15 isolation guidance?

16 A. Yes -- no, we don't have
17 the resources to do it.

18 Q. Do you recall a time
19 earlier this year when the MCC was
20 on lockdown due to a weapon being
21 brought into the facility?

22 A. Yes.

23 Q. Do you recall around when
24 that was?

25 A. I believe it was in

1 DR. ROBERT BEAUDOUIN

2 BOP, Bates MCC 1726, marked for
3 identification, as of this date.)

4 Q. This is a memo issued by
5 the BOP dated February 29, 2020,
6 concerning COVID-19 guidance, Bates
7 number MCC 1726.

8 So Mr. Beaudouin, you
9 established you are familiar with
10 this guidance?

11 A. Yes.

12 Q. And this is a memo that the
13 BOP circulated about preparation
14 that federal prison facilities
15 should be taking for COVID-19?

16 A. Yes.

17 Q. Do you recall when you
18 first became aware of this memo?

19 A. No. But I would say after
20 the memo was sent to the staff -- I
21 think the memo was sent to the -- it
22 just general agency and then he sent
23 it to me and our HSA, I think that
24 is around the time that I became
25 aware of it.

1 DR. ROBERT BEAUDOUIN

2 Q. Would you say that was
3 around February 29th?

4 A. Probably around the time.
5 Probably not too far after that I
6 would say.

7 Q. Do you understand that in
8 this memorandum the BOP was making
9 recommendations about procedures
10 such as screening inmates?

11 A. Yes.

12 Q. Do you understand that
13 around this time the BOP was making
14 recommendations about establishing
15 baseline PPE supplies?

16 A. Yes.

17 Q. Are you familiar with a
18 pandemic influenza plan that was
19 established in 2012?

20 A. I could -- I can say I know
21 they asked us to review it but I
22 didn't review it -- we didn't review
23 it. We read it -- we read it but
24 it's not like we read it like study
25 it. So we essentially know that

1 DR. ROBERT BEAUDOUIN

2 COVID-19?

3 A. Yes.

4 Q. Do you remember when that
5 happened?

6 A. I don't remember exactly
7 when that happened, no.

8 Q. Would you say that was also
9 around the end of March?

10 A. Yes.

11 Q. Were you involved with the
12 discussions about this?

13 A. Yes.

14 Q. Who else was involved in
15 these discussions?

16 A. I think -- I think the BOP
17 warden Mr. McFarland either asked
18 for us to develop a list or it could
19 have been the HSA or the AW or the
20 warden. I know that there was a
21 need to develop that list because
22 the CDC had a list of people would
23 be at higher risk of infection or
24 severe illness from COVID-19.

25 Q. So you think some assistant

1 DR. ROBERT BEAUDOUIN

2 diagnosis too. VEMA, V-E-M-A. I'm
3 sorry for my accent, I have been
4 working on it for a while.

5 Q. There's no need to
6 apologize for that.

7 Is it your understanding that
8 everyone you recommended to be on
9 the list was included in the final
10 list of vulnerable inmates?

11 A. I don't know because I
12 didn't see the list and I didn't
13 collect the information so I don't
14 know.

15 Q. Did you ever add more
16 inmates to this list?

17 A. I don't think so.

18 Q. Do you know what steps were
19 taken to protect the inmates you
20 identified as most vulnerable?

21 A. Well, the inmates -- I
22 think -- I think most of inmates
23 were more serious medical condition,
24 housed in 11 South. So we know if
25 we get a call from 11 South, it

1 DR. ROBERT BEAUDOUIN

2 could be an inmate with a serious
3 medical condition. Not that there
4 are no other inmates with other
5 serious illness or serious medical
6 condition that cannot be in another
7 unit but 11 South had more inmates
8 with medical condition there.

9 Q. Do you know if that just
10 happened to be the case or if
11 inmates were moved to 11 South?

12 A. I think at some point
13 inmates were moved to 11 South. And
14 that was -- I think that was even
15 before -- before COVID-19.

16 Q. Before COVID-19 you think
17 the vulnerable inmates were moved to
18 11 South?

19 A. Right. I think so.

20 Q. Were you involved in the
21 decision to move them?

22 A. No.

23 Q. Do you know who made that
24 decision?

25 A. I think it was done at the

1 DR. ROBERT BEAUDOUIN

2 symptom so every staff member know
3 if they have symptoms what to do and
4 everybody essentially know.

5 Q. Do the staff members know
6 what to do if they have had exposure
7 to someone with symptoms?

8 A. Yes.

9 Q. And what are the --

10 A. In general, if you have
11 exposure to someone who has they
12 should call human resources say they
13 have exposure and then human
14 resources will tell them what the
15 CDC recommend or the BOP recommends
16 is to go in quarantine for 14 days
17 and you may need to talk to your
18 doctor. At the beginning quarantine
19 was what was recommended, not being
20 tested, unless you are sick enough
21 to go to the hospital and think --
22 and you are going to be admitted,
23 you are not going to be tested.
24 They would say stay in quarantine
25 for 14 days and see how your

1 DR. ROBERT BEAUDOUIN

2 symptoms are and then you could
3 report later. Essentially you had
4 to still talk to your doctor.

5 Q. Were you ever personally
6 involved with conducting new
7 screenings?

8 A. I am not sure. I may have.
9 I don't think. I'm not sure really.
10 You know, different staff member in
11 the medical were doing it. I am not
12 sure I did. I may have but I can't
13 remember exactly right now.

14 Q. Is it your understanding
15 that when they are conducting the
16 screening they ask -- they follow
17 this form?

18 A. Yes. You have to check yes
19 or no on this form. So yes, they do
20 it.

21 Q. So what happens when a
22 staff member shows symptoms?

23 A. Okay. They would follow
24 the recommendation. Contact -- if
25 they have symptom, they contact the

1 DR. ROBERT BEAUDOUIN

2 Q. Any additional staff tested
3 positive since May 13th?

4 A. I don't know.

5 Q. Are you informed when a
6 staff member tests positive?

7 A. So actually I spoke with
8 the human resource manager. He told
9 me for the past two weeks there were
10 no positive tests. So that's a
11 correction.

12 Q. Are you informed when a
13 staff member tests positive?

14 A. I wasn't being informed
15 regularly. At first the AW, I
16 think, was contacting the HSA to do
17 the contact investigation. And then
18 after the HSA got sick and she was
19 contacting me, but I think she
20 contacted me like three or four
21 times to do some contact
22 investigation but from the chart
23 there are many more staff that
24 needed some contact investigation
25 who tested positive. But what we

1 DR. ROBERT BEAUDOUIN

2 are doing now is that the human
3 resource manager is sending me this
4 form so I also told him that if
5 anybody tests positive, he needs to
6 let me know or let the assistant HSA
7 know so we can do -- for him to
8 provide us the list of possible
9 contact for the staff, for us to do
10 a contact investigation. So we
11 working on improving -- improving
12 the contact investigation.

13 Q. And you haven't been
14 informed of anyone else who tested
15 positive?

16 A. For the past two weeks he
17 told me no, there are nobody -- or
18 there is nobody who tested positive
19 -- positive.

20 Q. Are you responsible for
21 conducting contact investigations?

22 A. I don't know if that's my
23 duties but another thing, you know,
24 another thing in medical, whenever
25 there's something, it's like a

1 DR. ROBERT BEAUDOUIN

2 medical job. So in term of doing
3 the contact investigation it's --
4 essentially anybody can do it. Like
5 outside they are hiring clubs to do
6 contact investigation. They are not
7 hiring doctors to do contact
8 investigation. But anybody can do
9 it but somebody medical other than
10 me or the assistant HSA will be
11 doing it. So we going to tighten up
12 on the contact investigation.

13 Q. So your understanding is to
14 date only three or four of these
15 individuals or four -- only three or
16 four of these individuals have
17 contact tracing been done?

18 A. Right, yes. That I have
19 done.

20 Q. Do you understand that
21 there were multiple instances when
22 staff who were positive for COVID-19
23 continued to report to work at the
24 MCC?

25 A. I don't know that.

1 DR. ROBERT BEAUDOUIN

2 Q. Could you please direct
3 your attention to the entry for case
4 number NYM-06?

5 A. Okay. NYM-06, yes.

6 Q. And apologies if your print
7 out is small. But does this
8 indicate that the staff member
9 symptoms began on March 25th, 2020?

10 A. That's what it says there,
11 March 25th, 2020.

12 Q. Does this indicate that the
13 staff member got a COVID test on
14 March 25th?

15 A. Yes, March 25th.

16 Q. Does this indicate that the
17 result of the test was positive?

18 A. Yes. Does this indicate --
19 we don't have the date. We have the
20 test date. When the result I don't
21 know that they put the result on
22 here. I don't know when they got
23 the result though.

24 Q. Does this indicate that the
25 staff member continued reporting to

1 DR. ROBERT BEAUDOUIN

2 work until March 28th?

3 A. Yes.

4 Q. Even if the staff member
5 did not have a positive test by that
6 date, would you have recommended
7 that that individual continue coming
8 to work?

9 A. If the staff member had
10 symptoms -- well, he had symptoms so
11 I would recommend that he didn't
12 come to work.

13 Q. Can you direct your
14 attention for the entry NYM-45?

15 A. Okay. 45.

16 Q. Does this indicate that the
17 staff member symptoms began on
18 March 24th, 2020?

19 A. Yes.

20 Q. Does this indicate that the
21 staff member continued to report to
22 work until March 29th, 2020?

23 A. Yes.

24 Q. Does this indicate that the
25 staff member tested positive for

1 DR. ROBERT BEAUDOUIN

2 COVID-19?

3 A. Yes.

4 Q. Would you again have the
5 recommendation that this staff
6 member should not have reported to
7 work?

8 A. Yes.

9 Q. Can you please direct your
10 attention to the entry for case
11 number NYM-33?

12 A. Yes.

13 Q. Does this indicate that the
14 staff member symptoms began on
15 April 13, 2020?

16 A. Yes.

17 Q. Does this indicate that the
18 staff member had a COVID test on
19 April 13, 2020?

20 A. Yes.

21 Q. Does this indicate that the
22 result of that test was positive?

23 A. Yes.

24 Q. Does this indicate that the
25 staff member continued to report to

1 DR. ROBERT BEAUDOUIN

2 work until April 19, 2020?

3 A. Yes.

4 Q. Would you again have
5 recommended that this staff member
6 not report to work?

7 A. I would recommend that he
8 or she didn't report to work,
9 correct.

10 Q. If you look at the return
11 to duty date since tested positive
12 column, does this indicate that this
13 individual returned to work on
14 April 28th, 2020?

15 A. Yes.

16 Q. And if you look at the
17 additional information column, does
18 this indicate that the individual
19 tested positive again on May 8th,
20 2020?

21 A. Yes.

22 Q. Would it be your
23 understanding that this individual
24 was still positive for COVID when
25 they returned to work on April 28th?

1 DR. ROBERT BEAUDOUIN

2 A. Yes.

3 Q. Would you please direct
4 your attention for the entry for
5 NYM-27?

6 A. 27, yes.

7 Q. Does this indicate that the
8 staff member's symptoms began on
9 April 6, 2020?

10 A. Yes.

11 Q. And a COVID test on
12 April 13, 2020?

13 A. Yes.

14 Q. Does this indicate that the
15 result of the test was positive?

16 A. Yes.

17 Q. Does this indicate that the
18 individual continued to report to
19 work until April 16th?

20 A. Yes.

21 Q. Would it be your
22 recommendation that this individual
23 should not have reported to work?

24 A. Yes.

25 Q. Now, again - -

1 DR. ROBERT BEAUDOUIN

2 A. Also my recommendation --
3 it's also my recommendation, most
4 likely the staff member was wearing
5 a face mask while he was at work, so
6 which mean he's unlikely if he's
7 wearing a face mask and taking the
8 usual precautions he's probably
9 unlikely to transmit the disease.

10 Q. But he was working at the
11 MCC with a positive case of COVID?

12 A. Yes.

13 Q. Does this -- going to the
14 last column again. Does this
15 indicate that this individual
16 returned to work on April 28th,
17 2020?

18 A. Which -- which case we
19 talking about right now?

20 Q. We are talking about
21 NYM-27?

22 A. 27. He report to work --
23 he report to work on the 13th --
24 no, I'm sorry, on the 16th.

25 Q. Yeah. I think --

1 DR. ROBERT BEAUDOUIN

2 A. I'm sorry, kind of confused
3 there.

4 Q. No, sorry. That was my
5 fault.

6 So we are looking at the entry
7 for NYM-27. And it indicates that
8 the last date that they -- sorry,
9 the date until which they continued
10 to work is April 16, 2020, correct?

11 A. Yes.

12 Q. Does this indicate that
13 this individual returned to work on
14 May 4th, 2020?

15 A. Yes.

16 Q. And does this indicate that
17 the individual tested positive again
18 on May 10, 2020?

19 A. Yes.

20 Q. Would it be your
21 understanding that this individual
22 returned to work while they were
23 still positive for COVID-19?

24 A. Yes.

25 Q. Is a negative COVID-19 test

1 DR. ROBERT BEAUDOUIN

2 they were so I did not go exactly to
3 see what this process is. I just
4 ask for the names. So what I would
5 think is that if you work in an
6 office or in the same department,
7 these are your contacts, of course
8 they are the people you get in
9 contact with. The people you work
10 closely with would be the people you
11 are in contact and of course others
12 and also he could have contact with
13 inmates.

14 Q. Do you know if there's a
15 policy detailing how contact tracing
16 should be done?

17 A. No, I don't know.

18 Q. Do you have any sort of
19 tracker that you can look at to see
20 of the individuals who have tested
21 positive for COVID-19 who -- for
22 whom have a contact tracing
23 investigation been performed?

24 A. No.

25 Q. Do you have a list of all

1 DR. ROBERT BEAUDOUIN

2 question?

3 Q. Would it be correct to say
4 that you do not receive information
5 about individuals who are out of the
6 office due to COVID-19 symptoms but
7 have not taken a test for it?

8 MR. BARNEA: Same objection.

9 A. Yes, that's correct.

10 Q. For the contact
11 investigations you have performed,
12 what steps are taken for those who
13 came into contact with that staff
14 member?

15 A. Well, the screening form, I
16 use the screening form on them and I
17 do take their temperature and 6 CK
18 it has a different symptom. In my
19 cases when I did them, none of them
20 had temperature, taking their
21 temperature none of them had a fever
22 and they didn't have any symptoms.

23 Q. So if a staff member has
24 been in contact with another staff
25 member who has tested positive for

1 DR. ROBERT BEAUDOUIN

2 COVID-19, that staff member is
3 expected to continue reporting to
4 work unless they themselves
5 displayed a symptom; is that
6 correct?

7 A. Yes, that's my
8 understanding. Wait. CK test a
9 staff member who has tested positive
10 and has contact with somebody who
11 has no symptom and the question is
12 that the contact is expected to come
13 to work, is that your question?

14 Q. Yes.

15 A. Yeah, the contact is
16 supposed to come work, the contact
17 supposed to wear the face mask and
18 also take the regular precautions.

19 Q. In the contact
20 investigations you have conducted
21 have you identified inmates that a
22 positive staff member has been in
23 contact with?

24 A. When I did the contact
25 investigation we were -- we were

1 DR. ROBERT BEAUDOUIN

2 screening of the inmate when we are
3 doing the COVID-19 screening while
4 they are in quarantine or isolation.

5 Q. When did the MCC start
6 screening inmates for COVID-19?

7 A. We started screening I
8 think after at the end of March
9 after we had the first case.

10 MS. KALA: Could everyone open
11 or turn to the document that has
12 been marked Exhibit 9.

13 (Exhibit 9, Inmate Screening
14 Tool, Bates MCC 1469, marked for
15 identification, as of this date.)

16 MS. KALA: This is the
17 COVID-19 Inmate Screening Tool
18 dated February 2020, Bates No. MCC
19 1496.

20 MR. BARNEA: 1469.

21 MS. KALA: Thank you. 1469.

22 Q. Are you familiar with this
23 document?

24 A. Yes.

25 Q. Can you tell me what it is?

1 DR. ROBERT BEAUDOUIN

2 is, you do admissions.

3 Q. I'm talking about the
4 screening that is performed on a
5 day-to-day basis for general
6 population inmates.

7 A. Okay, the screening. So we
8 go through the cell, we take their
9 temperature. We ask them the usual
10 questions, do you have cough, chest
11 pains, shortness of breath, fever,
12 nausea, vomiting, diarrhea, loss of
13 taste, loss of smell, muscle aches
14 and pains. We do that essentially I
15 know on the first two or three days
16 of contacting the inmate we do that.
17 After a while because I know that
18 there was a complaint from the
19 inmate saying that we don't ask them
20 these questions anymore. I asked
21 the staff do we still continue to do
22 that. They say we do it two or
23 three times. So next time how are
24 you doing you. And also since I'm
25 seeing the patient I can look at the

1 DR. ROBERT BEAUDOUIN

2 patient and see how he's doing. I
3 ask him how are you doing. If they
4 say I'm fine and the temperature is
5 good, it's normal, then I'm good
6 with it. But if the patient was
7 sick, I would send the inmate to
8 medical to be examined. So that's
9 how we have been doing it.

10 But I understand the problem
11 was that the inmate was saying that
12 we stop asking them the usual
13 symptoms and I instructed the staff
14 forward to continue asking them the
15 usual questions, besides taking the
16 temperature to ask them the usual
17 questions. Right now we doing one
18 unit every day and unit 11 we do it
19 twice a week.

20 Q. Is there any sort of
21 document that's used for this
22 screening process?

23 A. Well, at first we are using
24 the image screening tool. Since we
25 have more than 700 inmates it's

1 DR. ROBERT BEAUDOUIN

2 become cumbersome to be copying this
3 page, you know, so many times. So
4 we started using the roster and
5 write on the side of the roster the
6 temperature and if that are some
7 symptoms we write it on the side
8 too.

9 Q. Did you say roster?

10 A. Yeah. Roster, R-O-S-T-E-R.

11 Q. Got it. Are the results of
12 the screenings recorded in any way
13 besides being on the roster?

14 A. No. We didn't report it
15 because of staffing because it takes
16 -- it takes time. It takes really a
17 lot of time. There's 700 inmates.
18 The only thing that was recorded in
19 isolation. In isolation the
20 temperature was recorded. But
21 usually in quarantine we did not
22 record them. We tested weekend
23 records.

24 Q. You mentioned that one unit
25 is being screened every day. What

1 DR. ROBERT BEAUDOUIN

2 does that mean?

3 MR. BARNEA: Objection to
4 form.

5 A. No, no. We screen one unit
6 a day, not one unit every day.
7 Let's say we have unit 2, unit 3 is
8 a quarantine unit, unit 5 -- unit 5,
9 unit 7, unit 9, unit 11. Unit 2 is
10 only once a week. We go and take
11 the inmates temperature once a week.
12 We do for seven. That's what I'm
13 trying to say. Unit 11 we do it
14 twice a week.

15 Q. Was there ever a time where
16 the screening was being done more
17 frequently?

18 A. I'm sorry to interrupt you.
19 11 South, not 11 north.

20 Yes. There was a time that we
21 were doing it every day when we had
22 COVID cases, we were screening every
23 unit every day.

24 Q. When was that?

25 A. More than two weeks ago.

1 DR. ROBERT BEAUDOUIN

2 Q. And do you know roughly how
3 long that lasted for?

4 A. I think everything started
5 after end of March.

6 Q. What happens if someone
7 displayed symptoms of COVID-19
8 during the screening?

9 A. Okay. Somebody developed
10 symptoms then we going to examine
11 them further. We going to bring
12 them -- first we going to put a face
13 mask, bring them to medical so we do
14 a further examination.

15 Q. Is this done when an inmate
16 displays any symptoms of COVID-19?

17 A. Yes. Any symptoms, as long
18 as they have symptoms, yes, we would
19 do it.

20 Q. What happens if someone has
21 a fever?

22 A. Well, the fever is like the
23 most important symptom in general.
24 If somebody has a fever, yes.
25 Person has a fever, then we are

1 DR. ROBERT BEAUDOUIN

2 going to put him in isolation. We
3 are going to examine him too.

4 Q. Continue.

5 A. We are going to examine
6 him -- I said we are going to
7 examine him too. Check his lungs,
8 check his heart. Yeah, we going to
9 examine him too.

10 Q. But it results in automatic
11 isolation as well?

12 A. Yes.

13 Q. What if someone has a fever
14 of 99.5?

15 A. Well, we go with 100.4.
16 That's the number, 100.4.

17 Q. If an inmate has a fever
18 below 100.4, are any steps taken?

19 A. If the inmate has other
20 symptoms, we got to look at the
21 inmates globally essentially. Let's
22 say the inmate have a temperature of
23 99.6, 99.8 but he has all the
24 symptoms, we will take the symptom
25 as a global, well he has other

1 DR. ROBERT BEAUDOUIN

2 A. It's an isolation checklist
3 for COVID-19.

4 Q. In the Move to Isolation
5 row, does this document indicate
6 that inmates presenting with
7 symptoms of COVID-like illness
8 should be placed in isolation?

9 A. Yes.

10 Q. Are you aware of any
11 inmates who have said they have
12 symptoms that are not placed into
13 isolation?

14 A. I am not aware of that.
15 But also, when you say symptoms, not
16 all symptoms may have to deal with
17 COVID-19.

18 Q. Would you agree that fever
19 is a symptom of COVID-19?

20 A. Yes.

21 Q. Would you agree that a
22 cough is a symptom of COVID-19?

23 A. Yes.

24 Q. Would you agree that
25 shortness of breath is a symptom of

1 DR. ROBERT BEAUDOUIN

2 COVID-19?

3 A. Yes.

4 Q. Would you agree that muscle
5 aches are a symptom?

6 A. Yes.

7 Q. Would you agree that there
8 are other symptoms of COVID-19 that
9 have been defined by the CDC?

10 A. Yes.

11 Q. Would you consider any
12 symptoms identified by the CDC as
13 requiring an inmate to be placed in
14 isolation?

15 A. In generally, yes.

16 Q. Were inmates previously
17 being placed into isolation in the
18 special housing unit?

19 A. I'm sorry, can you repeat
20 that.

21 Q. Sure. Were inmates
22 previously being placed into
23 isolation in the special housing
24 unit?

25 A. Yes. That was at first,

1 DR. ROBERT BEAUDOUIN

2 A. I determine that.

3 Q. Are post recovery -- are
4 post recovery symptoms tracked after
5 an inmate is released from
6 isolation?

7 A. After an inmate is -- no,
8 we don't essentially track them, but
9 if the inmate, depending where the
10 unit inmate goes, inmate have access
11 to -- inmate have access to a sick
12 call, inmate have access to us from
13 the unit officer. Also inmate can
14 -- when inmate is being done -- is
15 being done by medical staff inmate
16 have access to us.

17 Q. Is there any procedure for
18 scheduling a medical checkup with an
19 inmate in the week or two after they
20 have been removed from isolation?

21 A. No.

22 Q. How many inmates have been
23 isolated since March 1st?

24 A. Okay. So I could count the
25 numbers there.

1 DR. ROBERT BEAUDOUIN

2 A. Yes.

3 Q. Is that 40 out of about 200
4 staff members?

5 A. I don't know the exact
6 staffing of MCC but it could be, it
7 could be 200.

8 Q. If it is about 200, what
9 would in your mind explain the
10 discrepancy between the percentage
11 of inmates with COVID-19 symptoms
12 and the percent of staff who have
13 tested positive for COVID-19?

14 A. Testing. If you test more
15 inmates, you are likely going to
16 have more inmates positive. But
17 remember even in hospital they were
18 not testing at the beginning. You
19 know, at the beginning I sent
20 inmates to the hospital, they did
21 not test them, we are not going to
22 admit him. There was no need to
23 test. So the more you test, the
24 higher the likelihood of having
25 positive results.

1 DR. ROBERT BEAUDOUIN

2 are housed on 11 South.

3 Q. Is that an open dormitory
4 unit?

5 A. Yes.

6 Q. And were those inmates
7 quarantined there while 11 South was
8 in quarantine?

9 A. Yes -- the inmate at 11
10 South, when the inmate were
11 quarantined, yes, they were in
12 quarantine as a cohort.

13 MS. KALA: Could everyone
14 please open what has been marked as
15 Exhibit 12.

16 (Exhibit 12, BOP Quarantine
17 Guidance: New admits, Contacts of
18 COVID-19, and Pending Release,
19 Bates MCC 1633, marked for
20 identification, as of this date.)

21 MS. KALA: This is BOP
22 Quarantine Guidance: New admits,
23 Contacts of COVID-19, and Pending
24 Release. This is May 7, 2020,
25 Bates number is MCC 1633.

1 DR. ROBERT BEAUDOUIN

2 A. Yeah. We go see them, we
3 do temperature check, we do symptom
4 check. Yeah, we check on them.

5 Q. And how often?

6 A. We do it once a day.

7 Q. Are there any situations
8 where an inmate who is displaying
9 COVID-19 symptoms is left in the
10 unit?

11 A. Are there any situations
12 where one inmate is complaining of
13 COVID-19 is left in the unit?

14 Q. Yeah.

15 A. If we know of it, we
16 wouldn't do it. If we don't know of
17 it, we don't know. But if we know,
18 we are going to aggregate, regularly
19 aggregate, that's a normal
20 operation.

21 Q. Are there any housing units
22 that have never had inmates with
23 COVID-19 symptoms in them?

24 A. No. All the units have
25 been in quarantine, that means they

1 DR. ROBERT BEAUDOUIN

2 must have had somebody with
3 symptoms.

4 Q. What is the MCC's policy
5 for who gets tested for COVID-19?

6 A. The policy is not MCC
7 policy. The policy is Bureau of
8 Prison policy. They made some
9 adjustments in the policy. So they
10 want us to test if we knew inmates
11 would come in, in the new
12 admissions. Do you want to test --
13 to contact, let's say one inmate
14 become positive for -- let's say one
15 inmate in our system is contact
16 would also be tested. And I think
17 there was something else. But
18 essentially these are the new -- the
19 new guidance. The new guidance, all
20 new admit are going to be tested.
21 The contact of somebody who is put
22 in isolation will be tested. I
23 think I'm missing something. But
24 that's essentially the new guideline
25 -- there was a new guideline that

1 DR. ROBERT BEAUDOUIN

2 was sent out very recently.

3 Q. And what are you doing to
4 comply with that new guideline?

5 A. We just meet with the COVID
6 machine. We are not using it yet
7 because we have to get the staff
8 trained on it. So we have three
9 known mental chemists (ph). We sent
10 it to Labcorp. We do the swab and
11 we send it to Labcorp for the test.

12 Q. When did you receive the --
13 this Abbott testing machine?

14 A. We receive it last
15 Thursday.

16 Q. And when -- by when do you
17 plan to be able to conduct tests
18 with this machine?

19 A. Well, we waiting to buy a
20 printer so to make it official for
21 the lawyers so we waiting to buy a
22 printer so when we have the results
23 we get that quick instead of the
24 staff writing on the e-mail note
25 negative or positive, we wanted it

1 DR. ROBERT BEAUDOUIN
2 to be pretty so it look more
3 professional and more official. So
4 when we have the printer, then we
5 would use it. In the meantime the
6 only medical conduct was going to do
7 the testing and send it to Labcorp
8 for -- send it to Labcorp for
9 evaluation.

10 Q. And how will you conduct
11 their tests for those new inmates
12 who come in?

13 A. How? Well, we get the
14 testing kit, which is a swap. We do
15 a nasal applying to swab or no
16 applying to Schwab.

17 Q. Have you made a request for
18 the MCC to buy a printer so you can
19 start using the rapid testing
20 machine?

21 A. Well, the rapid testing
22 machine is not really rapid.
23 Because it takes 15 minutes to do a
24 test. So that is four an hour. And
25 let's say you have -- if you add one

1 DR. ROBERT BEAUDOUIN

2 were low, could an order for test
3 kits have been placed in late March?

4 A. Well, could have, yes.

5 Q. Did you consider placing an
6 order for test kits in late March?

7 A. No, I didn't consider
8 placing an order for testing. Also
9 it would have been have been advised
10 to place order for testing. I don't
11 think we were advised to order
12 testing kits for COVID-19 at the
13 time.

14 Q. And when you placed the
15 order for test kits on April 10th,
16 do you remember how long it took for
17 the tests to arrive?

18 A. I think it took about two
19 or three days.

20 Q. Are inmates who are
21 isolated and then returned to the
22 general population ever placed in
23 dormitory units?

24 A. I cannot answer ever. I
25 don't know. I don't know.

1 DR. ROBERT BEAUDOUIN

2 Q. Can you look at the entry
3 for Litigation No. 223.

4 A. Yes, 223. 223, yes.

5 Q. Under Additional
6 Information do you see from SHU to
7 11 South?

8 A. Right.

9 Q. What does that mean?

10 A. So when the inmate
11 initially goes in isolation he was
12 returned to his unit, the unit he
13 was in before. He was in 11 South.

14 Q. And is 11 South a dormitory
15 unit?

16 A. Yes, it is a dormitory
17 unit.

18 Q. Could you please look at
19 Litigation No. 136.

20 A. 136. Okay, 136.

21 Q. In Additional Information
22 does that say "unit 3/moved to 11
23 South"?

24 A. Yes. I believe it's the
25 same -- I believe it could have been

1 DR. ROBERT BEAUDOUIN

2 inmates 122 and 303?

3 MR. BARNEA: Those are
4 quarantined inmates not isolated
5 inmates, right?

6 MS. KALA: Yes. Thank you.

7 A. Yes.

8 Q. So leaving aside those
9 two who are quarantined, for
10 isolated inmates is a positive test
11 required -- sorry, is a negative
12 test required before the inmate is
13 moved into the general population?

14 A. No.

15 Q. And your understanding is
16 that inmates on 11 South are not
17 able to maintain social distance; is
18 that correct?

19 A. It's a dorm so they are
20 close to each other. It is safe to
21 say they can't maintain six feet
22 social distancing.

23 Q. Do you believe that the
24 five positive inmates to date
25 captures all inmates who have or

1 DR. ROBERT BEAUDOUIN

2 A. The sick call is considered
3 the official version when inmate
4 goes on the computer and put on
5 electronic sick call. The copout,
6 which we call copout was that the
7 inmate write a little piece of paper
8 something and he give it to a staff
9 member, this is what is considered a
10 copout.

11 Q. So would it be fair to
12 describe the way to make requests as
13 oral requests, paper requests and
14 electronic requests?

15 A. Yes.

16 Q. I know you described a
17 number of different ways in which
18 oral requests could be made. What
19 is the actual process for making an
20 oral request?

21 A. Well, the oral request you
22 talk to somebody. You say, oh, I
23 got this, oh, can you call medical
24 for me. That's -- that's it.

25 Q. Is there any particular

1 DR. ROBERT BEAUDOUIN

2 passed on to the medical staff?

3 A. Oh, the officer can just
4 call you. Doctor, this inmate says
5 he has this and that, can you see
6 him. And then 99 percent of the
7 time we say yes, send him down.

8 Q. How soon after an oral
9 request is made by an inmate is it
10 passed on to the medical staff?

11 A. I don't know. I can't tell
12 you that. If it's even to a medical
13 staff, let's say medical staff is
14 doing -- is doing fill lines and
15 Mr. Smith's stop by and says, Doc, I
16 need you see for this and that, and
17 the staff would right write it
18 himself and say, okay, we will call
19 you later. So that would be one
20 way.

21 Q. Are there any guidelines
22 for how oral sick call requests are
23 passed on to medical staff if they
24 are reported to a nonmedical staff
25 member?

1 DR. ROBERT BEAUDOUIN

2 A. No, I don't think so.

3 Q. How are paper requests for
4 medical care passed to the medical
5 staff?

6 A. The inmates write a piece
7 of paper and they give it to medical
8 -- the medical staff.

9 Q. So the inmate has to
10 directly give it to a medical staff
11 person?

12 A. Well, the -- yes, he would
13 have -- yes, to a medical staffer,
14 yes.

15 Q. And what about electronic
16 sick calls?

17 A. Electronic sick call the
18 inmate goes to the computer and put
19 in the information and that's how
20 they explain sick call is done.

21 Q. And how does it come to you
22 or to the medical staff?

23 A. The electronic sick call go
24 to a bag, a computer bag, where the
25 HSA, an HSA and they have a nurse

1 DR. ROBERT BEAUDOUIN

2 Technically they all supposed to be
3 either brought down to medical or be
4 put on the call-out to be seen.

5 Q. Is there any policy saying
6 when someone needs to be seen --
7 when someone needs to be brought
8 down right away?

9 A. Yes.

10 Q. And what is that policy?

11 A. Well, these are for acute
12 conditions. Let's say somebody
13 saying I have chest pains, is the
14 guy having a heart attack, let's say
15 the guy is bleeding or he has some
16 weakness on one side. He's out for
17 potentially emergency condition.

18 Q. Would you say COVID-19
19 symptoms are an acute condition?

20 A. Yes.

21 Q. Going back to the type of
22 requests for medical care. When you
23 received or any medical staff
24 member, I should say, received an
25 oral request for medical care, is

1 DR. ROBERT BEAUDOUIN

2 that recorded anywhere?

3 A. No. No one requests the
4 images I think. Oh, I got this, can
5 you bring me down. That's not
6 something you going -- that's not
7 something we are going to record
8 somewhere. If you record it, he
9 going to the computer and put in an
10 official request.

11 Q. If the inmate makes an oral
12 request but is not seen right away,
13 is any sort of record made of that
14 request?

15 A. No. The only request
16 between the inmate and the staff
17 member.

18 Q. What about any paper
19 copouts, are those recorded --

20 A. The paper copouts, the way
21 the paper copout working handled was
22 that. When we receive the paper
23 copouts, we just schedule them or
24 call it down and these paper copouts
25 we keeping them and recording them

DR. ROBERT BEAUDOUIN

in the medical records. So we are not keeping them. So I know that's been a problem with booking, the same thing booking with -- we are not recording the paper copouts. After we finish reviewing it or scheduling the admit, the little piece of paper we were shedding the little piece of paper. But from what we know happens in blueprints, they say we should report them. So when I got that little piece of paper with writing so I get some Scotch tape, put it on the -- Scotch tape, put it on the imprint and tape it so that it can go in the record. But I think that the way that we have to start doing that in the future for whatever paper copout we get, we're going to record it and for it to go in as an official record.

Q. Have any paper sick call requests been saved?

1 DR. ROBERT BEAUDOUIN

2 A. After we heard it was the
3 Brooklyn issue, so whatever paper
4 copout we get, we keeping them.

5 Q. When did you hear about the
6 Brooklyn issue?

7 A. Two weeks ago. Not too
8 long ago.

9 Q. Before that date were any
10 paper sick call requests saved?

11 A. No. We are not keeping
12 that. We think it was an official
13 record.

14 Q. Before that date to your
15 knowledge were all paper sick call
16 requests shredded?

17 A. That's what I think, yes.

18 Q. And are electronic sick
19 call requests recorded anywhere?

20 A. Well, the electronic, they
21 always there. They always on the
22 computer. So yes, they are there.

23 Q. And would you say the
24 record of all electronic sick call
25 requests is the inbox that receives

1 DR. ROBERT BEAUDOUIN

2 A. Yes. That's in -- that's
3 in the electronic medical records.
4 When the inmate is seen and an
5 account is created where he does --
6 he does say what the complaint of
7 the inmate is, what the objective
8 is, which is were the vital signs
9 taken, was their weight taken, and a
10 physical exam, is the an assessment
11 in place and some had medication.

12 Q. When medical staff receives
13 a request for medical care related
14 to the COVID-19 symptoms, how
15 quickly are they supposed to
16 respond?

17 A. Oh, they are supposed to
18 respond immediately.

19 Q. Are they supposed to inform
20 you about such a request for medical
21 care?

22 A. No.

23 Q. Are they supposed to inform
24 you if they have identified or
25 learned about an inmate with

1 DR. ROBERT BEAUDOUIN

2 Q. Dr. Beaudouin, who receives
3 e-mails sent to the sick call box?

4 A. It goes through a fax. HSA
5 has access to it -- HSA has access
6 to it and the nurse who is in charge
7 of monitoring it has access to it.
8 These are the people --

9 Q. Who are those individuals?

10 A. The HSA? You want names?

11 Q. Yes, please.

12 A. Terrance, T-E-R-R-A-N-C-E,
13 Chomas, C-H-O-M-A-S, the assistant
14 HSA. Marc, M-A-R-C, Yonnone,
15 Y-O-N-N-O-N-E. And the nurse has
16 been out -- has been deployed for
17 probably four weeks now. The nurse
18 is Joseph Columbo, C-O-L-O-M-B-O.

19 Q. Who maintains the sick
20 call.

21 A. I don't if other people
22 have access.

23 Who maintains the sick call
24 box? It's the computer thing, I
25 don't know who did it.

1 DR. ROBERT BEAUDOUIN

2 Q. Who is responsible for
3 responding to requests received to
4 the sick call box?

5 A. It is a nurse that is
6 responsible for checking the medical
7 box. Called the HSA (inaudible).

8 Q. Could you please turn to
9 page 19. I think you may not have
10 page numbers on your printout so let
11 me give you the Bates number. It's
12 Bates number MCC 0219.

13 A. Okay, I got it.

14 Q. Is this an e-mail from an
15 individual who has now been
16 identified as inmate 343?

17 A. Yes.

18 Q. And this e-mail was sent to
19 the sick call box on April 17, 2020?

20 A. Yes.

21 Q. Did you see this e-mail?

22 A. I just saw it now.

23 Q. Prior to now did you see
24 this e-mail?

25 A. No, I didn't read all of

1 DR. ROBERT BEAUDOUIN

2 can't see. It's on the right side
3 of the page.

4 Q. How about now, can you see
5 the whole document?

6 A. No. Could you move it to
7 the left a little bit.

8 Q. Sure. I'm not sure if that
9 will help. Does that help?

10 A. It's hard to read.

11 MR. BARNEA: It's very small.
12 Can you zoom in a little bit.

13 Q. Yes, I'm trying to find a
14 good balance. How about this? No,
15 too small?

16 A. Yeah, still too small.
17 Can't make it out, no.

18 Q. Okay. Can you see the
19 whole document?

20 A. Yes.

21 Q. Okay, great. Is this a
22 response to an e-mail from an
23 individual now identified as inmate
24 324?

25 A. Yes. I see it says

1 DR. ROBERT BEAUDOUIN

2 schedule for sick call.

3 Q. When was that response
4 sent?

5 A. It's saying it was sent on
6 5/5.

7 Q. Did you write the response?

8 A. No.

9 Q. Was the inmate's initial
10 message sent on April 16, 2020?

11 A. Yes, that's what it says.

12 Q. Did the inmate's message
13 describe shortness of breath?

14 A. Yes.

15 Q. Did this inmate's request
16 describe chest pains?

17 A. Yes.

18 Q. Do you understand these to
19 be COVID-19 symptoms?

20 MR. BARNEA: Objection to
21 form.

22 A. Yes.

23 Q. Do you understand chest
24 pain to be a symptom demanding an
25 emergency response?

1 DR. ROBERT BEAUDOUIN

2 A. Yes. But it depend on the
3 type of asthma. It has to be
4 moderate to severe asthma, and I
5 don't remember this inmate.

6 Q. You don't remember this
7 inmate?

8 A. No, I don't remember him.

9 Q. Could you please turn to
10 page 9. This is Bates number MCC
11 0209. I'm not sure if you can see
12 it on my screen or if you need a
13 moment to find it.

14 A. Yeah, I can see it.

15 Q. Is this in response to an
16 e-mail from an individual now
17 identified as inmate 235?

18 A. Yes.

19 Q. Was this response sent on
20 May 5th, 2020?

21 A. Yes.

22 Q. Does this response say
23 scheduled for sick call?

24 A. Yes.

25 Q. Did you write this

1 DR. ROBERT BEAUDOUIN

2 response?

3 A. No. I don't write any of
4 these responses.

5 Q. Was the inmate's initial
6 message sent on March 15, 2020?

7 A. Yes.

8 Q. Did the inmate's message
9 describe coughing?

10 A. Yes.

11 Q. Does this inmate's message
12 describe a fever?

13 A. Yes.

14 Q. Were you informed of this
15 e-mail?

16 A. No.

17 Q. Is coughing a symptom of
18 COVID-19?

19 A. Yes.

20 Q. Is fever a symptom of
21 COVID-19?

22 A. Yes.

23 Q. Do you have reason to
24 believe this inmate received a
25 response to their sick call request

1 DR. ROBERT BEAUDOUIN

2 Q. Were any responses to sick
3 calls -- to electronic sick call
4 requests made prior to May 5th,
5 2020?

6 A. No, it's not indicated
7 here, no.

8 Q. And --

9 MR. BARNEA: I'm sorry. Did
10 you mean this particular one or all
11 of them?

12 Q. Yeah, to clarify, I'm
13 talking about the whole set. Were
14 any responses made prior to May 5th,
15 2020?

16 A. Well, the sick call box was
17 not being monitored regular after
18 the Brooklyn interview so I talk
19 with the assistant and we have plan
20 that this is -- the first thing he
21 does when he start working, he go to
22 the sick call box and review the
23 sick call box. He was in there, but
24 he may need to be brought down for
25 evaluation, for the inmate to be

1 DR. ROBERT BEAUDOUIN
2 brought down depending on the
3 symptom or the complaint and the
4 inmate need to be scheduled. We
5 know this has been a problem in the
6 past, something that we are working
7 to fix.

8 Q. When did you find out --
9 you referenced you found out
10 something about the MCC and then
11 changed this practice; is that
12 correct?

13 A. Well, the sick call box has
14 nothing to with the MCC. We know
15 about the sick call box. The nurse
16 supposed to be monitoring it, they
17 can check and they are supposed to
18 be monitoring it. The only thing I
19 said to MCC are those little paper
20 copout with three lines on the
21 little piece of paper that's
22 supposed to be into the medical
23 records. That's something -- that
24 is something. But the sick call,
25 the electronic medical record that's

1 DR. ROBERT BEAUDOUIN

2 in there so monitoring it has not
3 been done timely, that's something
4 that now is being done.

5 Q. Sorry, I think I
6 misunderstood you so I just want to
7 make sure I have this correct. What
8 prompted you to change the policy
9 with regard to monitoring of the
10 sick call box?

11 MR. BARNEA: Objection to
12 form.

13 A. It's not a change in
14 policy. Essentially the sick call
15 box was supposed to be monitored by
16 the nurse. Okay, the nurse went on
17 -- was deployed so that slowed down
18 the thing and then the correctional
19 facility, the HSA has been on leave
20 so the assistant HSA started to
21 monitor the box. It hasn't been
22 done timely. So we know it's a
23 problem and we -- this is one thing
24 I discuss with him, whatever he do
25 the first thing in the morning go to

1 DR. ROBERT BEAUDOUIN

2 the sick call box, handle what's in
3 there. So this is something we
4 doing right now to make sure that
5 it's being addressed because we
6 know, you know, something could go
7 wrong with that. I can go to the
8 lines medical staff you know, you
9 know, if they want to be seen
10 immediately we usually tell them, if
11 you have serious symptoms, it's not
12 probably good to put it on sick
13 call, you need to talk to somebody.
14 Talking to somebody can get the
15 issue addressed.

16 Q. When did you have this
17 conversation about the need to
18 monitor the sick call box on a daily
19 basis?

20 A. Not too long ago. Probably
21 two, three weeks ago or so.

22 Q. And before you had this
23 conversation what was the process of
24 monitoring the sick call box?

25 A. The sick call box was to be

1 DR. ROBERT BEAUDOUIN

2 monitored by a nurse daily. If the
3 nurse wasn't there, it's supposed to
4 be the HSA. But what happened is
5 there are a lot of work to be done.
6 Sometimes if you don't address it,
7 then it stays and you get busy with
8 other things but it's a problem that
9 right now we have to put it as a
10 priority, the sick call to be
11 addressed first thing in the
12 morning. So that's what I told him,
13 that's why I told him the first
14 thing you do in the morning is go to
15 the sick call box.

16 Q. The nurse who was supposed
17 to be monitoring it was that Joseph
18 Columbo?

19 A. Yes.

20 Q. And he typically has
21 primary responsibility for
22 monitoring the box?

23 A. Yes. Yes.

24 Q. And you said he's been out
25 for -- could you remind me how long

1 DR. ROBERT BEAUDOUIN

2 he's been out for?

3 A. I think probably four
4 weeks.

5 Q. We'll now turn to page 12
6 of Exhibit 15. Do you have it in
7 front of you or can you see it on my
8 screen?

9 A. Yes.

10 Q. This is Bates number MCC
11 0212. Is this in response to an
12 e-mail from an individual now
13 identified as inmate 261?

14 A. Yes.

15 Q. Did inmate 261 send a
16 request for medical care on May 4th,
17 2020?

18 A. Yes, he did.

19 Q. Were you notified about
20 this e-mail?

21 A. No, I wasn't notified.

22 MR. BARNEA: Sorry, Ishita,
23 can you move the other window, I'm
24 trying to see the --

25 MS. KALA: Oh, sorry. Sorry.

1 DR. ROBERT BEAUDOUIN

2 to do, how to manage the symptoms,
3 to follow up and things like that.

4 Q. If you conduct an
5 appointment or provide medical care
6 in response to a request for medical
7 care, is that tied in any way to the
8 request on the system?

9 A. Could you repeat the
10 question.

11 Q. Sure. And I'll try to make
12 it a little clearer. So if you
13 conduct an appointment in response
14 to someone requesting medical care,
15 are the details of that appointment
16 tied to the request itself on the
17 system?

18 A. No. I don't see the sick
19 call. So when I'm seeing the
20 inmates, I'm talking to him about
21 the present complaint, the complaint
22 he has not complaint he had before.
23 So of course whatever complaint he
24 has I'm going to address it. So I
25 don't know what he put in his prior

VIDEOCONFERENCE DEPOSITION OF
CHARISMA EDGE
Wednesday, May 20, 2020

Reported By:
CATHI IRISH, RPR, CRR, CLVS, CCR

1 EDGE

2 but acting warden Hazelwood did not yet
3 arrive?

4 A. Yes. I'm trying to remember
5 her -- what day she actually look leave.
6 It was a day or so before Mr. Hazelwood
7 arrived, yes.

8 Q. Okay. So when did the MCC first
9 start any type of planning to address a
10 potential outbreak of COVID-19 at the
11 facility?

12 A. I don't recall initially the date
13 for the planning.

14 Q. Do you recall the month when
15 planning first started?

16 A. March.

17 Q. Do you recall when in March?

18 A. It was the latter part of March.

19 Q. The second half of March, would
20 that be fair to say?

21 A. That's fair to say.

22 Q. Did you get some exhibits a few
23 hours before this deposition started?

24 A. Yes.

25 Q. And do you have them in front of

1 EDGE

2 point?

3 A. This is the first time I'm seeing
4 it.

5 Q. Were you aware of the Federal
6 Defenders of New York making the request
7 reflected at the bottom of the e-mail for
8 David Patton for information about the
9 MCC's planning for COVID-19?

10 A. No.

11 Q. We can put that away.

12 As of March 15th of 2020, is it
13 accurate to say that the MCC did not have
14 any protocol in place for testing inmates
15 for COVID-19?

16 A. You're saying beginning March
17 15th, did we do any testing?

18 Q. Did you have any protocol in
19 place for how, if at all, you would test
20 inmates prior to March 15th?

21 A. Not that I'm aware of.

22 Q. When is the first time the MCC
23 has had test kits available to conduct
24 tests to process either within the MCC or
25 through a commercial lab for COVID-19?

1 EDGE

2 attention so that's what I recall about
3 conversations related to placement.

4 Q. It's just important for the
5 deposition that the record be clear so I
6 just want to make sure it is.

7 Are you saying you do not
8 remember having any conversations about
9 whether it was medically appropriate to
10 house inmates who had COVID-19 in the
11 special housing unit?

12 MS. ROVNER: Objection.

13 BY MR. DEVLIN-BROWN:

14 Q. You can answer.

15 A. What I'm saying is the words
16 "medically appropriate," I do not recall
17 those words being used but I do recall
18 discussing whether or not inmates would
19 have medical attention, would medical be
20 available, that's what I recall.

21 Q. Do you recall anyone at the MCC
22 recommending that inmates with COVID-19
23 not be sent to the special housing unit?

24 A. I do not recall that suggestion.

25 MR. DEVLIN-BROWN: Could you take

1 EDGE

2 contact investigations are recommended or
3 should be done when there is a positive
4 case.

5 Q. To be clear, in this case
6 reflected in the memo in Exhibit 4, you do
7 not know one way or the other if a contact
8 investigation was ever conducted with
9 respect to which staff this positive
10 inmate had contact with?

11 A. No, I do not know about the
12 contact investigation.

13 Q. So this first inmate who was
14 determine by the MCC to have COVID-19 was
15 housed on 11 South; is that correct?

16 A. Yes.

17 Q. And that's a dormitory unit; is
18 that right?

19 A. That's right.

20 Q. Do you know approximately how
21 many inmates 11 South holds when it's
22 fully occupied?

23 A. 156 inmates.

24 Q. Was it at or near full occupancy
25 at the time of this incident?

1 EDGE

2 A. I don't know of the numbers or
3 the capacity at that time.

4 Q. Following the diagnosis of this
5 first inmate with COVID-19, what steps
6 were taken to identify, if any, who on
7 11 South among the inmate population had
8 contact with this inmate?

9 A. You're asking about the inmates
10 who came in contact with the inmate who
11 was removed, placed on G?

12 Q. Yeah, I'm asking if to your
13 knowledge there was any effort by the MCC
14 to identify those inmates on 11 South who
15 had been in close contact with the patient
16 who had been first identified as having
17 COVID-19.

18 A. I don't know about any contact
19 investigation. What I do know is that the
20 entire unit was placed on quarantine as a
21 precaution.

22 Q. So to be clear, by placing the
23 entire unit on quarantine, does that mean
24 no inmates who were then residing on
25 11 South were moved from 11 South to

1 EDGE

2 another unit and no one came into 11 South
3 from outside that unit?

4 A. That is correct.

5 Q. When did that quarantine go into
6 effect in terms of how quickly after this
7 first case was diagnosed?

8 A. Well, to my recollection, as soon
9 as it was discovered that the inmate was
10 positive or asymptomatic, then the
11 quarantine was immediately placed in
12 effect.

13 Q. Do you recall any efforts other
14 than putting a quarantine on the entire
15 unit to determine which inmates may have
16 been in close contact with the infected
17 person?

18 A. I do know -- I am not aware about
19 the contact investigation aspect. I am
20 aware of the quarantine aspect.

21 Q. Do you recall any discussion
22 about whether or not to move inmates who
23 had close contact with the affected inmate
24 out of 11 South to isolation themselves?

25 A. I don't recall if there was

EDGE

another inmate related to the 11 South, whether they were placed on isolation but again the entire unit was placed on quarantine status for precaution.

Q. Following the diagnosis on March 23rd, were any steps implemented to provide additional protective equipment to the inmates on 11 South?

A. Additional PPE, are you referring to masks?

Q. It wasn't a great question. Let me break it down.

Prior to March 23rd, the inmates on 11 South did not have masks; is that correct?

A. That is correct.

Q. When were masks first issued to inmates on 11 South?

A. Masks were issued to the inmate population I believe sometime in April.

Q. Was there any increase in the amount of sanitation supplies, soap, cleaning equipment provided immediately after this original case on March 23rd to

1 EDGE

2 A. Indicated by a regularly
3 scheduled basis, we have meetings Monday
4 and every Friday and during portions of
5 those meetings we do have a portion set
6 aside for COVID so I would say yes, a
7 regularly scheduled basis.

8 Q. Who's at these meetings on Monday
9 and Friday?

10 A. The executive staff.

11 Q. And who is the executive staff,
12 what does that consist of?

13 A. The warden, all the associate
14 wardens, the executive assistant and the
15 captain, and the psychologist is there as
16 well, medical is there, and if there's
17 something that specifically we need
18 clarification on they may stay but there's
19 a portion where they do step out and those
20 are the participants of the meeting.

21 Q. Who is there for medical?

22 A. The health services -- at this
23 time the health services -- excuse me, the
24 assistant health services administrator
25 but he's on leave, the health services

1 EDGE

2 received any RIS request, again prior to
3 COVID-19, that I'm aware of. They all
4 happened after COVID.

5 Q. Since the COVID pandemic has
6 arrived, can you estimate how many times
7 the MCC has filed a motion for
8 compassionate release based on requests
9 from the inmate?

10 A. That I don't. I'm not aware how
11 many times we filed a motion.

12 Q. Are you aware of any one way or
13 the other?

14 A. I don't recall there being any
15 approved based on the MCC -- from the
16 institution standpoint to file a motion,
17 I'm not aware of any.

18 Q. How, if at all, has the
19 compassionate release evaluation changed
20 since the COVID pandemic in terms of
21 factors that the MCC considers in
22 evaluating applications, if it has?

23 A. I know there is a AG memo
24 indicating there should be a heightened
25 increase use for -- that's for home

EDGE

submitted or reviewed for home confinement and it's approved, then there's no need to then continue the reviews for compassionate release because the vulnerability to that inmate no longer exists if they have been approved for home confinement. So the two home confinement and compassionate release are two separate, they fall under two separate authorities, whereas home confinement is a review based on from the institution's perspective, whereas compassionate release the warden make a recommendation, it's sent to central office, and then the director coordinates with the United States Attorney's Office and they make a motion to the court. So those are two separate processes.

Q. Okay. In terms of the time it takes to review a compassionate release application, is it fair to say a backlog of such applications developed because of the volume of inmates filing them following the COVID-19 pandemic?

1 EDGE

2 A. Yes.

3 Q. Were you recently able to
4 accelerate your review of those and clear
5 the backlog?

6 A. Yes.

7 Q. And how did you do that?

8 A. How did we clear the backlog?

9 Q. Did you receive additional staff
10 or other tools that enabled you to clear
11 the backlog in recent weeks?

12 A. The staff that we currently have
13 did the review and that's how the backlog
14 was cleared.

15 Q. So the staff that would
16 ordinarily review these things simply
17 reviewed them more quickly; is that fair
18 to say?

19 MS. ROVNER: Objection.

20 THE WITNESS: That's fair to say.

21 BY MR. DEVLIN-BROWN:

22 Q. Let's turn to home confinement
23 which I think you were referring to before
24 as well.

25 Actually sorry, before I get

EDGE

first.

A. Pre-COVID, we have a system called Insight and it's a database that's generated or initiated from the unit team secretary and it's an RRC or residential reentry center referral and so home confinement and RRC are acronyms, they are processed the same way. Home confinement is then determined from the RRM, the residential reentry manager based on the RRC referral, if you will.

Q. Okay.

A. Yeah, a database.

Q. Okay. So how has the home confinement review process changed since the COVID-19 pandemic?

A. Well, I would say with the guidance of the Attorney General's memo, we've been given a more stringent -- I won't say stringent but criteria to specifically increase the use of home confinement.

MR. DEVLIN-BROWN: If I could
show you what's been marked as Exhibit

EDGE

this was definitely discussed.

Q. Okay. What do you remember about discussions you had about implementing the memo?

A. I had a discussion with Mr. Demosthenes about processing home confinement in an expeditious manner.

Q. I mean the memo provides the BOP with authority to release inmates on home confinement who would have been ineligible before; right?

A. What do you mean by ineligible? My understanding is not that we would take an ineligible inmate and make him eligible. My understanding is that we would make greater use of it but I don't believe that it would be a fair assessment that an ineligible inmate would now be eligible.

Q. To be clear, are you saying that in your view, the only inmates who would be eligible for release after this memo would be the same inmates who were eligible for release before?

1 EDGE

2 A. Yes. My understanding is not --
3 is to increase the use or to run rosters
4 and to maybe perhaps review people faster
5 or quicker and not wait for the specific
6 time frame because as I already indicated,
7 home confinement is generated, the review
8 process is the same as the RRC packet and
9 typically inmates are reviewed for halfway
10 house placement based on a certain time
11 frame, like 17 to 19 months they are
12 reviewed, but this to me indicated that
13 the review process should be immediate but
14 it doesn't say, my understanding is not
15 that an ineligible inmate would be deemed
16 eligible.

17 Q. Was vulnerability to COVID-19 a
18 factor in releasing on home confinement?

19 A. Yes.

20 Q. And was that a factor before this
21 memo or only after this memo?

22 A. Well, COVID-19 didn't exist prior
23 to the memo so I would say that as a
24 result of this memo.

25 Q. Well, you had already had a

1 EDGE

2 THE VIDEOGRAPHER: We're going
3 off the record at 3:08 p.m. This
4 marks the end of media unit 2.

5 (Recess taken from 3:08 p.m. to
6 3:20 p.m.).

7 THE VIDEOGRAPHER: We're back on
8 the record at 3:21 p.m. This marks
9 the beginning of media 3.

10 BY MR. DEVLIN-BROWN:

11 Q. Okay, so Ms. Edge, before we took
12 a break, I had asked you if you had
13 concerns about how the home confinement
14 process was implemented at the MCC
15 following Attorney General Barr's memo.
16 You had said that you did have concerns
17 and I asked you what they were and you
18 said the reviews were not being done.

19 Can you explain what you mean by
20 that?

21 A. Meaning the staff that are
22 responsible for reviewing the request were
23 not available to review the request. They
24 were reassigned.

25 Q. And which staff were these by

1 EDGE

2 position and name?

3 A. The case managers, they conduct
4 the review so those case managers would be
5 Flores -- and again the first names I'm
6 not familiar with because we call
7 everybody by their last names -- so that
8 would be Flores, Jenkins-Cardew, Olivares.

9 Q. Did you say the case managers
10 were reassigned?

11 A. Yes.

12 Q. Reassigned to what?

13 A. To work custody.

14 Q. And work custody means what?

15 A. Meaning that custody they were
16 working correctional posts.

17 Q. Okay. Did that happen to a large
18 number of case managers?

19 A. All of the case managers.

20 Q. And do you know why they were
21 reassigned to that?

22 A. A decision was made to implement
23 a 12-hour roster and to utilize
24 non-custody staff which included unit team
25 staff.

1 EDGE

2 Q. When was that decision made?

3 A. The decision was made the latter
4 part of March and then it was implemented
5 April 5th.

6 Q. So it was implemented shortly
7 after the Attorney General's memo came
8 down?

9 A. Yes.

10 Q. Did you know that the case
11 managers were being reassigned to
12 corrections posts?

13 A. I did not know until I received
14 the e-mail along with everyone else.

15 Q. What e-mail are you referring to?

16 A. The e-mail indicating that staff
17 will be reassigned.

18 Q. I see. And did that e-mail, that
19 e-mail came down in late March to be
20 effective April 5th if I understand you.

21 A. Correct.

22 Q. So as of the time the Attorney
23 General's memo was issued on April 4th,
24 did you understand at that time these case
25 managers were not going to be available to

1 EDGE

2 do the review in a timely manner?

3 A. Well, the memo, the AG memo was
4 April 3rd, not April 4th, and when the
5 memo was sent out or disseminated, I
6 didn't know to the extent that it would
7 impact or how many of my staff would be
8 reassigned.

9 Q. And when did you figure out how
10 big an impact it would have on your staff?

11 A. The date that it became
12 effective.

13 Q. Did that give you concerns right
14 away that there was going to be delay in
15 processing home confinement?

16 A. Yes.

17 Q. Did you express your concerns to
18 anyone?

19 A. Yes.

20 Q. To whom?

21 A. To the warden.

22 Q. To the warden or acting warden or
23 both?

24 A. To both.

25 Q. Tell me about what you told the

1 EDGE

2 warden.

3 A. That I needed the staff in order
4 to do the work, simple.

5 Q. What was her response?

6 A. That it was -- it wasn't a direct
7 response but ultimately I didn't get the
8 staff.

9 Q. What response did she give you
10 exactly?

11 A. That the staff would not be
12 returning in addition to other, you know.

13 Q. In addition to what?

14 A. In addition to other -- just the
15 staff would not be returned. They would
16 be utilized on the custody roster.

17 Q. Did she give you any suggestions
18 about how to process the cases given that
19 the staff were going to be used for the
20 custody roster?

21 A. No.

22 Q. What did you do after she told
23 you that the staff would not be coming
24 back to support that?

25 A. I had a conversation with

1 EDGE

2 but I know I communicated it early on
3 after having a meeting.

4 Q. Was this just a one-on-one
5 meeting with you and him or were there
6 other people there?

7 A. There were other people there.

8 Q. The executive staff?

9 A. Correct.

10 Q. And what did you tell the acting
11 warden at that meeting about your
12 situation?

13 A. That I needed unit team staff to
14 process RIS in addition to just their
15 regular work.

16 Q. And what did he say?

17 A. That unit team staff, this is not
18 verbatim, you know.

19 Q. Of course.

20 A. In essence, unit team staff, they
21 would be utilized on the custody roster.

22 Q. Did he give you any other
23 suggestions about how you might find the
24 resources to process these cases?

25 A. No.

1 EDGE

2 Q. Did you raise it with anyone else
3 at the MCC, your concerns?

4 A. Yes.

5 Q. Who else?

6 A. When -- well, exec staff knew
7 about it. Those are my peers. I
8 definitely didn't discuss it with any
9 support with the exception of
10 Mr. Demosthenes because he was directly
11 involved, and obviously he knew what was
12 going on because he was doing the work of
13 someone else but the attorneys new as
14 well.

15 Q. The MCC attorneys?

16 A. Yes.

17 Q. Did you write any e-mails or
18 memos or anything about your concerns?

19 A. I did write some e-mails.

20 Q. To who, other than the attorneys,
21 to who?

22 A. The exec staff.

23 Q. Do you know the date of those
24 e-mails or would you be able to figure it
25 out?

1 EDGE

2 Q. Were you satisfied that that was
3 a good explanation?

4 A. No.

5 Q. Why not?

6 A. Because I know that they could --
7 they didn't have to be in custody.

8 Q. Why did you think they didn't
9 need to be in custody?

10 A. There could have been someone
11 else to work in their place.

12 Q. You didn't think that the MCC was
13 so short-staffed that they had no choice
14 but to assign these people to the custody
15 roster?

16 A. The staff didn't have to be in
17 custody. Those particular individuals did
18 not have to be in custody.

19 Q. So did you eventually get help
20 that you needed from this?

21 A. Yes.

22 Q. When did you get help?

23 A. When the staff returned.

24 Q. And when was that?

25 A. I believe it was April 26th.

1 EDGE

2 Q. Can you just explain to me sort
3 of how it was done?

4 A. We identified some inmates
5 that -- we ran a roster and some inmates
6 were identified either by the Office of
7 General Counsel and then the Office of
8 Research, I forgot the acronyms, Office of
9 Research, and then there was a roster
10 generated, some inmates identified as
11 possibly meeting the criteria and we were
12 instructed to review those inmates. In
13 addition, there was an at-risk list that
14 was identified and then those inmates were
15 reviewed.

16 Q. And when did that review take
17 place?

18 A. The at-risk list?

19 Q. Yeah.

20 A. They happened at different times,
21 we receive the information at different
22 times so when the Regent sent us the
23 information, it had to be sometime in
24 April, the beginning of April.

25 Q. Okay. And just so I'm clear,

1 EDGE

2 this is the process that resulted in a
3 list of about 205 vulnerable inmates?

4 A. I don't know if it was 205 but it
5 was an extensive list.

6 Q. How did the MCC use that data on
7 inmates being in this vulnerable category,
8 how did it factor into the decision the
9 MCC makes as to where to house them or any
10 number of things?

11 A. Well, 11 South was identified as
12 an area or a housing unit that would
13 probably be better for them because it's a
14 dorm setting and a decision was that it
15 would just be a little -- that environment
16 is a little bit more amenable to the -- I
17 would say the high risk inmates so we did
18 try to group all of those quote/unquote
19 high risk inmates together in one location
20 as opposed to throughout the institution.

21 Q. And that was before the first
22 cases of COVID in the facility?

23 A. Yes.

24 Q. Okay. All right, turning to
25 sanitation which I think is one of the

1 EDGE

2 Q. I guess -- what do they wipe it
3 down with, like paper towels or is there
4 cloth rags or what?

5 A. Cloth rags.

6 Q. Okay. So what about masks for
7 the inmates, were you involved at all in
8 decisions about ordering masks and
9 providing masks to inmates?

10 A. I was not involved in ordering
11 the masks, that was guidance, that was
12 sent down from -- we had no -- no decision
13 internally. That was decided for us. So
14 the masks, you receive the masks and you
15 distribute the masks.

16 Q. And initially the masks given to
17 the inmates were what kind of masks?

18 A. They were the surgical masks.

19 Q. Do you know how often they were
20 provided to the inmates?

21 A. Once a week.

22 Q. How many masks a week?

23 A. One mask a week.

24 Q. When did that start, if you know?

25 A. That was sometime in April.

1 give you something.

2 Q. Okay, but have you ever asked somebody
3 for more soap?

4 A. No, because my cellmate in my cell, we
5 share everything.

6 Q. So do you have enough soap?

7 A. Yes, and right now I have a lot because
8 I bought it in commissary.

9 Q. Do you clean your cell?

10 A. Yes, now during those 50 minutes that
11 we're allowed out, we take showers every day.

12 Q. You probably didn't hear me or
13 understand it clearly. I meant your cell, like
14 where you live. Do you clean inside that?

15 A. As best as I can.

16 Q. Do you have cleaning supplies for you
17 to clean it?

18 A. No, ma'am. We're on lockdown. We have
19 access to nothing.

20 Q. What about in the hour that you're out?
21 Can you get any cleaning supplies yourself?

22 A. Yeah, but those 50 minutes are to take
23 a shower, call our families and cook some food;
24 with hot water I clean it.

25 Q. Do you clean yourself with hot water?

Page 67

Cesar Fernandez-Rodriguez

Volume I

5/19/2020

1 A. No, no. I said when I go out, I use
2 hot water to cook. 50 minutes goes by very
3 quickly; it's nothing.

4 **Q. During those 50 minutes, can you get a**
5 **rag and spray some cleaning solution on it and**
6 **then get back to your cell and clean after the**
7 **50 minutes?**

8 A. We don't have liquids to clean the
9 cell. We clean the cells as best as we can.

10 **Q. Do you know you can get liquids from**
11 **the officer on 7?**

12 MR. PARTELOW: Objection.

13 A. The people who work on the floor have
14 access to it.

15 **Q. Are you aware that you yourself can get**
16 **cleaning supplies from the officer on 7?**

17 MR. PARTELOW: Objection.

18 A. I don't work on the floor.

19 **Q. Can you buy cleaning supplies in the**
20 **commissary?**

21 A. I buy shampoo and soap.

22 **Q. Anything else for cleaning?**

23 A. And detergent to wash my clothes.

24 **Q. Just the last question.**

25 **I've noticed you've been wearing a mask**

Volume I

5/19/2020

1 **isolation on the same day?**

2 A. Yes.

3 Q. **And is your cellmate also feeling**
4 **better now?**

5 A. You know, he is feeling better, but
6 the two of us talked and the one thing that
7 worried us the most was the complete loss of taste
8 and smell, but now that's starting to come back
9 for both of us and also my nose stopped bleeding.
10 Because my nose used to bleed a lot.

11 Q. **When we started this deposition, you**
12 **were wearing a mask; is that right?**

13 A. Yes.

14 Q. **What kind of mask is it? Is it a**
15 **surgical mask or a cloth mask?**

16 A. It's a surgical mask. I don't know
17 if you could see it.

18 Q. **Yes, I can see it. Thank you.**
19 **Have you also been given a cloth**
20 **mask?**

21 A. Yes, yes. It has been given to me.

22 Q. **Did you get two cloth masks?**

23 A. One. One. I have one.

24 Q. **And is there a reason why you're**
25 **wearing the surgical mask and not the cloth mask?**

Page 23

Rober Galvez-Chimbo

Volume I

5/19/2020

1 A. The reason is because when we were
2 downstairs in the isolation unit we were given a
3 few of these. So I'm just using them up, and then
4 later on, I'll start using the cloth one.

5 **Q. And when do you wear your mask**
6 **during the day? Do you wear it when you're out of**
7 **the cell with the other inmates? Do you wear it**
8 **when you're inside your cell? At any other time?**

9 A. Well, only when I go out for the 50
10 minutes, because inside the cell it's just the two
11 of us.

12 **Q. Now, your lawyer submitted a paper**
13 **that said that you knew the names of two other MCC**
14 **inmates who you thought may have had COVID; is**
15 **that right? Are there two other inmates you know**
16 **of that you think may have had COVID?**

17 A. That's correct, yes.

18 **Q. What are their names?**

19 A. Well, my bunkie, who is Mauricio
20 Hernandez. Antonio Steven.

21 THE INTERPRETER: He is saying
22 Antonio Steve.

23 Antonio, A-N-T-O-N-I-O, Steven,
24 S-T-E-V-E-N, Zapata Castro. Z-A-P-A-T-A,
25 and Castro is C-A-S-T-R-O.

Page 24

Rober Galvez-Chimbo

Volume I

5/19/2020

1 **Q. During that time period, have you**
2 **been receiving cleaning supplies to clean your**
3 **cell?**

4 A. No.

5 **Q. Is any cleaning done on your cell?**

6 A. No, nothing. We do.

7 **Q. How do you clean your cells?**

8 A. Well, every two weeks we get for
9 ourselves a little bottle of shampoo which is
10 about 300 or 400 milligrams. So we dilute that
11 with water, and that's how we clean the cell. Or
12 the shampoo that we buy for ourselves in
13 commissary, we dilute it with water and that's how
14 we clean the cells.

15 **Q. Are you given any cleaning supplies**
16 **besides the little bottles of shampoo?**

17 A. No.

18 MR. RUFFINO: I don't have any
19 further questions. Thank you.

20 MR. BARNEA: I just have one quick
21 follow-up question.

22 EXAMINATION BY

23 MR. BARNEA:

24 **Q. In your unit and in the common area**
25 **near where the guards sit, is there -- have you**

Page 27

Rober Galvez-Chimbo

Volume I

5/19/2020

1 **ever asked the guards, or is there any**
2 **availability of cleaning solution or rags that**
3 **people can use to clean their cells?**

4 A. No.

5 Q. **Have you ever asked the guards or**
6 **the orderlies in your unit if you can have**
7 **cleaning supplies for yourself?**

8 A. Well, what I do is sometimes during
9 those 50 minutes that I'm allowed to go out,
10 there's like a little area next to the bubble
11 where the CO sits that has like a bucket with a
12 mop. And what I do is I take that bucket with the
13 mop, and I put my own shampoo in it with water,
14 and then I go and mop myself and that's how I
15 clean it as best as I can.

16 Q. **Have you ever asked a guard or one**
17 **of the orderlies if you can borrow the spray**
18 **bottle and the cleaning rags to clean your cell**
19 **with those?**

20 A. When you go and make a phone call,
21 there's like a spray. You know, I haven't asked
22 anyone directly, but when you go make phone calls,
23 there's some sort of like a spray there to
24 disinfect the phones. We all do the same thing.
25 We take that and, you know, you clean with your

Page 28

Rober Galvez-Chimbo

Volume I

5/19/2020

1 own shampoo or whatever it is that you want to use
2 to clean.

3 MR. BARNEA: All right. Thank you.
4 That's all the questions I have.

5 MR. RUFFINO: Nothing further for
6 me.

7 MR. BARNEA: I think this is the end
8 of this deposition. Thank you very much
9 for taking the time to speak with us this
10 morning, and I think that's the end of the
11 deposition.

Volume I

5/19/2020

1 Q. Okay. What medical things would you
2 like to see happen better?

3 A. Like they pay more attention to us,
4 you know. We don't get that.

5 Q. So why don't we take a quick look at
6 Exhibit 1, your declaration. Now, is this a
7 document that you reviewed before you signed?

8 A. Yes.

9 Q. Well, I guess you didn't sign it
10 yourself because it's hard to sign papers when
11 we're all on videos. But did you read this
12 document before it was signed on your behalf?

13 A. Yes, I did.

14 Q. And are the statements in this
15 document, are those the complaints that you have
16 regarding the MCC in this lawsuit?

17 A. Yes, I do.

18 MR. SPRAGUE: Objection to form.

19 Q. Do you have any complaints about
20 what happened at MCC that are not contained in
21 this document?

22 A. No, I don't believe so.

23 Q. So why don't we go over some of
24 these and I'll make sure I understand what your
25 complaints are and that will help us get a better

Page 10

Sharon Hatcher

Volume I

5/19/2020

1 the doctor?

2 A. We tell the officer.

3 Q. Is there also an option that there's
4 a request in writing to see medical? Are you
5 familiar with that?

6 A. You can copy that on a computer.
7 You can write those computer requests in.

8 Q. But which option do you use when you
9 want to see the doctor?

10 A. I usually just go to the officer and
11 tell him.

12 Q. And when you ask to see a doctor,
13 how do you hear back in terms of when your
14 appointment has been scheduled?

15 A. They just say to come in. Sometimes
16 they come, sometimes they don't. It's when they
17 want to, when they move. It's just medical is not
18 very good here, you know. It's like you have to
19 keep going back to the officer and ask him, could
20 you please tell him to come, come, come. And they
21 answer, "They're busy right now, they'll get to it
22 as soon as they can." Like that.

23 Q. During the quarantine, was there
24 someone from medical who visited the units every
25 day?

Page 25

Sharon Hatcher

Volume I

5/19/2020

1 Q. And do they still come around
2 sometimes and check your temperature and ask you
3 how you're feeling?

4 A. Not now. No.

5 Q. They don't come once a week to do
6 that?

7 A. No, not anymore.

8 Q. When is the last time someone came
9 and took your temperature?

10 A. Well, usually when they do med
11 line -- when they do med line, when they come and
12 give out the medicines, I'll ask them, "Could you
13 take my temperature" and stuff like that, which
14 they do, but I haven't seen them take nobody's
15 temperature.

16 Q. When they do med line? What is "med
17 line"?

18 A. When they give medications, like
19 they give medications at night. It's called pill
20 line.

21 Q. How often does that happen?

22 A. They come morning and they come at
23 night.

24 Q. So twice a day someone comes from
25 the medical department to hand out the pills to

Page 28

Sharon Hatcher

Volume I

5/19/2020

1 A. Right.

2 MR. BARNEA: I actually think that
3 I'm done so unless there's any further
4 questions from petitioners, I think we can
5 wrap this up. Mr. Sprague?

6 MR. SPRAGUE: I have just a few
7 questions.

8 EXAMINATION BY

9 MR. SPRAGUE:

10 Q. Ms. Hatcher, when you were talking
11 about the temperature check, did they ask you
12 about any other COVID-19 symptoms other than
13 fever?

14 A. That's all they checked was for the
15 fever.

16 Q. And, Ms. Hatcher, is there a sign in
17 your unit that said that you can request cleaning
18 supplies and additional toilet issue from the unit
19 manager?

20 A. Yes.

21 Q. When did that sign go up?

22 A. Friday.

23 Q. Friday, so that was shortly before
24 the inspection of the facility?

25 A. Yes.

Page 39

Sharon Hatcher

Volume I

5/19/2020

1 Q. And, Ms. Hatcher, had inmates been
2 asking unit managers for more soap or toilet
3 tissue or cleaning supplies?

4 A. Yes.

5 Q. From what you've seen, what has the
6 response been to those requests?

7 A. We're supposed to get it every
8 Friday. They provide me with two bars of soap,
9 but this is what they give us. Two, every week.
10 Sometimes we don't get it so -- and this -- it
11 doesn't last. So if they is in a good mood, they
12 get it. If they're not in a good mood, they don't
13 get it. So I don't know.

14 Q. And, Ms. Hatcher, in your
15 experience, how responsive is the MCC to requests
16 for medical attention?

17 A. Not good. They put you on hold.
18 Like when the officer calls, they said, "We're
19 busy right now, we will get there as soon as we
20 can."

21 MR. SPRAGUE: Okay. Give me one
22 second just to check my notes but I think
23 that might be it.

24 Okay. I think we're good.

25 MR. BARNEA: Great. Thank you very

Volume I

5/22/2020

1 Q. Mr. Hazlewood, if an inmate fell ill
2 with COVID-19 symptoms at the MCC, what could they
3 do to report it?

4 A. Tell any staff member.

5 Q. Could they do it by paper or what is
6 referred to as cop-out, I understand?

7 A. They could.

8 Q. Do you know if any medical request
9 cop-outs were received while you were acting
10 warden?

11 A. I don't specifically recall that.

12 Q. Do you know whether those medical
13 cop-outs would have been retained?

14 A. Ordinarily a medical cop-out would
15 be responded to if it's in paper and returned to
16 the inmate. If it was done electronically via
17 e-mail, then there would be a record of it there.

18 Q. Are you aware that medical cop-outs
19 at the MCC were being shredded until earlier this
20 month?

21 MR. OESTERICH: Objection.

22 A. No, I'm not aware of that.

23 Q. This is your first time hearing
24 about that?

25 A. Yes.

Page 28

Robert Hazlewood

Volume I

5/22/2020

1 **leave while you were acting warden?**

2 A. Not to my knowledge.

3 **Q. Approximately how many inmates had**
4 **COVID-19 symptoms while you were the acting**
5 **warden?**

6 MR. OESTERICH: Objection.

7 A. I don't recall the exact number. I
8 believe that by the time I left, the number of
9 symptomatic inmates had dropped to nine total.

10 **Q. From a high of what?**

11 A. I can't be sure of the number, but I
12 believe it was 19, a high of 19 when I arrived,
13 and it dropped to approximately nine by the time I
14 departed.

15 **Q. And what is your basis for those**
16 **numbers?**

17 A. The number of inmates that were
18 housed in Unit 3, which was our isolation unit.

19 **Q. We talked about positive inmates and**
20 **contact tracing. Was there any contact tracing**
21 **with respect to symptomatic inmates who had not**
22 **tested positive?**

23 A. I don't recall.

24 **Q. So you are not aware of any such**
25 **contact tracing?**

Page 41

Robert Hazlewood

Volume I

5/22/2020

1 MR. OESTERICH: Objection.

2 A. It may have been happening, but I
3 cannot say for sure if that was happening.

4 Q. So as the acting warden of the
5 facility, you didn't know one way or the other?

6 A. I can't say with certainty now
7 whether there was contact tracing done for
8 symptomatic inmates that weren't verified with a
9 test.

10 Q. Did the MCC alert staff who had come
11 into close contact with a symptomatic inmate?

12 A. Yes. It was reported to me that the
13 contact tracing that was done -- excuse me, repeat
14 that question again.

15 Q. If you had an inmate who had not
16 tested positive but was otherwise symptomatic and
17 they had come into close contact with staff, would
18 you alert the staff to that fact?

19 A. I don't recall specifically if that
20 was done.

21 Q. When you arrived at the facility,
22 Warden, 12 staff had already tested positive; is
23 that correct?

24 A. I believe that was the number, yes.

25 Q. And by the time you returned to FCI

Page 42

Robert Hazlewood

Volume I

5/22/2020

1 symptomatic inmates should be immediately
2 isolated?

3 A. Yes. That's what we did.

4 Q. That's what you did. The MCC
5 followed that guidance?

6 A. So when inmates were identified as
7 symptomatic, they were isolated and they remained
8 in isolation, to my recollection, up to 14 days
9 post resolution of symptoms.

10 Q. But they were not tested before they
11 reentered their unit?

12 MR. OESTERICH: Objection.

13 A. Not during my time there.

14 Q. Were any inmates isolated during
15 your time as acting warden?

16 A. Yes.

17 Q. Were any inmates isolated in
18 solitary confinement or the special housing unit?

19 A. Yes.

20 Q. Is solitary confinement normally
21 used for punishment?

22 MR. OESTERICH: Objection.

23 A. It can be.

24 Q. Do you think the prospect of being
25 placed in solitary confinement or the SHU would

Page 49

Robert Hazlewood

Volume I

5/22/2020

1 Q. Right. So my question was, while
2 you were acting warden, you did not have the list
3 of the inmates who had been deemed vulnerable to
4 COVID-19?

5 MR. OESTERICH: Objection.

6 A. I don't recall seeing that list.

7 Q. Were there any special measures
8 taken to protect these vulnerable inmates?

9 A. It's my recollection that the
10 inmates were housed in a unit together. I believe
11 it was 11 South.

12 Q. Your understanding is that the
13 vulnerable inmates were placed in 11 South?

14 A. That's my recollection, prior to my
15 arrival.

16 Q. That's before you became warden?

17 A. Yes.

18 Q. Do you know if everyone on the list
19 that you haven't seen was placed in 11 South?

20 MR. OESTERICH: Objection.

21 A. Since that was done prior to my
22 arrival, I can't answer that.

23 Q. By the time you arrived at the MCC,
24 had the Bureau of Prisons issued any guidance on
25 home confinement in light of COVID-19?

Page 57

Robert Hazlewood

Volume I

5/22/2020

1 A. Yes.

2 Q. How about the Attorney General of
3 the United States?

4 A. Yes.

5 Q. Did you understand that home
6 confinement guidance to apply to the MCC?

7 A. Yes.

8 Q. Did you understand that guidance to
9 be recommending immediate and increased use of
10 home confinement?

11 A. For eligible inmates meeting the
12 criteria, yes.

13 Q. And prioritizing those that were at
14 high risk?

15 A. Among other considerations, yes.

16 Q. Did that guidance say that it should
17 be implemented as quickly as possible?

18 MR. OESTERICH: Objection.

19 A. Yes.

20 Q. Are you familiar with the Attorney
21 General's April 3rd memo on this subject?

22 A. Yes.

23 Q. Did that memo expand the population
24 of inmates eligible for home confinement?

25 A. Yes.

Page 58

Robert Hazlewood

Volume I

5/22/2020

1 A. That's right. This e-mail was sent
2 while I was still TDY there. There's no date that
3 I can see on this e-mail or memo but it was sent
4 while I was still there.

5 **Q. I agree there is no date. That's**
6 **how it was produced to us unfortunately. You do**
7 **agree that the policy did not go into effect until**
8 **April 26th, 2020; is that right?**

9 MR. OESTERICH: Objection.

10 A. There were reviews being done prior
11 to this -- prior to the unit staff being returned
12 to their normal duties. As I said, there were
13 already unit staff that had been returned to their
14 normal duties prior to April 26th. This was
15 notification that all remaining staff were going
16 to be returned to their normal duties.

17 **Q. And that was going to take effect on**
18 **April 26th, is that correct, all units being**
19 **returned to their normal duties?**

20 A. All those that had not already done
21 so.

22 **Q. And how many had been already**
23 **returned to their normal duties?**

24 A. I believe it was probably seven or
25 eight.

Page 67

Robert Hazlewood

Volume I

5/22/2020

1 **Q. Out of how many?**

2 A. I believe the total was 15.

3 MR. SPRAGUE: I'd like to mark this
4 next Exhibit as 11. It can be found in the
5 zip drive I sent you.

6 THE WITNESS: I see it.

7 (Petitioner's Exhibit 11, document
8 titled North East Region COVID-19 Reporting
9 Date, marked for identification.)

10 **Q. Do you recognize this document?**

11 A. Yes.

12 **Q. What is it?**

13 A. It's a report from the human
14 resources department to the emergency operation
15 center in the northeast which describes our
16 staffing, and it was sent daily.

17 **Q. What does "Staff on TDY status,"**
18 **represent under NYM 35?**

19 A. Those are staff that are on loan so
20 to speak from other bureau facilities to assist at
21 New York while on temporary duty.

22 **Q. So there were 35 staff members at**
23 **the MCC on temporary duty. Do I understand**
24 **correctly?**

25 A. That sounds right.

Page 68

Robert Hazlewood

Volume I

5/22/2020

1 institution, and in particular, the unit staff.

2 Q. Were you concerned that having unit
3 staff dedicated towards custody would impede your
4 ability to implement the Attorney General's
5 guidance?

6 A. Yes, and that's why I set that in
7 motion, and it's important to also understand that
8 there was another effort underway at MCC to ensure
9 that inmates were receiving legal calls and court
10 conference calls, so I also needed staff for that
11 effort as well.

12 Q. How many release recommendations
13 were sent to you for your review during your time
14 as acting warden?

15 A. I don't recall.

16 Q. Do you recall any?

17 A. I do recall some. I don't recall
18 the number.

19 Q. How many home confinement
20 recommendations did you send to the to BOP's
21 Regional Office For Residential Reentry Management
22 while you were the acting warden of the MCC?

23 A. For approval?

24 Q. Yes.

25 A. I don't recall sending any for

Page 71

Robert Hazlewood

Volume I

5/22/2020

1 approval.

2 Q. So from April 9th to April 24th, no
3 home confinement recommendations were sent to the
4 regional RRM?

5 A. Not that I recall.

6 Q. How many people were released to
7 home confinement during your time as acting warden
8 at the MCC?

9 A. I don't recall that number.

10 Q. Do you recall anyone being released
11 on a home confinement while you were the acting
12 warden at the MCC?

13 A. I don't recall.

14 Q. So no?

15 A. I'm sorry?

16 MR. OESTERICH: Objection.

17 Q. You do not recall anyone being
18 released to home confinement while you were the
19 acting warden of the MCC?

20 MR. OESTERICH: Objection.

21 A. I don't recall.

22 Q. You don't recall if any were or you
23 can't recall whether they were or not? I'm just
24 trying --

25 A. I don't recall whether they were or

Page 72

Robert Hazlewood

Volume I

5/22/2020

1 **compassionate release could be sent to a court**
2 **without written approval of the warden; is that**
3 **correct?**

4 A. Right, that's right.

5 Q. Did you review any requests for a
6 **compassionate release during your time as acting**
7 **warden?**

8 A. I don't recall any.

9 Q. During your time as acting warden,
10 **did you recommend any people for compassionate**
11 **release?**

12 A. I do not recall doing so.

13 Q. During your time as the acting
14 **warden of the MCC, did the MCC have a policy on**
15 **furloughs?**

16 A. Only that which was in place already
17 for the Bureau of Prisons. It was a set of
18 criteria and policy that's utilized. There was
19 also the memo that came out in April which talked
20 about some additional considerations for
21 furloughs.

22 Q. Was the furlough policy amended in
23 **any way to account for the COVID-19 pandemic?**

24 MR. OESTERICH: Objection.

25 A. There was a memo that came out in

Page 77

1 hadn't had any visitation, legal or social, for --
2 probably since February 28th.

3 **Q. And was that other issue the**
4 **incident involving a correctional officer who**
5 **reportedly brought a loaded gun into the facility?**

6 MR. OESTERICH: Objection.

7 A. It was involving the possibility of
8 an introduction of contraband.

9 **Q. Was it a loaded gun?**

10 A. Yes, it was a loaded gun.

11 **Q. In addition to that, had anything**
12 **been done as of March 1st to plan for COVID-19?**

13 MR. OESTERICH: Objection.

14 A. Not that I'm aware of.

15 **Q. Let's move forward to approximately**
16 **the middle of March, again of this year. At that**
17 **time had the MCC done anything to prepare for**
18 **dealing with COVID-19?**

19 A. We had begun the enhanced screening
20 at our staff entrance sites.

21 **Q. Anything else?**

22 A. I believe we had already begun
23 passing out PPE --

24 **Q. Okay.**

25 A. -- to our staff.

Page 15

Marti Licon-Vitale

Volume I

5/21/2020

1 Q. Meaning the nine who were in the
2 cell with the person from the MDC?

3 A. Correct.

4 Q. Other than those nine, were any
5 inmates at the MCC being screened prior to on or
6 about March 23rd when you had your first positive
7 COVID-19 inmate?

8 A. Prior to, no.

9 Q. And the staff were given PPE, as of
10 the middle of March staff were given PPE. Was
11 that all staff?

12 A. That was staff who were working in
13 areas that had inmates who were quarantined or
14 were isolated.

15 Q. As of the middle of March, was there
16 any testing protocol in place at that time?

17 A. There was no testing protocol in
18 place at the institution. When an inmate had
19 symptoms, we would take them out to the hospital
20 to be tested there.

21 Q. As of the middle of March, did the
22 MCC have any testing equipment within the
23 facility?

24 A. I don't believe we had any tests
25 available.

Page 19

Marti Licon-Vitale

Volume I

5/21/2020

1 I don't know a specific date.

2 **Q. What location in the facility?**

3 A. There's a unit on the 3rd floor that
4 was available.

5 **Q. What unit?**

6 A. Unit C. I think we call it Unit C
7 on the 3rd floor.

8 **Q. As of the middle of March, did the**
9 **MCC know where it was going to place inmates who**
10 **were symptomatic for COVID-19 but had not yet**
11 **tested positive?**

12 A. I can't say that we knew at that
13 date where we were going to place them.

14 **Q. Was there ever consideration given**
15 **to transferring inmates from the MCC to another**
16 **facility as a response to COVID-19? And what I'm**
17 **focusing on at the moment is March.**

18 MR. OESTERICH: Objection. Asked
19 and answered.

20 THE WITNESS: I can't answer or can?

21 MR. OESTERICH: Can.

22 A. We were making an attempt to move
23 inmates but then as, you know, as the COVID
24 direction kept moving forward because it was very
25 fluid, we stopped the attempt to move inmates to

Page 22

Marti Licon-Vitale

Volume I

5/21/2020

1 consideration inmates who had high blood pressure.

2 Q. Any other reasons why it went from
3 23 to whatever higher number was arrived at?

4 A. I think diabetes was another
5 criteria that we had not necessarily taken into
6 account.

7 Q. Any others other than those two?

8 A. Not that I remember.

9 Q. So rolling forward a little bit,
10 going back to that March 20th conference hosted by
11 Chief Judge McMahon, do you know as of that time
12 approximately how many masks the MCC had?

13 A. No, I don't remember.

14 Q. Did you tell Chief Judge McMahon
15 during that conference that the MCC had a total of
16 130 masks?

17 A. 130 sounds familiar for the N-95.

18 Q. Did you tell Chief Judge McMahon
19 during that conference that the MCC at that time,
20 March 20th, had 30 N-95's and 100 surgical masks
21 for a total of 130? Did you tell her that in
22 substance?

23 A. I may have. I don't remember.

24 Q. Do you have any reason to dispute
25 that?

Page 24

Marti Licon-Vitale

Volume I

5/21/2020

1 MR. OESTERICH: Objection.

2 A. No.

3 Q. Did you tell Chief Judge McMahon at
4 that conference that the use of gloves by staff
5 was optional?

6 A. Yes.

7 Q. Did you tell Chief Judge McMahon at
8 that conference that the MCC was not screening
9 inmates for COVID-19 symptoms other than new
10 arrivals to the facility? Did you tell her that
11 in substance?

12 A. I may have, yes.

13 Q. Any reason to dispute that?

14 MR. OESTERICH: Objection.

15 A. No.

16 Q. Can you tell me what the MCC did to
17 acquire testing equipment or supplies? In other
18 words, who did what, when, to get testing
19 equipment?

20 A. At any point do you mean?

21 Q. Yes. Well, let me do it this way.
22 We've been told in response to our interrogatory
23 requests in this case that the first test kits
24 were ordered by the MCC on April 10th. Do you
25 agree with that?

Page 25

Marti Licon-Vitale

Volume I

5/21/2020

1 A. No.

2 Q. When does the MCC plan to start
3 using the Abbott test machine?

4 A. We've already started.

5 Q. When?

6 A. Two days ago.

7 Q. How many people have been tested so
8 far?

9 A. We've tested one inmate who came
10 into the institution.

11 Q. Anybody else?

12 A. No.

13 Q. Just so I have this, four an hour,
14 results in how many a day?

15 A. 15 -- for four an hour, you get
16 results in 15 minutes.

17 Q. So how many people a day could you
18 test if you chose to use the machine to maximum
19 capacity?

20 A. I guess four an hour all day long.

21 Q. I guess what I'm saying, Warden, is
22 how many hours do you have staff that could
23 administer the test to inmates?

24 A. So we have medical staff available
25 beginning at 6:00 a.m. and I think they're here

Page 28

1 there were 786 inmates at the MCC.

2 A. Okay.

3 Q. Is it fair to say that if you take
4 that number and add on new arrivals, you're
5 somewhere in the neighborhood of 800 inmates who
6 have been at the facility since March 1st?

7 A. Yes.

8 Q. So less than 1 percent of the MCC
9 inmate population since March 1st have tested
10 positive; correct?

11 A. Correct.

12 Q. And do you have an explanation for
13 the difference in the two percentages we've just
14 identified, over 20 percent positives for staff,
15 less than 1 percent positives for inmates?

16 MR. OESTERICH: Objection.

17 A. Testing was not available.

18 Q. And do you know how many inmates in
19 total were tested or have been tested?

20 A. I think 11.

21 Q. Your letter to Chief Judge Mauskopf
22 from Tuesday says 10. Would you accept that?

23 A. Well, I guess I'm --

24 Q. I'm sorry, I apologize. Finish.

25 A. At one point we did have an

Marti Licon-Vitale

Volume I

5/21/2020

1 additional inmate that we tested with the Abbott
2 machine.

3 Q. In the last two days?

4 A. Yes.

5 Q. So five out of 11, so that's close
6 to 50 percent of the inmate population that has
7 been tested have tested positive; correct?

8 A. Okay, yes.

9 Q. Do you have any estimate of how many
10 inmates would have tested positive for COVID-19
11 had they all been tested? Do you have any
12 estimate of that?

13 MR. OESTERICH: Objection.

14 A. I do not.

15 Q. Have you discussed that with anybody
16 at the MCC since the beginning of March, meaning
17 "I wonder how many inmates we would have positive
18 if we tested them all"? Has that been discussed
19 in sum or substance with anybody at the MCC?

20 MR. OESTERICH: Objection to the
21 extent --

22 A. No.

23 MR. OESTERICH: She answered no
24 but to the extent you were consulting
25 lawyers, that's objectionable.

Page 52

1 Q. Do you agree with the general
2 proposition that the more people you test, the
3 more positive results you're going to get? Do
4 you?

5 A. Yes.

6 MR. VINEGRAD: That was a serious
7 question for reasons that, Jeff, you're
8 probably aware of.

9 Q. The screening of inmates, as of
10 March -- in March, what was done to screen inmates
11 for COVID-19?

12 A. In reference to once an inmate has
13 symptoms?

14 Q. In other words, let me do this. If
15 an inmate was screened -- we talked before about
16 the classes of inmates who were screened.

17 I'm now asking a different question.
18 I'm talking about the screening process, itself.
19 Are you with me?

20 A. Okay. The medical staff.

21 Q. Yes. What did the screening consist
22 of?

23 A. Okay. The screening consisted of
24 taking the inmates' temperature and asking them
25 the same questions that we were asking the staff

Marti Licon-Vitale

Volume I

5/21/2020

1 A. I can't tell you -- my assumption
2 would be that the correctional officer collects
3 the cop-outs. Once medical comes, they would hand
4 them to the medical staff at that point.

5 **Q. Are they retained?**

6 A. I don't know.

7 **Q. Are you aware that the medical**
8 **cop-outs were being shredded until earlier this**
9 **month?**

10 MR. OESTERICH: Objection.

11 A. No.

12 **Q. Is this the first you're hearing**
13 **that?**

14 A. It's the first I hear that it's
15 happening here.

16 **Q. Here, MCC, until early May. Is this**
17 **the first time you're hearing that?**

18 A. Yes, it is.

19 **Q. Do you know why that was happening?**

20 MR. OESTERICH: Objection.

21 A. I am not aware that we were doing
22 medical cop-outs on paper. Our medical cop-outs
23 are electronic, and those can't be shredded.

24 **Q. This lawsuit was brought on April**
25 **28th. Does that sound right?**

Page 59

Marti Licon-Vitale

Volume I

5/21/2020

1 A. I don't know.

2 Q. Would you agree with me that that is
3 not the appropriate lapse of time for somebody who
4 reports, "I need medical help. I'm suffering from
5 these symptoms, these are COVID-19 symptoms," and
6 a response two weeks later? Would you agree with
7 me that that is not appropriate?

8 A. I would agree.

9 Q. As far as you know, how long is it
10 after an inmate is determined to have COVID-19
11 symptoms that they're isolated? How long after
12 it's first determined that they have those
13 symptoms are they isolated?

14 A. They're isolated immediately.

15 Q. Do you have any explanation for the
16 accounts of inmates who have waited for one to two
17 weeks in between the time they recorded having
18 COVID-19 symptoms and the time that they were
19 isolated?

20 Do you have any explanation for that?

21 MR. OESTERICH: Objection.

22 A. No.

23 Q. Do you agree that that is not an
24 appropriate passage of time?

25 A. That is not an appropriate passage

Page 62

1 of time, I agree.

2 Q. Is there any effort to track the
3 medical condition of inmates who are symptomatic
4 for COVID-19 at any point after they're first
5 treated?

6 MR. OESTERICH: Objection.

7 Q. Do they get follow-on treatment?

8 A. Can you repeat the beginning of that
9 question?

10 Q. I'll repeat the whole question.

11 After an inmate who is symptomatic
12 for COVID-19 is determined to have recovered, is
13 there any follow-on checking or treatment to see
14 if they are, in fact, now healthy?

15 A. I don't know.

16 Q. Why was the SHU used to isolate
17 inmates who were determined to have COVID-19?

18 A. Initially because it was the easiest
19 place to make an entire range available so that we
20 would only be placing symptomatic inmates in
21 there, which was for approximately one week.

22 Q. And it was one week what, that the
23 SHU was used?

24 A. Correct.

25 Q. And the SHU, just for the record, I

1 know you know this, that is the place which
2 typically is used for disciplinary reasons,
3 correct, for inmates?

4 A. It's the special housing units. We
5 place disciplinary inmates in there and we also
6 place inmates who are pending discipline or are
7 being protected.

8 Q. For the first two of those three
9 categories, though, basically if an inmate does
10 something bad or is being investigated for doing
11 something bad, they go to the SHU; right?

12 A. Yes, or are being investigated for
13 possibly needing protection.

14 Q. Is it fair to say that the
15 conditions for the inmates in the SHU are not as
16 favorable as conditions in an ordinary cell in the
17 facility?

18 A. That is true.

19 Q. Was there any effort made to explain
20 to inmates at the MCC that if they were going to
21 be sent to the SHU because of COVID-19, that it
22 was for their own health and safety and should not
23 be viewed as a form of punishment?

24 MR. OESTERICH: Objection.

25 A. Yes.

Marti Licon-Vitale

Volume I

5/21/2020

1 **Q. How do you know that?**

2 A. Because they should have been
3 proceeded with a detention order indicating on the
4 detention order why they were being placed in the
5 housing unit.

6 **Q. And do you know if that, in fact,**
7 **happened?**

8 A. I don't know if, in fact, it
9 happened. It is our procedure.

10 **Q. Do you know what, in fact,**
11 **correction officers were telling inmates who were**
12 **symptomatic for COVID-19 about going to the SHU?**
13 **Do you know what was actually happening with that?**

14 A. No. I wasn't there.

15 **Q. Was there any effort made to improve**
16 **the conditions in the SHU for the inmates who were**
17 **sent there because of COVID-19?**

18 A. No.

19 **Q. Do you agree that that would have**
20 **been appropriate to do for those inmates, these**
21 **non-disciplinary inmates who were sent there for**
22 **medical reasons?**

23 A. Well, they were celled alone which
24 is an improvement from having to share a cell.
25 For the most part, if they were isolated, it was a

Page 65

Marti Licon-Vitale

Volume I

5/21/2020

1 when, I can't tell you who.

2 Q. Or why?

3 A. Or why.

4 Q. The inmates who have COVID-19 risk
5 factors, you understand what that means?

6 A. I'm assuming that that means
7 individuals who have already have high-risk
8 factors to begin with.

9 Q. Right.

10 A. Okay.

11 Q. You know what those are as
12 pronounced by the CDC, are you generally familiar?

13 A. I think I'm familiar.

14 Q. That group of inmates, were they
15 quarantined?

16 MR. OESTERICH: Objection.

17 A. They weren't -- the group was moved
18 to 11 South for the most part prior to the COVID.
19 They were quarantined, yes, in 11 South, yes.

20 Q. And then at some point, it was
21 determined that there were one or more inmates
22 from 11 South who actually tested positive for
23 COVID-19; am I right?

24 A. Yes.

25 Q. Did the remaining inmates on 11

Page 69

Marti Licon-Vitale

Volume I

5/21/2020

1 South remain in that unit?

2 A. Yes.

3 Q. Are you familiar with the general
4 COVID-19 protocol for social distancing?

5 A. Yes.

6 Q. Are there locations within the MCC
7 in which inmates are not able to practice social
8 distancing?

9 A. Because of the six-foot rule do you
10 mean?

11 Q. Yes.

12 A. 11 South can be difficult. That's
13 why they're provided with masks and informed to
14 wash their hands continually.

15 Q. And when were they first provided
16 with masks, approximately when?

17 A. Maybe March -- the week of March --
18 the end of March I guess.

19 Q. And what type of masks were they
20 provided at that time?

21 A. Surgical masks.

22 Q. And how many?

23 A. At the time I don't know if it was
24 one or two.

25 Q. Were they paper masks?

Page 70

Marti Licon-Vitale

Volume I

5/21/2020

1 A. They were surgical masks.

2 Q. Were they able to be washed and
3 reused?

4 A. Those could not be washed, no.

5 Q. When was the first time that inmates
6 were given masks that could be washed and reused?

7 A. I can't give you a specific date. I
8 think it was prior to me going out. It was prior
9 to me going out. I can't give you a date but it
10 was prior to April 5th.

11 Q. About how long before you went out
12 did that happen?

13 A. I don't recall.

14 Q. What are the other open dorm
15 areas in the facility other than 11 South?

16 A. Only 11 South.

17 Q. The only one?

18 A. Yes.

19 Q. As of the time that you went out,
20 early April, how much soap were inmates given?

21 A. Inmates are either able to purchase
22 their soap or they're provided with soap. I don't
23 know how often.

24 Q. How much soap and how often were
25 they provided it before you went out? Do you

Page 71

Marti Licon-Vitale

Volume I

5/21/2020

1 aware.

2 Q. Are you aware of reports by inmates
3 who have stated that they have seen MCC staff not
4 wearing PPE?

5 A. Say that again.

6 Q. Are you aware of reports of inmates
7 who have stated that they have seen MCC staff not
8 wearing PPE?

9 A. I'm not aware of inmates stating
10 that.

11 Q. Are you aware of anybody stating
12 that?

13 A. I know that when I walk around, if
14 someone is maybe not wearing a mask or they have
15 it down or they have it up here, I always tell
16 them that "You need to properly wear your mask."
17 They're uncomfortable, it's hard to breathe and if
18 I just happened to come at the wrong time where
19 maybe they're just trying to catch some air, I
20 have to remind them. It doesn't happen often.
21 It's been on maybe one or two occasions.

22 Q. Beyond that, have you heard from
23 anybody that inmates have stated that they have
24 seen staff not wearing PPE?

25 A. No.

Page 78

Marti Licon-Vitale

Volume I

5/21/2020

1 MR. OESTERICH: Objection.

2 A. Sure.

3 Q. It makes a difficult experience all
4 that much more difficult and inhumane; fair?

5 MR. OESTERICH: Objection.

6 A. I guess it's bi-fold in that it is
7 fair to say that. However, if inmates followed
8 the rules and threw their food away once they're
9 done with their meal, that would prevent the, I
10 guess, the number of vermin that we have.

11 Q. It would prevent it?

12 A. Prevent it -- it would definitely --
13 it would reduce it. We now have a building next
14 door that is empty, has no food in it. It's dark.
15 I walked in simply because it's our building and I
16 needed to see it. There aren't any rats in there.
17 There's no food.

18 Q. How is it that you're saying that
19 it's inmates who leave food as opposed to anything
20 else that could be happening to contribute to the
21 prevalence of vermin in the jail?

22 A. Because that's what I see.

23 Q. What do you do when you see that?

24 A. I pretty much -- I walk around with
25 a trash bag. I walk around with a trash bag. I

Page 87

Marti Licon-Vitale

Volume I

5/21/2020

1 disclose any confidential communications
2 with your attorney.

3 Q. I'm asking for your position,
4 Warden. Did you support that request or oppose
5 that request?

6 MR. OESTERICH: Objection.

7 A. Ask me the question again.

8 Q. Did you support the petitioners'
9 request in this case to be able to have
10 representatives of theirs inspect the MCC?

11 MR. OESTERICH: The same
12 objection.

13 A. I opposed it.

14 Q. Why?

15 A. Because it would take time away from
16 the staff that have other duties, to walk staff
17 around.

18 Q. Once you learned that the Court had
19 ordered the inspection, what, if any, steps did
20 you take as a result?

21 A. Actually, we didn't take any
22 additional steps because, as I mentioned earlier,
23 we had already had the cleaning company come in.
24 They had already started working on cleaning the
25 first floor.

Page 89

Marti Licon-Vitale

Volume I

5/21/2020

1 When we saw that they were doing a
2 great job, we started enlisting them to go to the
3 other floors to strip those floors down, wax them
4 down, and this all occurred prior to knowing of
5 any visitation.

6 So to say steps taken into place --
7 there were things that are just being done in
8 order to just increase the sanitation of this
9 institution because that's what it should be.
10 It's not because someone is coming over.

11 **Q. Are there records that document when**
12 **the cleaning company came in and performed**
13 **cleaning services on the other floors, not the**
14 **first floor?**

15 A. We do have a record because they --
16 we would have to inform our correctional services
17 staff that they would be here and that they would
18 be going to the different floors and to allow them
19 to go to the floors. So we do have documentation,
20 yes.

21 REQ MR. VINEGRAD: Jeff, I request that
22 documentation.

23 MR. OESTERICH: Put it in
24 writing.

25 **Q. Were any steps taken within the**

Page 90

Marti Licon-Vitale

Volume I

5/21/2020

1 facility to prepare for the inspection, once you
2 learned that the judge had ordered it, other than
3 what you just testified to?

4 A. Anytime someone is going to come to
5 the facility, we are going -- it's like someone
6 coming to your house. You're going to make sure
7 that, you know, your bed is made, you vacuumed the
8 floor and the dishes are in not in the machine.

9 So we didn't do anything different
10 with this visit than we would have if I knew that
11 my boss was coming or if my director was coming to
12 the institution.

13 Q. Was anything done relating to
14 COVID-19 in particular to prepare for the
15 inspection?

16 A. Not for the inspection, no.
17 Whatever we were doing for COVID, we were doing
18 for COVID and not for the inspection.

19 Q. Do you know if anybody else in the
20 facility took any steps with respect to the
21 condition of the facility, again, in response to
22 the fact that there was going to be a court
23 ordered inspection?

24 A. I became aware that there were
25 additional signs that were put up, but it wasn't

Page 91

Marti Licon-Vitale

Volume I

5/21/2020

1 A. Yes.

2 Q. When did the system go electronic?

3 A. I want to say sometime last year.

4 Q. Got it. So how, if at all, has the
5 time period for evaluating potential referrals for
6 home confinement changed at the MCC due to
7 COVID-19?

8 A. The system is electronic. That just
9 became a priority. There are other things that we
10 no longer have to do because we're not accepting
11 new inmates so we're not having to do all of the
12 orientation and initial classification and
13 providing clothes, and there's a lot of things
14 we're not doing now. So we're able to focus on
15 that and getting those halfway -- those home
16 confinement states requested. I can't tell --
17 give you a time frame of how long it takes. I
18 haven't really been here long enough to assess
19 that.

20 Q. Are you familiar with Attorney
21 General Barr's March 26th and April 3rd memoranda
22 on the topic of home confinement?

23 A. Yes.

24 Q. Are you aware that Attorney General
25 Barr declared that basically there was an

Page 96

1 emergency situation that justified the
2 prioritization of home confinement as a measure to
3 deal with COVID-19? Correct?

4 A. Yes.

5 Q. Are you aware that he directed all
6 the institutions within the Federal Bureau of
7 Prisons to focus on that task, meaning determining
8 that there were inmates at the facility who were
9 eligible for referral to home confinement, that
10 that was to be undertaken immediately? Are you
11 aware of that?

12 A. I am aware.

13 Q. And you're aware that he directed
14 that this be done and that time was of the
15 essence? Are you aware that he said that?

16 A. I am aware.

17 Q. And you're aware that he directed
18 that institutions prioritize all at-risk inmates,
19 meaning at risk for COVID-19, and not just inmates
20 who were previously eligible for home confinement?

21 A. Yes.

22 Q. And you're aware as well that the
23 Bureau of Prisons directed that it was imperative
24 to promptly review those inmates for potential
25 referral to home confinement?

Marti Licon-Vitale

Volume I

5/21/2020

1 A. Yes.

2 Q. And are you aware that that
3 included, according to the Bureau of Prisons
4 directives, reviewing inmates for potential
5 referral to home confinement as a population
6 management strategy?

7 A. Yes.

8 Q. Meaning a way to get inmates out of
9 the facility; right?

10 A. Correct. Correct.

11 Q. A very different situation than had
12 been in place prior to that time with respect to
13 home confinement; correct?

14 A. Correct.

15 Q. These were big changes; correct?

16 A. Correct.

17 Q. And you were being directed by the
18 Attorney General of the United States to implement
19 them immediately; right?

20 MR. OESTERICH: Objection.

21 A. Yes.

22 Q. So tell me as best as you know, what
23 exactly did the MCC do in response to Attorney
24 General Barr's and the Bureau of Prisons'
25 directives, the ones that you've just been

Page 98

Marti Licon-Vitale

Volume I

5/21/2020

1 **testifying about for the last couple of minutes?**
2 **Tell me exactly what the MCC did, when they did it**
3 **and who did it.**

4 A. We did not immediately start
5 referring inmates to home confinement because
6 while COVID was an emergency, we also had the
7 emergency of our staffing levels because staff
8 were going out on sick leave.

9 We had -- we had to -- our priority
10 was to ensure that our units were secured and we
11 had to place all staff on housing units in order
12 to assure the security of the institution and of
13 our community. So we did not instantly start
14 using our unit team to process home confinement.

15 I do believe that our CMC started
16 processing our home confinement, and that was not
17 right away either because he also was on the unit
18 and he was actually taken off to start doing that
19 procedure, and as we were able to get more staff
20 in, we were able to start taking the case managers
21 whose responsibility it is to make that
22 preparation to do that.

23 So we did not immediately start
24 preparing home confinement referrals.

25 **Q. When did that process of preparing**

Page 99

Marti Licon-Vitale

Volume I

5/21/2020

1 addressing COVID-19 other than what you've already
2 testified to?

3 A. No.

4 Q. Anything about the situation with
5 any of the home confinement referrals? Did you
6 discuss that with him?

7 A. I don't think so.

8 Q. So during the process of reviewing
9 inmates for referral to home confinement -- again,
10 I'm talking about since Attorney General Barr's
11 memos -- are there any considerations that
12 constitute what I'll call automatic disqualifiers,
13 things that automatically render an inmate
14 ineligible?

15 A. We've got to review every case
16 individually. I think, you know, automatically is
17 if it's somebody that is in for murder, I would
18 have to think about it twice before I'd let them
19 back out.

20 Q. Understood, but there's no automatic
21 if you got this particular feature, you can't be
22 sent for home confinement; is that your testimony?

23 A. It really depends because you could
24 have two inmates who are there for sexual
25 exploitation of a minor, and one of them is

Page 116

Marti Licon-Vitale

Volume I

5/21/2020

1 electronic and the other one is physical, so I
2 would be more apt to send the electronic person
3 home over the person who was physical.

4 **Q. My question, to be real precise, is,**
5 **is there any particular factor, that that one**
6 **particular factor means that they cannot be**
7 **referred for home confinement?**

8 MR. OESTERICH: Objection.

9 A. Not anything that is coming to my
10 head. I have to look at the individual as a
11 whole.

12 **Q. Right.**

13 A. There's more factors than one that
14 we have to look at.

15 **Q. Understood. I'm just asking if**
16 **there's any one factor or factors that are**
17 **automatic disqualifiers regardless of what else we**
18 **know about the inmate.**

19 A. Probably severe violence.

20 **Q. Any others?**

21 A. Severe violence. Nothing else I
22 could think of.

23 **Q. And do you know how many inmates**
24 **have been considered for potential referral for**
25 **home confinement at the MCC since Attorney General**

Page 117

Marti Licon-Vitale

Volume I

5/21/2020

1 **Barr's memo?**

2 A. I don't have that number.

3 **Q. So we've been told by your attorneys**
4 **in this lawsuit that as of last Friday, there were**
5 **117 inmates that had been considered. Does that**
6 **sound about right to you based on what you know**
7 **about that process?**

8 MR. OESTERICH: Objection.

9 A. I have no knowledge of how many had
10 been referred.

11 **Q. Have you seen any summary charts or**
12 **anything like any documents that kind of set forth**
13 **like here is the people who have been considered**
14 **and here's what we decided, anything like that?**

15 A. I have, and your number is higher in
16 that what I have looked at is a fluid data,
17 electronic data, that is not necessarily going to
18 be updated. So that's the only thing I've seen.

19 **Q. You have the exhibits right there,**
20 **right?**

21 A. Yes.

22 **Q. Can you take Exhibit 8.**

23 A. Okay.

24 **Q. Have you seen that document before?**

25 A. No. This stack of documentation was

Page 118

Marti Licon-Vitale

Volume I

5/21/2020

1 handed to me this morning.

2 Q. So you've never seen it before this
3 morning?

4 A. No.

5 Q. That's a document that was provided
6 to us by your lawyers in this case to reflect the
7 status of the inmates who were considered for home
8 confinement. Are you looking at the right
9 exhibit, Warden?

10 A. Yes.

11 Q. You have that chart, right?
12 Litigation number, status, reason for
13 ineligibility, do you see that?

14 A. Yes.

15 Q. So there's -- I believe there's 117,
16 do you accept that representation, inmates on this
17 list? 13 is there twice, but it's 117. That's
18 where I'm coming up with that number just to
19 orient you.

20 Do you have your own approximation
21 of how many inmates have been considered for home
22 confinement during the period of time we're
23 talking about? Because you said you thought my
24 number was higher than yours.

25 MR. OESTERICH: Objection.

Page 119

Marti Licon-Vitale

Volume I

5/21/2020

1 A. Can you ask me that question again.

2 Q. Approximately how many inmates do
3 you believe have been considered for home
4 confinement since Attorney General Barr's memo by
5 the MCC?

6 A. I have absolutely no idea and the
7 reason I say your number is higher is because I
8 tried running I guess a data sheet that might
9 indicate what the numbers were. Because it's a
10 brand new process so as you know, a brand new
11 process sometimes takes a while to get going. And
12 I thought that number -- I think it was like a 3
13 on that number so I don't even know if I was
14 running the right thing, so that's why I'm saying
15 that number is just different than mine.

16 Q. Fair enough. Do you have any
17 factual base to say that this document that shows
18 117 people is wrong?

19 A. No.

20 Q. Is the MCC reviewing for potential
21 referral to home confinement all sentenced inmates
22 at the MCC currently other than inmates who were
23 there on a writ or have a detainer?

24 A. All inmates are being reviewed who
25 are BOP inmates.

Page 120

Marti Licon-Vitale

Volume I

5/21/2020

1 Q. Sentenced inmates; right?

2 A. Yes.

3 Q. Other than the writs or detainer
4 inmates, or are those being reviewed too?

5 A. We're not reviewing detainer
6 inmates because ordinarily when -- I'm sorry, writ
7 inmates, because again, you can look at it, but
8 that may be an individual who has a detainer and
9 they're not going to be eligible.

10 Q. So according to the information that
11 your lawyers are providing us, there have been 27
12 inmates who have been released since Attorney
13 General Barr's memos.

14 Do you know how many of those were
15 inmates for whom the MCC recommended release on
16 home confinement?

17 A. No, I do not know.

18 Q. You agree, do you not, that if an
19 inmate was released, that could happen a number of
20 different ways? For example, they could have been
21 released because they served out their sentence;
22 right?

23 A. Yes.

24 Q. Correct?

25 A. Yes.

Page 121

Marti Licon-Vitale

Volume I

5/21/2020

1 Q. They could have been released
2 because they made a request to a judge for
3 compassionate release that the judge granted on
4 their motion as opposed to the Bureau of Prisons'
5 motion; correct?

6 A. Correct.

7 Q. They could have been transferred to
8 another facility; correct?

9 A. Unlikely.

10 Q. Unlikely because of COVID-19 but
11 possible; right?

12 A. Possible.

13 Q. Or they could be released because
14 the MCC referred them for home confinement and
15 they were released on that basis; correct?

16 A. Correct.

17 Q. Just to be clear, do you have any
18 information as you sit here now as to how many of
19 those 27 inmates fall within the various
20 categories that I've just described?

21 A. No, none.

22 Q. Or when that happened, when those 27
23 were released?

24 A. No.

25 Q. So the information we were provided

Page 122

1 by your lawyers is that 38 of those 117 inmates
2 were deemed to be ineligible for home confinement.
3 Do you have any basis to dispute factually that
4 number?

5 A. No.

6 Q. On this list were a number of the
7 people who are ineligible. Let me just direct you
8 to number 60. Do you see number 60?

9 A. Yes.

10 Q. It says "Primary or prior offense
11 includes violence, sex offense or
12 terrorism-related." Do you see that?

13 A. Yes.

14 Q. And do you know for that inmate
15 whether it was the primary offense or a prior
16 offense that rendered that inmate ineligible?

17 MR. OESTERICH: Objection.

18 A. I don't know.

19 Q. If I asked you the same questions
20 for every inmate on this list who has that
21 explanation for his ineligibility or her
22 ineligibility "Primary or prior offense includes
23 violence, sex offense or terrorism-related," would
24 you be able to tell me whether it was a primary
25 offense or the prior offense? Would you be able

Marti Licon-Vitale

Volume I

5/21/2020

1 to tell me that?

2 A. No.

3 Q. Somewhere in the MCC, am I correct,
4 that is documented somewhere?

5 A. Yes.

6 Q. Are you aware that under -- you
7 mentioned the May 8th memo a few minutes ago.
8 Correct?

9 A. Yes.

10 Q. Am I correct that that is the latest
11 memo from the Bureau of Prisons dealing with the
12 topic of home confinement?

13 A. I believe so.

14 Q. The latest in a series of memos;
15 correct?

16 A. Yes.

17 Q. Are you aware that under the May 8th
18 memo, that the factor that is specified with
19 respect to offenses, it states that in determining
20 whether someone is eligible for home confinement,
21 you verify that their primary offense is not
22 violence, a sex offense or terrorism-related?

23 A. Yes.

24 Q. Are you aware that in that May 8th
25 memo, there is no reference to the inmate's prior

Page 124

Marti Licon-Vitale

Volume I

5/21/2020

1 offense being violence, a sex offense or
2 terrorism-related?

3 MR. OESTERICH: Objection.

4 A. Okay.

5 Q. You accept that?

6 A. Yes.

7 Q. Okay. So that under the May 8th
8 memo, am I correct that if an inmate has a prior
9 offense, not a primary, a prior offense for
10 violence, a sex offense or terrorism-related, that
11 is not a factor in rendering them ineligible for
12 home confinement? Would you agree with me?

13 MR. OESTERICH: Objection.

14 A. It is not a factor in the
15 memorandum, no.

16 Q. Was there any effort by the MCC to
17 look at the 38 inmates who are considered
18 ineligible based on primary or prior offense to
19 see whether any of them only had a prior offense
20 of the type described in the memo as opposed to a
21 primary one?

22 A. So when an inmate is reviewed for
23 home confinement or for halfway house, that review
24 is predominantly done by the case manager.

25 Q. Um-hum.

Page 125

Marti Licon-Vitale

Volume I

5/21/2020

1 A. In reference to if they approve or
2 deny, recommend or not, the inmate is notified and
3 the inmate has a right to file an administrative
4 remedy and appeal that decision.

5 **Q. Do you believe it would be**
6 **appropriate for the MCC to determine now if there**
7 **were inmates deemed ineligible for home**
8 **confinement referral because they had a prior**
9 **offense involving violence, sex offense or**
10 **terrorism-related, in light of the fact that the**
11 **May 8th memo does not speak about prior offenses**
12 **of that type?**

13 MR. OESTERICH: Objection.

14 A. I would say that the inmate's file
15 in its entirety has to be reviewed and I would
16 look at prior offenses to make a final
17 determination regardless of what this memo said.

18 **Q. But for inmates for whom the basis**
19 **for ineligibility was a prior offense of violence,**
20 **sex offense or terrorism-related, do you believe**
21 **it would be appropriate now, in light of the May**
22 **8th memo, to reassess them?**

23 MR. OESTERICH: Objection.

24 A. I would reassess the change of the
25 incident reports where we can now review inmates

Page 126

Marti Licon-Vitale

Volume I

5/21/2020

1 who have the 300 and 400 series incident reports,
2 and if they were denied because of that, I would
3 definitely review them to see if they were not
4 eligible due to that.

5 If there is a prior -- of some type
6 of a terrorism offense, I would have to review --
7 if I made that initial review, I don't think
8 anything changed.

9 Q. Well, isn't it a fact that the May
10 8th memo did change the Bureau's position in that
11 regard by no longer specifying prior offense?

12 A. I don't know if that was just
13 inadvertently left out or not.

14 Q. This is a memo from the assistant
15 director of the correctional program division;
16 correct? Withdrawn.

17 I mean, if you look at the memo and
18 you've seen them all, it's very clear the April
19 memos talk about primary or prior offense and the
20 May 8th memo says primary offense, right? That's
21 what the memos say, do they not?

22 MR. OESTERICH: Objection.

23 A. Okay, I'm not sure. I would have to
24 look at it.

25 Q. That's fine. No problem. Take a

Page 127

1 look at Exhibit 6 and Exhibit 9 and put them side
2 by side and let me know when you've had a chance
3 to do that. Warden, take the time you need, I'm
4 just trying to assist and tell you on April 22nd,
5 I'm focusing on the third bullet toward the bottom
6 of the page, and on the May 8th memo, again
7 focusing you on the third bullet towards the
8 bottom of the page. Do you see that?

9 A. I see it on the April 22nd,
10 "Verifying the inmate's primary or prior offense
11 history does not include violence, sex offense or
12 terrorism related."

13 Q. And now look at May 8th, the second
14 bullet on the page.

15 A. "Verifying the inmate's primary
16 offense is not violent, a sex offense or terrorism
17 related."

18 Q. It says nothing about "or prior";
19 correct?

20 A. Correct.

21 Q. That's the same memo, by the way,
22 the May 8th one, that has the change about 300 to
23 400, correct that those are no longer
24 disqualifiers; correct?

25 A. Correct.

Marti Licon-Vitale

Volume I

5/21/2020

1 Q. Okay.

2 A. However -- disregard.

3 Q. Would it be reasonable to view the
4 inmates who we were told by your lawyers were
5 ineligible because of a primary or prior offense
6 as the reason for ineligibility, would it be
7 reasonable to reassess those to determine whether
8 it was solely based on a prior offense as opposed
9 to a primary offense in light of what the May 8th
10 memo says; yes or no?

11 MR. OESTERICH: Objection.

12 A. No, because the April 22nd memo,
13 where it says "past or present," when you read the
14 May 8th memo, it has in highlights the change for
15 the 300 and 400 series incident. However, it does
16 not highlight verifying the inmate's primary
17 offense, so that leads me to believe that that's
18 not a significant change they want us to look at,
19 because it is not bolded.

20 Q. Is that true for other changes in
21 the May 8th memo as compare to the April 22nd
22 memo? Because there's others. Are you telling me
23 the only change that is worthy of consideration is
24 the one that is in bold font in the May 8th memo?
25 Warden, is that your testimony?

Page 129

Marti Licon-Vitale

Volume I

5/21/2020

1 MR. OESTERICH: Objection.

2 A. My testimony is that it stands out.

3 Q. **My question was, is that the only**
4 **change?**

5 A. No, not the only change.

6 Q. **It's not the only change as between**
7 **the April 22nd and the May 8th memo that is worthy**
8 **of consideration; am I right?**

9 MR. OESTERICH: Objection.

10 Q. **Correct?**

11 A. I'm uncertain. I'm looking. I
12 think the May 8th memo also references pregnant
13 inmates.

14 Q. **And is that in bold font?**

15 A. It is not.

16 Q. **Does it deserve to be considered as**
17 **a change in policy?**

18 A. It does.

19 Q. **Going back to that chart, Exhibit 8,**
20 **some of the inmates for whom it states that they**
21 **were ineligible is for "recidivism score above**
22 **minimum." For example, number 16, number 61, some**
23 **others, do you see that?**

24 A. "Primary or prior offense includes
25 violence, sex offense, or

Page 130

Marti Licon-Vitale

Volume I

5/21/2020

1 terrorism-related/recidivism score above minimum, "
2 yes.

3 Q. Recidivism score above minimum, do
4 you agree with me that under the relevant Bureau
5 of Prisons guidance, including the May 8th memo,
6 that a score above minimum is not a
7 disqualification for home confinement; is it? I'm
8 referring you to the top of page 2 of the memo.

9 A. Which memo?

10 Q. The May 8th memo, which is Exhibit 9.

11 A. I've got the May 8th memo. Where
12 did you want me the look?

13 Q. I'm looking at the second bullet,
14 "Inmates who have anything above a Minimum score
15 not receiving priority treatment"; correct? Do
16 you see that?

17 A. "Inmates" -- I'm sorry. I'm just
18 reading aloud. I'll stop doing that.

19 Q. You can do it. Just speak clearly
20 when you do it.

21 A. Can you tell me exactly where on
22 page 2?

23 Q. I'm looking at the second bullet
24 toward the very top of the page; right? It says
25 the factors that are to be assessed to determine

Page 131

1 whether an inmate is suitable for home
2 confinement, and it says, "Inmates who have
3 anything above a Minimum score not receiving
4 priority treatment." Do you see that?

5 A. Yes.

6 Q. So in substance, if they have a
7 recidivism score above a minimum, they are not
8 supposed to be prioritized in terms of eligibility
9 for home confinement; correct?

10 A. Yes.

11 Q. But under the terms of this memo,
12 that fact, having a recidivism score above
13 minimum, is not a disqualifying feature; is it?

14 A. I don't believe it would be. It's
15 just something that is keeping them from being a
16 priority.

17 Q. But it doesn't render them
18 ineligible; does it?

19 A. I don't believe so. Not in
20 accordance with this memo.

21 Q. Also on that chart again, Exhibit 8,
22 some of the people for whom it's stated they were
23 ineligible, it says "percentage of time served."
24 For example, number 34. Do you see that?

25 A. Yes.

1 Q. Again, to be clear, the percentage
2 of time served is not a factor that would render
3 an inmate ineligible for home confinement
4 referral; am it right?

5 A. Percentage of time served, if you
6 look at the memo, I think it's May 8th --

7 Q. May 8, page 2, if I can help you,
8 Warden.

9 A. I'm on page 2. So this memo says
10 "have served 50 percent or more of their sentence,
11 or have 18 months or less remaining on their
12 sentence and they have served 25 percent or more
13 of their sentence."

14 Q. And right above that, am I correct
15 that it says the following: "We are currently
16 prioritizing for consideration those inmates who
17 either," and then it gives the information you
18 just testified to. Am I right?

19 A. Okay, yes.

20 Q. So those features, the 50 percent
21 and the 18 months and the 25 percent, those are
22 factors that would give an inmate priority in
23 terms of reviewing them for potential home
24 confinement referral; correct?

25 A. Yes.

1 Q. But the inmate who does not meet
2 those thresholds is not, under the terms of this
3 memo, rendered ineligible for home confinement
4 referral; are they?

5 A. I don't believe so.

6 Q. Some of the inmates listed as
7 ineligible on that chart, Exhibit 8, it refers to
8 gang affiliation. So, for example, number 96, do
9 you see that, gang affiliation?

10 A. 96, page 2?

11 Q. Yes.

12 A. Yes.

13 Q. Does that mean that they had a gang
14 affiliation out on the street, had a gang
15 affiliation in jail, somewhere else?

16 MR. OESTERICH: Objection.

17 Q. If you know.

18 A. I don't know.

19 Q. Am I correct that under the Bureau
20 of Prisons guidance, the factor with respect to
21 gang affiliation, that is included by in effect an
22 inmate having a gang affiliation in prison?

23 A. Can you repeat that?

24 Q. Yes. Is gang affiliation in prison,
25 gang-related activities in prison, isn't that the

Marti Licon-Vitale

Volume I

5/21/2020

1 factor that is included within the May 8th memo to
2 be considered in determining whether an inmate is
3 eligible for home confinement? I'm putting the
4 emphasis on gang activity in prison as opposed to
5 they were part of a gang outside on the street and
6 perhaps that's what they got prosecuted for. Am I
7 right about that?

8 A. I'm not sure.

9 Q. Why don't you take a look at the May
10 8th memo and look at the paragraph in the middle,
11 and tell me when you're ready. Right above where
12 that bold font type is that we spoke before --

13 A. So "All inmates must be reviewed by
14 the SIS department --

15 Q. -- at the referring facility to
16 determine if the inmate has engaged in violent or
17 gang-related activity in prison." Correct?

18 A. Yes.

19 Q. Do you know with respect to the
20 inmates who are on that chart whether it was gang
21 activity in prison that rendered them ineligible
22 according to your lawyers?

23 MR. OESTERICH: Objection.

24 A. I do not know.

25 MR. OESTERICH: Can we talk about

Page 135

Marti Licon-Vitale

Volume I

5/21/2020

1 MR. OESTERICH: Objection.

2 A. I'm not aware.

3 Q. Have you asked anybody for authority
4 or permission to utilize the First Step Act
5 standard as opposed to the 5050.50 standard in
6 determining whether to move for the release of an
7 inmate due to compassionate release?

8 A. I have not.

9 Q. Have you recommended the filing of a
10 motion for compassionate release of any inmate in
11 the institution since you've become the warden?

12 A. Say that one more time. I'm sorry.

13 Q. Since you became the warden of the
14 MCC, have you either moved or recommended the
15 filing of a motion by the Bureau of Prisons to
16 have an inmate released for compassionate release
17 reasons?

18 A. I don't think that we have. There
19 may have been one case where we didn't believe he
20 was eligible but because of his age, we went ahead
21 and we referred that to central office for their
22 final decision.

23 Q. Was that COVID-19-related or simply
24 age and had nothing to do with COVID-19?

25 A. COVID-19-related.

Page 142

Marti Licon-Vitale

Volume I

5/21/2020

1 A. Yes.

2 Q. You haven't delegated your authority
3 to anybody within the MCC; have you?

4 A. No, I have not.

5 Q. On those two issues, the buck stops
6 with you; right?

7 A. Yes.

8 Q. Again, do you know how quickly
9 people at the MCC are, in fact, reviewing,
10 responding to, pushing up the chain their
11 recommendations with respect to compassionate
12 release requests? Do you know?

13 A. In the three weeks that I have been
14 back, I have seen a lot of referrals even though
15 they were declinations. I've signed a lot of
16 those, so I can say that a lot of work has been
17 done in the last three weeks, yes.

18 Q. Do you know what, if any, work was
19 being done before that with respect to
20 compassionate release requests?

21 A. I wasn't here.

22 Q. And how about in March into early
23 April? Do you know how quickly that process was
24 working in terms of compassionate release
25 requests?

Page 146

Marti Licon-Vitale

Volume I

5/21/2020

1 A. It probably wasn't at all.

2 Q. Furloughs, are you familiar with the
3 Bureau of Prisons' policies and procedures with
4 respect to furloughs?

5 A. Yes.

6 Q. Have there been any change in the
7 MCC's policies or practices with regard to whether
8 to recommend the release of an inmate on a
9 furlough?

10 A. The process has not changed.

11 Q. Who makes the final decision on
12 behalf of the Bureau of Prisons on a furlough
13 release?

14 A. I do.

15 Q. Has a furlough been considered by
16 you at all as a means of responding to COVID-19?

17 A. I am open to reviewing furloughs as
18 a response to COVID-19. I haven't seen any
19 referrals.

20 Q. We've been told by your lawyers in
21 this case, again, in response to our written
22 requests for information, that there have been no
23 inmates that have been even considered for a
24 furlough since March 1st of 2020. Do you have any
25 basis to dispute that?

Page 147

Marti Licon-Vitale

Volume I

5/21/2020

1 forward, regardless of if it's COVID-related or
2 not. We've been under circumstances where it's
3 kind of held us up from doing so.

4 Certainly ideas of how we control
5 our chemicals in the units is one, and some of the
6 stuff we've actually implemented during COVID. We
7 actually have washers and driers in the units now
8 simply because it just helps us with ensuring that
9 their clothes get washed or the cleaning rags get
10 cleaned. Sometimes they could even put mops in
11 there to clean those.

12 Something that the nation is
13 probably looking at is more PPE.

14 **Q. What PPE?**

15 A. COVID. You know, we've had PPE
16 before I went out and after I came back. There
17 was never a point where oh, my goodness, we don't
18 have masks. We've always had them, but certainly
19 I would like to have more of a -- I guess like a
20 storage of everything that you could imagine just
21 to have ready for any possible future pandemics.

22 **Q. You mentioned chemicals in the**
23 **units. What were you referring to?**

24 A. I mean cleaning chemicals.

25 **Q. Got it. Fair enough. Anything**

1 And nobody wanted to be isolated in the
2 SHU, so they weren't -- they knew that the only
3 treatment that they would have gotten would be
4 Tylenol and they would be locked up in the SHU.
5 So nobody wanted to do that.

6 **Q. So did the first person get sick,**
7 **Andrade, was the end of March?**

8 A. I think, I think March 27th.

9 **Q. How long did it take the medical people**
10 **to take him?**

11 A. I think he complained more and they
12 didn't take him. And then the next day when he
13 fell on the floor, they ended up taking him.

14 **Q. Okay. And so Andrade is the only**
15 **person from your tier that was removed from the**
16 **dormitory?**

17 A. I couldn't understand you, ma'am. I'm
18 sorry.

19 **Q. Was Andrade the only person in your**
20 **tier who was removed from the dormitory due to**
21 **COVID symptoms?**

22 A. Yes, ma'am.

23 **Q. Did any other inmate in your dormitory**
24 **report COVID symptoms to a medical staff?**

25 A. I did. I -- I couldn't breathe, and I

Page 23

Nicolas Sucich

Volume I

5/21/2020

1 told Mr. Singh on I think it was the 3rd of
2 April. I couldn't even breathe. I had to have
3 help to get to the door and talk to him, and he
4 made a very nasty comment and that was it.

5 **Q. What was that nasty comment?**

6 A. He told us that we were -- we were
7 worthless, and that we were left there to die.
8 What can he do at this time of night?

9 **Q. You said his name is Mr. Singh?**

10 A. Mr. Singh, yes.

11 **Q. Is that a corrections officer or a**
12 **medical staff?**

13 A. Medical.

14 **Q. Do you know if anyone besides yourself**
15 **reported symptoms of COVID to the medical staff?**

16 A. I know that they've had them. I don't
17 think they were -- I felt guilty because I
18 thought I was getting the COVID-19, and I didn't
19 want to pass it to everyone else, so I was a
20 little bit more mature about it. And if they
21 were going to segregate me, I would prefer to be
22 segregated instead of giving it to someone else.

23 But it didn't end up happening that way
24 because when I told him I couldn't breathe, you
25 know, he said your inhaler -- I think he told me

1 tier who you think are experiencing COVID
2 symptoms?

3 A. I don't understand you.

4 Q. Currently, at the present, May 19,
5 2020, are there any inmates who you think are
6 experiencing COVID symptoms in your tier?

7 A. I can't -- on the tier, no.

8 Q. Have you observed any other inmates in
9 your unit experiencing COVID symptoms recently?

10 A. We're on quarantine. I'm not exposed
11 to any other inmates.

12 Q. So to your knowledge, are any other
13 inmates experiencing COVID symptoms right now?

14 A. I can't answer that. I don't know.

15 Q. 11 South was under quarantine for some
16 time period, is that correct?

17 A. Yes.

18 Q. When did the quarantine start?

19 A. Since we returned from Otisville.
20 Approximately March 12th.

21 Q. You went out of your cell for about an
22 hour a day, is that correct?

23 A. Yes. Correct.

24 Q. During this quarantine period how often
25 are you getting temperature checks?

Page 32

James Woodson

Volume I

5/19/2020

1 A. Not at all, at this time.

2 Q. When was the last temperature check
3 that your unit had?

4 A. Maybe two weeks ago.

5 Q. Two weeks ago were you getting
6 temperature checks more frequently?

7 A. Yes.

8 Q. How often were you getting temperature
9 checks two weeks ago?

10 A. Initially in early March it was
11 throughout the day, three times a day. They
12 tapered down to maybe once a day, and now not at
13 all.

14 Q. Do you know if during temperature
15 checks that happened about two weeks ago that
16 anyone had a high temperature?

17 A. I didn't hear you. I'm sorry.

18 Q. During the temperature checks that you
19 said happened two weeks ago, do you know if
20 anyone had a high temperature?

21 A. I wouldn't know.

22 Q. During the temperature checks, did you
23 yourself ever have a high temperature?

24 A. No.

25 Q. I saw that you mentioned in the

Page 33

James Woodson

Volume I

5/19/2020

1 computer and the shower?

2 A. Yes -- could you repeat that, please?

3 Q. Since COVID started in March, have you
4 been cleaning up after yourself, like after you
5 use the computer, the phone or the shower?

6 A. What do you mean "clean up after
7 yourself"?

8 Q. Like do you wipe -- are you able to,
9 like, spray these things, wipe them down?

10 A. No.

11 Q. Have you observed orderlies cleaning
12 the common area?

13 A. Because of the tier where we're
14 located, we are not in sight of an actual
15 cleanup. You can't see it where we're located.

16 Q. I see that you have a mask around your
17 ears right now. A mask?

18 A. Yes.

19 Q. Is that the cloth mask?

20 A. No. It's a cloth mask. We were issued
21 these about two weeks ago. I was instructed by
22 the CO to remove it so we could speak.

23 Q. How many cloth masks were you given?

24 A. Two.

25 Q. Before the cloth masks, were you given

Page 37

James Woodson

Volume I

5/19/2020

1 **paper masks?**

2 A. One time that I remember.

3 **Q. Were you given paper masks every week**
4 **or just one?**

5 A. One. One paper mask was all we get at
6 one time.

7 **Q. Do you know approximately when you were**
8 **given a paper mask?**

9 A. The latter -- the middle part of March.
10 After Parisi left they began to do stuff. Maybe
11 the middle or the latter part of March. I'm not
12 sure.

13 MS. ROVNER: I think those are all the
14 questions I have today.

15 MR. BOSCH: Can I have one minute to
16 make sure I'm all set, and then I'll have a
17 few questions to respond with.

18 (Brief pause.)

19 MR. BOSCH: Mr. Woodson, I have a few
20 questions, if you're ready.

21 THE WITNESS: Yes.

22 EXAMINATION BY

23 MR. BOSCH:

24 **Q. You testified earlier that you observed**
25 **people in your unit in late March with chills,**

Page 38

James Woodson

Volume I

5/19/2020

1 fever, sore throats and coughing, that's correct?

2 A. Yes.

3 Q. Did you experience any of those things
4 yourself?

5 A. Maybe chills, but not really, no.

6 Q. Are you aware that your legal counsel
7 and the doctor took an inspection of the MCC last
8 week Wednesday?

9 A. Yes, I'm aware of it.

10 Q. Did you observe the MCC making any
11 changes in the dates preceding that inspection?

12 A. Yeah, I have.

13 Q. What kind of things did you see?

14 A. An orderly was mopping the floors,
15 which had never happened. The day of the
16 inspection the assistant warden, the associate
17 warden came onto the unit and posted
18 informational signs of the type of hand washing
19 and sanitation that had never been there before.

20 There was a sign posted on the control
21 booth, which we call the "bubble," that stated if
22 inmates needed soap, toilet paper, cleaning
23 suppliers and masks to ask the officer in the
24 bubble, which was not true; those items were not
25 available there.

Interim Guidance on Management of Coronavirus Disease 2019 (COVID-19) in Correctional and Detention Facilities

This interim guidance is based on what is currently known about the transmission and severity of coronavirus disease 2019 (COVID-19) as of **March 23, 2020**.

The US Centers for Disease Control and Prevention (CDC) will update this guidance as needed and as additional information becomes available. Please check the following CDC website periodically for updated interim guidance: <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

This document provides interim guidance specific for correctional facilities and detention centers during the outbreak of COVID-19, to ensure continuation of essential public services and protection of the health and safety of incarcerated and detained persons, staff, and visitors. Recommendations may need to be revised as more information becomes available.

In this guidance

- Who is the intended audience for this guidance?
- Why is this guidance being issued?
- What topics does this guidance include?
- Definitions of Commonly Used Terms
- Facilities with Limited Onsite Healthcare Services
- COVID-19 Guidance for Correctional Facilities
- Operational Preparedness
- Prevention
- Management
- Infection Control
- Clinical Care of COVID-19 Cases
- Recommended PPE and PPE Training for Staff and Incarcerated/Detained Persons
- Verbal Screening and Temperature Check Protocols for Incarcerated/Detained Persons, Staff, and Visitors

Who is the intended audience for this guidance?

This document is intended to provide guiding principles for healthcare and non-healthcare administrators of correctional and detention facilities (including but not limited to federal and state prisons, local jails, and detention centers), law enforcement agencies that have custodial authority for detained populations (i.e., US Immigration and Customs Enforcement and US Marshals Service), and their respective health departments, to assist in preparing for potential introduction, spread, and mitigation of COVID-19 in their facilities. In general, the document uses terminology referring to correctional environments but can also be applied to civil and pre-trial detention settings.

This guidance will not necessarily address every possible custodial setting and may not use legal terminology specific to individual agencies' authorities or processes. **The guidance may need to be adapted based on individual facilities' physical space, staffing, population, operations, and other resources and conditions.** Facilities should contact CDC or their state, local, territorial, and/or tribal public health department if they need assistance in applying these principles or addressing topics that are not specifically covered in this guidance.

C114102-8 05/27/2020

cdc.gov/coronavirus

MCC-PET_0000615

Why is this guidance being issued?

Correctional and detention facilities can include custody, housing, education, recreation, healthcare, food service, and workplace components in a single physical setting. The integration of these components presents unique challenges for control of COVID-19 transmission among incarcerated/detained persons, staff, and visitors. Consistent application of specific preparation, prevention, and management measures can help reduce the risk of transmission and severe disease from COVID-19.

- Incarcerated/detained persons live, work, eat, study, and recreate within congregate environments, heightening the potential for COVID-19 to spread once introduced.
- In most cases, incarcerated/detained persons are not permitted to leave the facility.
- There are many opportunities for COVID-19 to be introduced into a correctional or detention facility, including daily staff ingress and egress; transfer of incarcerated/detained persons between facilities and systems, to court appearances, and to outside medical visits; and visits from family, legal representatives, and other community members. Some settings, particularly jails and detention centers, have high turnover, admitting new entrants daily who may have been exposed to COVID-19 in the surrounding community or other regions.
- Persons incarcerated/detained in a particular facility often come from a variety of locations, increasing the potential to introduce COVID-19 from different geographic areas.
- Options for medical isolation of COVID-19 cases are limited and vary depending on the type and size of facility, as well as the current level of available capacity, which is partly based on medical isolation needs for other conditions.
- Adequate levels of custody and healthcare staffing must be maintained to ensure safe operation of the facility, and options to practice social distancing through work alternatives such as working from home or reduced/alternate schedules are limited for many staff roles.
- Correctional and detention facilities can be complex, multi-employer settings that include government and private employers. Each is organizationally distinct and responsible for its own operational, personnel, and occupational health protocols and may be prohibited from issuing guidance or providing services to other employers or their staff within the same setting. Similarly, correctional and detention facilities may house individuals from multiple law enforcement agencies or jurisdictions subject to different policies and procedures.
- Incarcerated/detained persons and staff may have medical conditions that increase their risk of severe disease from COVID-19.
- Because limited outside information is available to many incarcerated/detained persons, unease and misinformation regarding the potential for COVID-19 spread may be high, potentially creating security and morale challenges.
- The ability of incarcerated/detained persons to exercise disease prevention measures (e.g., frequent handwashing) may be limited and is determined by the supplies provided in the facility and by security considerations. Many facilities restrict access to soap and paper towels and prohibit alcohol-based hand sanitizer and many disinfectants.
- Incarcerated persons may hesitate to report symptoms of COVID-19 or seek medical care due to co-pay requirements and fear of isolation.

CDC has issued separate COVID-19 guidance addressing healthcare infection control and clinical care of COVID-19 cases as well as close contacts of cases in community-based settings. Where relevant, community-focused guidance documents are referenced in this document and should be monitored regularly for updates, but they may require adaptation for correctional and detention settings.

This guidance document provides additional recommended best practices specifically for correctional and detention facilities. **At this time, different facility types (e.g., prison vs. jail) and sizes are not differentiated. Administrators and agencies should adapt these guiding principles to the specific needs of their facility.**

What topics does this guidance include?

The guidance below includes detailed recommendations on the following topics related to COVID-19 in correctional and detention settings:

- ✓ Operational and communications preparations for COVID-19
- ✓ Enhanced cleaning/disinfecting and hygiene practices
- ✓ Social distancing strategies to increase space between individuals in the facility
- ✓ How to limit transmission from visitors
- ✓ Infection control, including recommended personal protective equipment (PPE) and potential alternatives during PPE shortages
- ✓ Verbal screening and temperature check protocols for incoming incarcerated/detained individuals, staff, and visitors
- ✓ Medical isolation of confirmed and suspected cases and quarantine of contacts, including considerations for cohorting when individual spaces are limited
- ✓ Healthcare evaluation for suspected cases, including testing for COVID-19
- ✓ Clinical care for confirmed and suspected cases
- ✓ Considerations for persons at higher risk of severe disease from COVID-19

Definitions of Commonly Used Terms

Close contact of a COVID-19 case—In the context of COVID-19, an individual is considered a close contact if they a) have been within approximately 6 feet of a COVID-19 case for a prolonged period of time or b) have had direct contact with infectious secretions from a COVID-19 case (e.g., have been coughed on). Close contact can occur while caring for, living with, visiting, or sharing a common space with a COVID-19 case. Data to inform the definition of close contact are limited. Considerations when assessing close contact include the duration of exposure (e.g., longer exposure time likely increases exposure risk) and the clinical symptoms of the person with COVID-19 (e.g., coughing likely increases exposure risk, as does exposure to a severely ill patient).

Cohorting—Cohorting refers to the practice of isolating multiple laboratory-confirmed COVID-19 cases together as a group, or quarantining close contacts of a particular case together as a group. Ideally, cases should be isolated individually, and close contacts should be quarantined individually. However, some correctional facilities and detention centers do not have enough individual cells to do so and must consider cohorting as an alternative. See Quarantine and Medical Isolation sections below for specific details about ways to implement cohorting to minimize the risk of disease spread and adverse health outcomes.

Community transmission of COVID-19—Community transmission of COVID-19 occurs when individuals acquire the disease through contact with someone in their local community, rather than through travel to an affected location. Once community transmission is identified in a particular area, correctional facilities and detention centers are more likely to start seeing cases inside their walls. Facilities should consult with local public health departments if assistance is needed in determining how to define “local community” in the context of COVID-19 spread. However, because all states have reported cases, all facilities should be vigilant for introduction into their populations.

Confirmed vs. Suspected COVID-19 case—A confirmed case has received a positive result from a COVID-19 laboratory test, with or without symptoms. A suspected case shows symptoms of COVID-19 but either has not been tested or is awaiting test results. If test results are positive, a suspected case becomes a confirmed case.

Incarcerated/detained persons—For the purpose of this document, “incarcerated/detained persons” refers to persons held in a prison, jail, detention center, or other custodial setting where these guidelines are generally applicable. The term includes those who have been sentenced (i.e., in prisons) as well as those held for pre-trial (i.e., jails) or civil purposes (i.e., detention centers). Although this guidance does not specifically reference individuals in every type of custodial setting (e.g., juvenile facilities, community confinement facilities), facility administrators can adapt this guidance to apply to their specific circumstances as needed.

Medical Isolation—Medical isolation refers to confining a confirmed or suspected COVID-19 case (ideally to a single cell with solid walls and a solid door that closes), to prevent contact with others and to reduce the risk of transmission. Medical isolation ends when the individual meets pre-established clinical and/or testing criteria for release from isolation, in consultation with clinical providers and public health officials (detailed in guidance below). In this context, isolation does NOT refer to punitive isolation for behavioral infractions within the custodial setting. Staff are encouraged to use the term “medical isolation” to avoid confusion.

Quarantine—Quarantine refers to the practice of confining individuals who have had close contact with a COVID-19 case to determine whether they develop symptoms of the disease. Quarantine for COVID-19 should last for a period of 14 days. Ideally, each quarantined individual would be quarantined in a single cell with solid walls and a solid door that closes. If symptoms develop during the 14-day period, the individual should be placed under medical isolation and evaluated for COVID-19. If symptoms do not develop, movement restrictions can be lifted, and the individual can return to their previous residency status within the facility.

Social Distancing—Social distancing is the practice of increasing the space between individuals and decreasing the frequency of contact to reduce the risk of spreading a disease (ideally to maintain at least 6 feet between all individuals, even those who are asymptomatic). Social distancing strategies can be applied on an individual level (e.g., avoiding physical contact), a group level (e.g., canceling group activities where individuals will be in close contact), and an operational level (e.g., rearranging chairs in the dining hall to increase distance between them). Although social distancing is challenging to practice in correctional and detention environments, it is a cornerstone of reducing transmission of respiratory diseases such as COVID-19. Additional information about social distancing, including information on its use to reduce the spread of other viral illnesses, is available in this [CDC publication](#).

Staff—In this document, “staff” refers to all public sector employees as well as those working for a private contractor within a correctional facility (e.g., private healthcare or food service). Except where noted, “staff” does not distinguish between healthcare, custody, and other types of staff including private facility operators.

Symptoms—Symptoms of COVID-19 include fever, cough, and shortness of breath. Like other respiratory infections, COVID-19 can vary in severity from mild to severe. When severe, pneumonia, respiratory failure, and death are possible. COVID-19 is a novel disease, therefore the full range of signs and symptoms, the clinical course of the disease, and the individuals and populations most at risk for disease and complications are not yet fully understood. Monitor the [CDC website](#) for updates on these topics.

Facilities with Limited Onsite Healthcare Services

Although many large facilities such as prisons and some jails usually employ onsite healthcare staff and have the capacity to evaluate incarcerated/detained persons for potential illness within a dedicated healthcare space, many smaller facilities do not. Some of these facilities have access to on-call healthcare staff or providers who visit the facility every few days. Others have neither onsite healthcare capacity nor onsite medical isolation/quarantine space and must transfer ill patients to other correctional or detention facilities or local hospitals for evaluation and care.

The majority of the guidance below is designed to be applied to any correctional or detention facility, either as written or with modifications based on a facility's individual structure and resources. However, topics related to healthcare evaluation and clinical care of confirmed and suspected COVID-19 cases and their close contacts may not apply directly to facilities with limited or no onsite healthcare services. It will be especially important for these types of facilities to coordinate closely with their state, local, tribal, and/or territorial health department when they encounter confirmed or suspected cases among incarcerated/detained persons or staff, in order to ensure effective medical isolation and quarantine, necessary medical evaluation and care, and medical transfer if needed. The guidance makes note of strategies tailored to facilities without onsite healthcare where possible.

Note that all staff in any sized facility, regardless of the presence of onsite healthcare services, should observe guidance on recommended PPE in order to ensure their own safety when interacting with confirmed and suspected COVID-19 cases. Facilities should make contingency plans for the likely event of PPE shortages during the COVID-19 pandemic.

COVID-19 Guidance for Correctional Facilities

Guidance for correctional and detention facilities is organized into 3 sections: Operational Preparedness, Prevention, and Management of COVID-19. Recommendations across these sections can be applied simultaneously based on the progress of the outbreak in a particular facility and the surrounding community.

- **Operational Preparedness.** This guidance is intended to help facilities prepare for potential COVID-19 transmission in the facility. Strategies focus on operational and communications planning and personnel practices.
- **Prevention.** This guidance is intended to help facilities prevent spread of COVID-19 from outside the facility to inside. Strategies focus on reinforcing hygiene practices, intensifying cleaning and disinfection of the facility, screening (new intakes, visitors, and staff), continued communication with incarcerated/detained persons and staff, and social distancing measures (increasing distance between individuals).
- **Management.** This guidance is intended to help facilities clinically manage confirmed and suspected COVID-19 cases inside the facility and prevent further transmission. Strategies include medical isolation and care of incarcerated/detained persons with symptoms (including considerations for cohorting), quarantine of cases' close contacts, restricting movement in and out of the facility, infection control practices for individuals interacting with cases and quarantined contacts or contaminated items, intensified social distancing, and cleaning and disinfecting areas visited by cases.

Operational Preparedness

Administrators can plan and prepare for COVID-19 by ensuring that all persons in the facility know the symptoms of COVID-19 and how to respond if they develop symptoms. Other essential actions include developing contingency plans for reduced workforces due to absences, coordinating with public health and correctional partners, and communicating clearly with staff and incarcerated/detained persons about these preparations and how they may temporarily alter daily life.

Communication & Coordination

✓ **Develop information-sharing systems with partners.**

- Identify points of contact in relevant state, local, tribal, and/or territorial public health departments before cases develop. Actively engage with the health department to understand in advance which entity has jurisdiction to implement public health control measures for COVID-19 in a particular correctional or detention facility.
- Create and test communications plans to disseminate critical information to incarcerated/detained persons, staff, contractors, vendors, and visitors as the pandemic progresses.

- Communicate with other correctional facilities in the same geographic area to share information including disease surveillance and absenteeism patterns among staff.
- Where possible, put plans in place with other jurisdictions to prevent confirmed and suspected COVID-19 cases and their close contacts from being transferred between jurisdictions and facilities unless necessary for medical evaluation, medical isolation/quarantine, clinical care, extenuating security concerns, or to prevent overcrowding.
- Stay informed about updates to CDC guidance via the CDC COVID-19 website as more information becomes known.

✓ **Review existing pandemic flu, all-hazards, and disaster plans, and revise for COVID-19.**

- Ensure that physical locations (dedicated housing areas and bathrooms) have been identified to isolate confirmed COVID-19 cases and individuals displaying COVID-19 symptoms, and to quarantine known close contacts of cases. (Medical isolation and quarantine locations should be separate). The plan should include contingencies for multiple locations if numerous cases and/or contacts are identified and require medical isolation or quarantine simultaneously. See Medical Isolation and Quarantine sections below for details regarding individual medical isolation and quarantine locations (preferred) vs. cohorting.
- Facilities without onsite healthcare capacity should make a plan for how they will ensure that suspected COVID-19 cases will be isolated, evaluated, tested (if indicated), and provided necessary medical care.
- Make a list of possible social distancing strategies that could be implemented as needed at different stages of transmission intensity.
- Designate officials who will be authorized to make decisions about escalating or de-escalating response efforts as the epidemiologic context changes.

✓ **Coordinate with local law enforcement and court officials.**

- Identify lawful alternatives to in-person court appearances, such as virtual court, as a social distancing measure to reduce the risk of COVID-19 transmission.
- Explore strategies to prevent over-crowding of correctional and detention facilities during a community outbreak.

✓ **Post signage throughout the facility communicating the following:**

- **For all:** symptoms of COVID-19 and hand hygiene instructions
- **For incarcerated/detained persons:** report symptoms to staff
- **For staff:** stay at home when sick; if symptoms develop while on duty, leave the facility as soon as possible and follow CDC-recommended steps for persons who are ill with COVID-19 symptoms including self-isolating at home, contacting their healthcare provider as soon as possible to determine whether they need to be evaluated and tested, and contacting their supervisor.
- Ensure that signage is understandable for non-English speaking persons and those with low literacy, and make necessary accommodations for those with cognitive or intellectual disabilities and those who are deaf, blind, or low-vision.

Personnel Practices

✓ **Review the sick leave policies of each employer that operates in the facility.**

- Review policies to ensure that they actively encourage staff to stay home when sick.
- If these policies do not encourage staff to stay home when sick, discuss with the contract company.
- Determine which officials will have the authority to send symptomatic staff home.

- ✓ **Identify staff whose duties would allow them to work from home. Where possible, allowing staff to work from home can be an effective social distancing strategy to reduce the risk of COVID-19 transmission.**
 - Discuss work from home options with these staff and determine whether they have the supplies and technological equipment required to do so.
 - Put systems in place to implement work from home programs (e.g., time tracking, etc.).
- ✓ **Plan for staff absences.** Staff should stay home when they are sick, or they may need to stay home to care for a sick household member or care for children in the event of school and childcare dismissals.
 - Allow staff to work from home when possible, within the scope of their duties.
 - Identify critical job functions and plan for alternative coverage by cross-training staff where possible.
 - Determine minimum levels of staff in all categories required for the facility to function safely. If possible, develop a plan to secure additional staff if absenteeism due to COVID-19 threatens to bring staffing to minimum levels.
 - Consider increasing keep on person (KOP) medication orders to cover 30 days in case of healthcare staff shortages.
- ✓ **Consider offering revised duties to staff who are at higher risk of severe illness with COVID-19.** Persons at higher risk may include older adults and persons of any age with serious underlying medical conditions including lung disease, heart disease, and diabetes. See [CDC's website](#) for a complete list, and check regularly for updates as more data become available to inform this issue.
 - Facility administrators should consult with their occupational health providers to determine whether it would be allowable to reassign duties for specific staff members to reduce their likelihood of exposure to COVID-19.
- ✓ **Offer the seasonal influenza vaccine to all incarcerated/detained persons (existing population and new intakes) and staff throughout the influenza season.** Symptoms of COVID-19 are similar to those of influenza. Preventing influenza cases in a facility can speed the detection of COVID-19 cases and reduce pressure on healthcare resources.
- ✓ **Reference the Occupational Safety and Health Administration website for recommendations regarding worker health.**
- ✓ **Review** CDC's guidance for businesses and employers to identify any additional strategies the facility can use within its role as an employer.

Operations & Supplies

- ✓ **Ensure that sufficient stocks of hygiene supplies, cleaning supplies, PPE, and medical supplies (consistent with the healthcare capabilities of the facility) are on hand and available, and have a plan in place to restock as needed if COVID-19 transmission occurs within the facility.**
 - Standard medical supplies for daily clinic needs
 - Tissues
 - Liquid soap when possible. If bar soap must be used, ensure that it does not irritate the skin and thereby discourage frequent hand washing.
 - Hand drying supplies
 - Alcohol-based hand sanitizer containing at least 60% alcohol (where permissible based on security restrictions)
 - Cleaning supplies, including EPA-registered disinfectants effective against the virus that causes COVID-19

- Recommended PPE (facemasks, N95 respirators, eye protection, disposable medical gloves, and disposable gowns/one-piece coveralls). See PPE section and Table 1 for more detailed information, including recommendations for extending the life of all PPE categories in the event of shortages, and when face masks are acceptable alternatives to N95s.
- Sterile viral transport media and sterile swabs to collect nasopharyngeal specimens if COVID-19 testing is indicated
- ✓ **Make contingency plans for the probable event of PPE shortages during the COVID-19 pandemic, particularly for non-healthcare workers.**
 - See CDC guidance optimizing PPE supplies.
- ✓ **Consider relaxing restrictions on allowing alcohol-based hand sanitizer in the secure setting where security concerns allow.** If soap and water are not available, CDC recommends cleaning hands with an alcohol-based hand sanitizer that contains at least 60% alcohol. Consider allowing staff to carry individual-sized bottles for their personal hand hygiene while on duty.
- ✓ **Provide a no-cost supply of soap to incarcerated/detained persons, sufficient to allow frequent hand washing.** (See Hygiene section below for additional detail regarding recommended frequency and protocol for hand washing.)
 - Provide liquid soap where possible. If bar soap must be used, ensure that it does not irritate the skin and thereby discourage frequent hand washing.
- ✓ **If not already in place, employers operating within the facility should establish a respiratory protection program as appropriate, to ensure that staff and incarcerated/detained persons are fit tested for any respiratory protection they will need within the scope of their responsibilities.**
- ✓ **Ensure that staff and incarcerated/detained persons are trained to correctly don, doff, and dispose of PPE that they will need to use within the scope of their responsibilities.** See Table 1 for recommended PPE for incarcerated/detained persons and staff with varying levels of contact with COVID-19 cases or their close contacts.

Prevention

Cases of COVID-19 have been documented in all 50 US states. Correctional and detention facilities can prevent introduction of COVID-19 from the community and reduce transmission if it is already inside by reinforcing good hygiene practices among incarcerated/detained persons, staff, and visitors (including increasing access to soap and paper towels), intensifying cleaning/disinfection practices, and implementing social distancing strategies.

Because many individuals infected with COVID-19 do not display symptoms, the virus could be present in facilities before cases are identified. Both good hygiene practices and social distancing are critical in preventing further transmission.

Operations

- ✓ **Stay in communication with partners about your facility's current situation.**
 - State, local, territorial, and/or tribal health departments
 - Other correctional facilities
- ✓ **Communicate with the public about any changes to facility operations, including visitation programs.**

- ✓ **Restrict transfers of incarcerated/detained persons to and from other jurisdictions and facilities unless necessary for medical evaluation, medical isolation/quarantine, clinical care, extenuating security concerns, or to prevent overcrowding.**
 - Strongly consider postponing non-urgent outside medical visits.
 - If a transfer is absolutely necessary, perform verbal screening and a temperature check as outlined in the Screening section below, before the individual leaves the facility. If an individual does not clear the screening process, delay the transfer and follow the protocol for a suspected COVID-19 case—including putting a face mask on the individual, immediately placing them under medical isolation, and evaluating them for possible COVID-19 testing. If the transfer must still occur, ensure that the receiving facility has capacity to properly isolate the individual upon arrival. Ensure that staff transporting the individual wear recommended PPE (see Table 1) and that the transport vehicle is cleaned thoroughly after transport.
- ✓ **Implement lawful alternatives to in-person court appearances where permissible.**
- ✓ **Where relevant, consider suspending co-pays for incarcerated/detained persons seeking medical evaluation for respiratory symptoms.**
- ✓ **Limit the number of operational entrances and exits to the facility.**

Cleaning and Disinfecting Practices

- ✓ **Even if COVID-19 cases have not yet been identified inside the facility or in the surrounding community, begin implementing intensified cleaning and disinfecting procedures according to the recommendations below. These measures may prevent spread of COVID-19 if introduced.**
- ✓ **Adhere to** CDC recommendations for cleaning and disinfection during the COVID-19 response. Monitor these recommendations for updates.
 - Several times per day, clean and disinfect surfaces and objects that are frequently touched, especially in common areas. Such surfaces may include objects/surfaces not ordinarily cleaned daily (e.g., doorknobs, light switches, sink handles, countertops, toilets, toilet handles, recreation equipment, kiosks, and telephones).
 - Staff should clean shared equipment several times per day and on a conclusion of use basis (e.g., radios, service weapons, keys, handcuffs).
 - Use household cleaners and EPA-registered disinfectants effective against the virus that causes COVID-19 as appropriate for the surface, following label instructions. This may require lifting restrictions on undiluted disinfectants.
 - Labels contain instructions for safe and effective use of the cleaning product, including precautions that should be taken when applying the product, such as wearing gloves and making sure there is good ventilation during use.
- ✓ **Consider increasing the number of staff and/or incarcerated/detained persons trained and responsible for cleaning common areas to ensure continual cleaning of these areas throughout the day.**
- ✓ **Ensure adequate supplies to support intensified cleaning and disinfection practices, and have a plan in place to restock rapidly if needed.**

Hygiene

- ✓ **Reinforce healthy hygiene practices, and provide and continually restock hygiene supplies throughout the facility, including in bathrooms, food preparation and dining areas, intake areas, visitor entries and exits, visitation rooms and waiting rooms, common areas, medical, and staff-restricted areas (e.g., break rooms).**
- ✓ **Encourage all persons in the facility to take the following actions to protect themselves and others from COVID-19. Post signage throughout the facility, and communicate this information verbally on a regular basis. Sample signage and other communications materials are available on the CDC website.** Ensure that materials can be understood by non-English speakers and those with low literacy, and make necessary accommodations for those with cognitive or intellectual disabilities and those who are deaf, blind, or low-vision.
 - **Practice good cough etiquette:** Cover your mouth and nose with your elbow (or ideally with a tissue) rather than with your hand when you cough or sneeze, and throw all tissues in the trash immediately after use.
 - **Practice good hand hygiene:** Regularly wash your hands with soap and water for at least 20 seconds, especially after coughing, sneezing, or blowing your nose; after using the bathroom; before eating or preparing food; before taking medication; and after touching garbage.
 - **Avoid touching your eyes, nose, or mouth without cleaning your hands first.**
 - **Avoid sharing eating utensils, dishes, and cups.**
 - **Avoid non-essential physical contact.**
- ✓ **Provide incarcerated/detained persons and staff no-cost access to:**
 - **Soap**—Provide liquid soap where possible. If bar soap must be used, ensure that it does not irritate the skin, as this would discourage frequent hand washing.
 - **Running water, and hand drying machines or disposable paper towels for hand washing**
 - **Tissues** and no-touch trash receptacles for disposal
- ✓ **Provide alcohol-based hand sanitizer with at least 60% alcohol where permissible based on security restrictions.** Consider allowing staff to carry individual-sized bottles to maintain hand hygiene.
- ✓ **Communicate that sharing drugs and drug preparation equipment can spread COVID-19 due to potential contamination of shared items and close contact between individuals.**

Prevention Practices for Incarcerated/Detained Persons

- ✓ **Perform pre-intake screening and temperature checks for all new entrants. Screening should take place in the sallyport, before beginning the intake process,** in order to identify and immediately place individuals with symptoms under medical isolation. See Screening section below for the wording of screening questions and a recommended procedure to safely perform a temperature check. Staff performing temperature checks should wear recommended PPE (see PPE section below).
 - **If an individual has symptoms of COVID-19** (fever, cough, shortness of breath):
 - Require the individual to wear a face mask.
 - Ensure that staff who have direct contact with the symptomatic individual wear recommended PPE.
 - Place the individual under medical isolation (ideally in a room near the screening location, rather than transporting the ill individual through the facility), and refer to healthcare staff for further evaluation. (See Infection Control and Clinical Care sections below.)
 - Facilities without onsite healthcare staff should contact their state, local, tribal, and/or territorial health department to coordinate effective medical isolation and necessary medical care.

o **If an individual is a close contact of a known COVID-19 case (but has no COVID-19 symptoms):**

- Quarantine the individual and monitor for symptoms two times per day for 14 days. (See Quarantine section below.)
- Facilities without onsite healthcare staff should contact their state, local, tribal, and/or territorial health department to coordinate effective quarantine and necessary medical care.

✓ **Implement social distancing strategies to increase the physical space between incarcerated/detained persons (ideally 6 feet between all individuals, regardless of the presence of symptoms).** Strategies will need to be tailored to the individual space in the facility and the needs of the population and staff. Not all strategies will be feasible in all facilities. Example strategies with varying levels of intensity include:

o **Common areas:**

- Enforce increased space between individuals in holding cells, as well as in lines and waiting areas such as intake (e.g., remove every other chair in a waiting area)

o **Recreation:**

- Choose recreation spaces where individuals can spread out
- Stagger time in recreation spaces
- Restrict recreation space usage to a single housing unit per space (where feasible)

o **Meals:**

- Stagger meals
- Rearrange seating in the dining hall so that there is more space between individuals (e.g., remove every other chair and use only one side of the table)
- Provide meals inside housing units or cells

o **Group activities:**

- Limit the size of group activities
- Increase space between individuals during group activities
- Suspend group programs where participants are likely to be in closer contact than they are in their housing environment
- Consider alternatives to existing group activities, in outdoor areas or other areas where individuals can spread out

o **Housing:**

- If space allows, reassign bunks to provide more space between individuals, ideally 6 feet or more in all directions. (Ensure that bunks are cleaned thoroughly if assigned to a new occupant.)
- Arrange bunks so that individuals sleep head to foot to increase the distance between them
- Rearrange scheduled movements to minimize mixing of individuals from different housing areas

o **Medical:**

- If possible, designate a room near each housing unit to evaluate individuals with COVID-19 symptoms, rather than having them walk through the facility to be evaluated in the medical unit. If this is not feasible, consider staggering sick call.
- Designate a room near the intake area to evaluate new entrants who are flagged by the intake screening process for COVID-19 symptoms or case contact, before they move to other parts of the facility.

- ✓ **Communicate clearly and frequently with incarcerated/detained persons about changes to their daily routine and how they can contribute to risk reduction.**
- ✓ **Note that if group activities are discontinued, it will be important to identify alternative forms of activity to support the mental health of incarcerated/detained persons.**
- ✓ **Consider suspending work release programs and other programs that involve movement of incarcerated/detained individuals in and out of the facility.**
- ✓ **Provide up-to-date information about COVID-19 to incarcerated/detained persons on a regular basis, including:**
 - Symptoms of COVID-19 and its health risks
 - Reminders to report COVID-19 symptoms to staff at the first sign of illness
- ✓ **Consider having healthcare staff perform rounds on a regular basis to answer questions about COVID-19.**

Prevention Practices for Staff

- ✓ **Remind staff to stay at home if they are sick.** Ensure that staff are aware that they will not be able to enter the facility if they have symptoms of COVID-19, and that they will be expected to leave the facility as soon as possible if they develop symptoms while on duty.
- ✓ **Perform verbal screening (for COVID-19 symptoms and close contact with cases) and temperature checks for all staff daily on entry.** See Screening section below for wording of screening questions and a recommended procedure to safely perform temperature checks.
 - In very small facilities with only a few staff, consider self-monitoring or virtual monitoring (e.g., reporting to a central authority via phone).
 - Send staff home who do not clear the screening process, and advise them to follow CDC-recommended steps for persons who are ill with COVID-19 symptoms.
- ✓ **Provide staff with up-to-date information about COVID-19 and about facility policies on a regular basis, including:**
 - Symptoms of COVID-19 and its health risks
 - Employers' sick leave policy
 - **If staff develop a fever, cough, or shortness of breath while at work:** immediately put on a face mask, inform supervisor, leave the facility, and follow CDC-recommended steps for persons who are ill with COVID-19 symptoms.
 - **If staff test positive for COVID-19:** inform workplace and personal contacts immediately, and do not return to work until a decision to discontinue home medical isolation precautions is made. Monitor CDC guidance on discontinuing home isolation regularly as circumstances evolve rapidly.
 - **If a staff member is identified as a close contact of a COVID-19 case (either within the facility or in the community):** self-quarantine at home for 14 days and return to work if symptoms do not develop. If symptoms do develop, follow CDC-recommended steps for persons who are ill with COVID-19 symptoms.
- ✓ **If a staff member has a confirmed COVID-19 infection, the relevant employers should inform other staff about their possible exposure to COVID-19 in the workplace, but should maintain confidentiality as required by the Americans with Disabilities Act.**
 - Employees who are close contacts of the case should then self-monitor for symptoms (i.e., fever, cough, or shortness of breath).

- ✓ **When feasible and consistent with security priorities, encourage staff to maintain a distance of 6 feet or more from an individual with respiratory symptoms while interviewing, escorting, or interacting in other ways.**
- ✓ **Ask staff to keep interactions with individuals with respiratory symptoms as brief as possible.**

Prevention Practices for Visitors

- ✓ **If possible, communicate with potential visitors to discourage contact visits in the interest of their own health and the health of their family members and friends inside the facility.**
- ✓ **Perform verbal screening (for COVID-19 symptoms and close contact with cases) and temperature checks for all visitors and volunteers on entry.** See Screening section below for wording of screening questions and a recommended procedure to safely perform temperature checks.
 - Staff performing temperature checks should wear recommended PPE.
 - Exclude visitors and volunteers who do not clear the screening process or who decline screening.
- ✓ **Provide alcohol-based hand sanitizer with at least 60% alcohol in visitor entrances, exits, and waiting areas.**
- ✓ **Provide visitors and volunteers with information to prepare them for screening.**
 - Instruct visitors to postpone their visit if they have symptoms of respiratory illness.
 - If possible, inform potential visitors and volunteers before they travel to the facility that they should expect to be screened for COVID-19 (including a temperature check), and will be unable to enter the facility if they do not clear the screening process or if they decline screening.
 - Display signage outside visiting areas explaining the COVID-19 screening and temperature check process. Ensure that materials are understandable for non-English speakers and those with low literacy.
- ✓ **Promote non-contact visits:**
 - Encourage incarcerated/detained persons to limit contact visits in the interest of their own health and the health of their visitors.
 - Consider reducing or temporarily eliminating the cost of phone calls for incarcerated/detained persons.
 - Consider increasing incarcerated/detained persons' telephone privileges to promote mental health and reduce exposure from direct contact with community visitors.
- ✓ **Consider suspending or modifying visitation programs, if legally permissible. For example, provide access to virtual visitation options where available.**
 - If moving to virtual visitation, clean electronic surfaces regularly. (See Cleaning guidance below for instructions on cleaning electronic surfaces.)
 - Inform potential visitors of changes to, or suspension of, visitation programs.
 - Clearly communicate any visitation program changes to incarcerated/detained persons, along with the reasons for them (including protecting their health and their family and community members' health).
 - If suspending contact visits, provide alternate means (e.g., phone or video visitation) for incarcerated/detained individuals to engage with legal representatives, clergy, and other individuals with whom they have legal right to consult.

NOTE: Suspending visitation would be done in the interest of incarcerated/detained persons' physical health and the health of the general public. However, visitation is important to maintain mental health.

If visitation is suspended, facilities should explore alternative ways for incarcerated/detained persons to communicate with their families, friends, and other visitors in a way that is not financially burdensome for them. See above suggestions for promoting non-contact visits.

- ✓ **Restrict non-essential vendors, volunteers, and tours from entering the facility.**

Management

If there has been a suspected COVID-19 case inside the facility (among incarcerated/detained persons, staff, or visitors who have recently been inside), begin implementing Management strategies while test results are pending. Essential Management strategies include placing cases and individuals with symptoms under medical isolation, quarantining their close contacts, and facilitating necessary medical care, while observing relevant infection control and environmental disinfection protocols and wearing recommended PPE.

Operations

- ✓ **Implement alternate work arrangements deemed feasible in the Operational Preparedness section.**
- ✓ **Suspend all transfers of incarcerated/detained persons to and from other jurisdictions and facilities (including work release where relevant), unless necessary for medical evaluation, medical isolation/quarantine, care, extenuating security concerns, or to prevent overcrowding.**
 - If a transfer is absolutely necessary, perform verbal screening and a temperature check as outlined in the Screening section below, before the individual leaves the facility. If an individual does not clear the screening process, delay the transfer and follow the protocol for a suspected COVID-19 case—including putting a face mask on the individual, immediately placing them under medical isolation, and evaluating them for possible COVID-19 testing. If the transfer must still occur, ensure that the receiving facility has capacity to appropriately isolate the individual upon arrival. Ensure that staff transporting the individual wear recommended PPE (see Table 1) and that the transport vehicle is cleaned thoroughly after transport.
- ✓ **If possible, consider quarantining all new intakes for 14 days before they enter the facility's general population (SEPARATELY from other individuals who are quarantined due to contact with a COVID-19 case).** Subsequently in this document, this practice is referred to as **routine intake quarantine**.
- ✓ **When possible, arrange lawful alternatives to in-person court appearances.**
- ✓ **Incorporate screening for COVID-19 symptoms and a temperature check into release planning.**
 - Screen all releasing individuals for COVID-19 symptoms and perform a temperature check. (See Screening section below.)
 - If an individual does not clear the screening process, follow the protocol for a suspected COVID-19 case—including putting a face mask on the individual, immediately placing them under medical isolation, and evaluating them for possible COVID-19 testing.
 - If the individual is released before the recommended medical isolation period is complete, discuss release of the individual with state, local, tribal, and/or territorial health departments to ensure safe medical transport and continued shelter and medical care, as part of release planning. Make direct linkages to community resources to ensure proper medical isolation and access to medical care.
 - Before releasing an incarcerated/detained individual with COVID-19 symptoms to a community-based facility, such as a homeless shelter, contact the facility's staff to ensure adequate time for them to prepare to continue medical isolation, or contact local public health to explore alternate housing options.

- ✓ **Coordinate with state, local, tribal, and/or territorial health departments.**
 - When a COVID-19 case is suspected, work with public health to determine action. See Medical Isolation section below.
 - When a COVID-19 case is suspected or confirmed, work with public health to identify close contacts who should be placed under quarantine. See Quarantine section below.
 - Facilities with limited onsite medical isolation, quarantine, and/or healthcare services should coordinate closely with state, local, tribal, and/or territorial health departments when they encounter a confirmed or suspected case, in order to ensure effective medical isolation or quarantine, necessary medical evaluation and care, and medical transfer if needed. See Facilities with Limited Onsite Healthcare Services section.

Hygiene

- ✓ **Continue to ensure that hand hygiene supplies are well-stocked in all areas of the facility.** (See above.)
- ✓ **Continue to emphasize practicing good hand hygiene and cough etiquette.** (See above.)

Cleaning and Disinfecting Practices

- ✓ **Continue adhering to recommended cleaning and disinfection procedures for the facility at large.** (See above.)
- ✓ **Reference specific cleaning and disinfection procedures for areas where a COVID-19 case has spent time (below).**

Medical Isolation of Confirmed or Suspected COVID-19 Cases

NOTE: Some recommendations below apply primarily to facilities with onsite healthcare capacity. Facilities with Limited Onsite Healthcare Services, or without sufficient space to implement effective medical isolation, should coordinate with local public health officials to ensure that COVID-19 cases will be appropriately isolated, evaluated, tested (if indicated), and given care.

- ✓ **As soon as an individual develops symptoms of COVID-19, they should wear a face mask (if it does not restrict breathing) and should be immediately placed under medical isolation in a separate environment from other individuals.**
- ✓ **Keep the individual's movement outside the medical isolation space to an absolute minimum.**
 - Provide medical care to cases inside the medical isolation space. See Infection Control and Clinical Care sections for additional details.
 - Serve meals to cases inside the medical isolation space.
 - Exclude the individual from all group activities.
 - Assign the isolated individual a dedicated bathroom when possible.
- ✓ **Ensure that the individual is wearing a face mask at all times when outside of the medical isolation space, and whenever another individual enters.** Provide clean masks as needed. Masks should be changed at least daily, and when visibly soiled or wet.
- ✓ **Facilities should make every possible effort to place suspected and confirmed COVID-19 cases under medical isolation individually. Each isolated individual should be assigned their own housing space and bathroom where possible.** Cohorting should only be practiced if there are no other available options.

○ If cohorting is necessary:

- **Only individuals who are laboratory confirmed COVID-19 cases should be placed under medical isolation as a cohort. Do not cohort confirmed cases with suspected cases or case contacts.**
- Unless no other options exist, do not house COVID-19 cases with individuals who have an undiagnosed respiratory infection.
- Ensure that cohorted cases wear face masks at all times.

✓ **In order of preference, individuals under medical isolation should be housed:**

- Separately, in single cells with solid walls (i.e., not bars) and solid doors that close fully
- Separately, in single cells with solid walls but without solid doors
- As a cohort, in a large, well-ventilated cell with solid walls and a solid door that closes fully. Employ social distancing strategies related to housing in the Prevention section above.
- As a cohort, in a large, well-ventilated cell with solid walls but without a solid door. Employ social distancing strategies related to housing in the Prevention section above.
- As a cohort, in single cells without solid walls or solid doors (i.e., cells enclosed entirely with bars), preferably with an empty cell between occupied cells. (Although individuals are in single cells in this scenario, the airflow between cells essentially makes it a cohort arrangement in the context of COVID-19.)
- As a cohort, in multi-person cells without solid walls or solid doors (i.e., cells enclosed entirely with bars), preferably with an empty cell between occupied cells. Employ social distancing strategies related to housing in the Prevention section above.
- Safely transfer individual(s) to another facility with available medical isolation capacity in one of the above arrangements
(NOTE—Transfer should be avoided due to the potential to introduce infection to another facility; proceed only if no other options are available.)

If the ideal choice does not exist in a facility, use the next best alternative.

✓ **If the number of confirmed cases exceeds the number of individual medical isolation spaces available in the facility, be especially mindful of cases who are at higher risk of severe illness from COVID-19.** Ideally, they should not be cohorted with other infected individuals. If cohorting is unavoidable, make all possible accommodations to prevent transmission of other infectious diseases to the higher-risk individual. (For example, allocate more space for a higher-risk individual within a shared medical isolation space.)

- Persons at higher risk may include older adults and persons of any age with serious underlying medical conditions such as lung disease, heart disease, and diabetes. See CDC's website for a complete list, and check regularly for updates as more data become available to inform this issue.
- Note that incarcerated/detained populations have higher prevalence of infectious and chronic diseases and are in poorer health than the general population, even at younger ages.

✓ **Custody staff should be designated to monitor these individuals exclusively where possible.** These staff should wear recommended PPE as appropriate for their level of contact with the individual under medical isolation (see PPE section below) and should limit their own movement between different parts of the facility to the extent possible.

✓ **Minimize transfer of COVID-19 cases between spaces within the healthcare unit.**

- ✓ **Provide individuals under medical isolation with tissues and, if permissible, a lined no-touch trash receptacle.** Instruct them to:
 - **Cover** their mouth and nose with a tissue when they cough or sneeze
 - **Dispose** of used tissues immediately in the lined trash receptacle
 - **Wash hands** immediately with soap and water for at least 20 seconds. If soap and water are not available, clean hands with an alcohol-based hand sanitizer that contains at least 60% alcohol (where security concerns permit). Ensure that hand washing supplies are continually restocked.
- ✓ **Maintain medical isolation until all the following criteria have been met. Monitor the CDC website for updates to these criteria.**

For individuals who will be tested to determine if they are still contagious:

 - The individual has been free from fever for at least 72 hours without the use of fever-reducing medications **AND**
 - The individual's other symptoms have improved (e.g., cough, shortness of breath) **AND**
 - The individual has tested negative in at least two consecutive respiratory specimens collected at least 24 hours apart

For individuals who will NOT be tested to determine if they are still contagious:

 - The individual has been free from fever for at least 72 hours without the use of fever-reducing medications **AND**
 - The individual's other symptoms have improved (e.g., cough, shortness of breath) **AND**
 - At least 7 days have passed since the first symptoms appeared

For individuals who had a confirmed positive COVID-19 test but never showed symptoms:

 - At least 7 days have passed since the date of the individual's first positive COVID-19 test **AND**
 - The individual has had no subsequent illness
- ✓ **Restrict cases from leaving the facility while under medical isolation precautions, unless released from custody or if a transfer is necessary for medical care, infection control, lack of medical isolation space, or extenuating security concerns.**
 - If an incarcerated/detained individual who is a COVID-19 case is released from custody during their medical isolation period, contact public health to arrange for safe transport and continuation of necessary medical care and medical isolation as part of release planning.

Cleaning Spaces where COVID-19 Cases Spent Time

Thoroughly clean and disinfect all areas where the confirmed or suspected COVID-19 case spent time. Note—these protocols apply to suspected cases as well as confirmed cases, to ensure adequate disinfection in the event that the suspected case does, in fact, have COVID-19. Refer to the Definitions section for the distinction between confirmed and suspected cases.

- Close off areas used by the infected individual. If possible, open outside doors and windows to increase air circulation in the area. Wait as long as practical, up to 24 hours under the poorest air exchange conditions (consult CDC Guidelines for Environmental Infection Control in Health-Care Facilities for wait time based on different ventilation conditions), before beginning to clean and disinfect, to minimize potential for exposure to respiratory droplets.
- Clean and disinfect all areas (e.g., cells, bathrooms, and common areas) used by the infected individual, focusing especially on frequently touched surfaces (see list above in Prevention section).

✓ **Hard (non-porous) surface cleaning and disinfection**

- If surfaces are dirty, they should be cleaned using a detergent or soap and water prior to disinfection.
- For disinfection, most common EPA-registered household disinfectants should be effective. Choose cleaning products based on security requirements within the facility.
 - Consult a list of products that are EPA-approved for use against the virus that causes COVID-19. Follow the manufacturer's instructions for all cleaning and disinfection products (e.g., concentration, application method and contact time, etc.).
 - Diluted household bleach solutions can be used if appropriate for the surface. Follow the manufacturer's instructions for application and proper ventilation, and check to ensure the product is not past its expiration date. Never mix household bleach with ammonia or any other cleanser. Unexpired household bleach will be effective against coronaviruses when properly diluted. Prepare a bleach solution by mixing:
 - 5 tablespoons (1/3rd cup) bleach per gallon of water or
 - 4 teaspoons bleach per quart of water

✓ **Soft (porous) surface cleaning and disinfection**

- For soft (porous) surfaces such as carpeted floors and rugs, remove visible contamination if present and clean with appropriate cleaners indicated for use on these surfaces. After cleaning:
 - If the items can be laundered, launder items in accordance with the manufacturer's instructions using the warmest appropriate water setting for the items and then dry items completely.
 - Otherwise, use products that are EPA-approved for use against the virus that causes COVID-19 and are suitable for porous surfaces.

✓ **Electronics cleaning and disinfection**

- For electronics such as tablets, touch screens, keyboards, and remote controls, remove visible contamination if present.
 - Follow the manufacturer's instructions for all cleaning and disinfection products.
 - Consider use of wipeable covers for electronics.
 - If no manufacturer guidance is available, consider the use of alcohol-based wipes or spray containing at least 70% alcohol to disinfect touch screens. Dry surfaces thoroughly to avoid pooling of liquids.

Additional information on cleaning and disinfection of communal facilities such can be found on CDC's website.

✓ **Ensure that staff and incarcerated/detained persons performing cleaning wear recommended PPE.** (See PPE section below.)

✓ **Food service items.** Cases under medical isolation should throw disposable food service items in the trash in their medical isolation room. Non-disposable food service items should be handled with gloves and washed with hot water or in a dishwasher. Individuals handling used food service items should clean their hands after removing gloves.

✓ **Laundry from a COVID-19 cases can be washed with other individuals' laundry.**

- Individuals handling laundry from COVID-19 cases should wear disposable gloves, discard after each use, and clean their hands after.
- Do not shake dirty laundry. This will minimize the possibility of dispersing virus through the air.
- Launder items as appropriate in accordance with the manufacturer's instructions. If possible, launder items using the warmest appropriate water setting for the items and dry items completely.

- Clean and disinfect clothes hampers according to guidance above for surfaces. If permissible, consider using a bag liner that is either disposable or can be laundered.
- ✓ **Consult** cleaning recommendations above **to ensure that transport vehicles are thoroughly cleaned after carrying a confirmed or suspected COVID-19 case.**

Quarantining Close Contacts of COVID-19 Cases

NOTE: Some recommendations below apply primarily to facilities with onsite healthcare capacity. Facilities without onsite healthcare capacity, or without sufficient space to implement effective quarantine, should coordinate with local public health officials to ensure that close contacts of COVID-19 cases will be effectively quarantined and medically monitored.

- ✓ **Incarcerated/detained persons who are close contacts of a confirmed or suspected COVID-19 case (whether the case is another incarcerated/detained person, staff member, or visitor) should be placed under quarantine for 14 days (see CDC guidelines).**
 - If an individual is quarantined due to contact with a suspected case who is subsequently tested for COVID-19 and receives a negative result, the quarantined individual should be released from quarantine restrictions.
- ✓ **In the context of COVID-19, an individual (incarcerated/detained person or staff) is considered a close contact if they:**
 - Have been within approximately 6 feet of a COVID-19 case for a prolonged period of time OR
 - Have had direct contact with infectious secretions of a COVID-19 case (e.g., have been coughed on)

Close contact can occur while caring for, living with, visiting, or sharing a common space with a COVID-19 case. Data to inform the definition of close contact are limited. Considerations when assessing close contact include the duration of exposure (e.g., longer exposure time likely increases exposure risk) and the clinical symptoms of the person with COVID-19 (e.g., coughing likely increases exposure risk, as does exposure to a severely ill patient).

- ✓ **Keep a quarantined individual's movement outside the quarantine space to an absolute minimum.**
 - Provide medical evaluation and care inside or near the quarantine space when possible.
 - Serve meals inside the quarantine space.
 - Exclude the quarantined individual from all group activities.
 - Assign the quarantined individual a dedicated bathroom when possible.
- ✓ **Facilities should make every possible effort to quarantine close contacts of COVID-19 cases individually.** Cohorting multiple quarantined close contacts of a COVID-19 case could transmit COVID-19 from those who are infected to those who are uninfected. Cohorting should only be practiced if there are no other available options.
 - If cohorting of close contacts under quarantine is absolutely necessary, symptoms of all individuals should be monitored closely, and individuals with symptoms of COVID-19 should be placed under medical isolation immediately.
 - If an entire housing unit is under quarantine due to contact with a case from the same housing unit, the entire housing unit may need to be treated as a cohort and quarantine in place.
 - Some facilities may choose to quarantine all new intakes for 14 days before moving them to the facility's general population as a general rule (not because they were exposed to a COVID-19 case). Under this scenario, avoid mixing individuals quarantined due to exposure to a COVID-19 case with individuals undergoing routine intake quarantine.

- If at all possible, do not add more individuals to an existing quarantine cohort after the 14-day quarantine clock has started.

✓ **If the number of quarantined individuals exceeds the number of individual quarantine spaces available in the facility, be especially mindful of those who are at higher risk of severe illness from COVID-19.** Ideally, they should not be cohorted with other quarantined individuals. If cohorting is unavoidable, make all possible accommodations to reduce exposure risk for the higher-risk individuals. (For example, intensify social distancing strategies for higher-risk individuals.)

✓ **In order of preference, multiple quarantined individuals should be housed:**

- Separately, in single cells with solid walls (i.e., not bars) and solid doors that close fully
- Separately, in single cells with solid walls but without solid doors
- As a cohort, in a large, well-ventilated cell with solid walls, a solid door that closes fully, and at least 6 feet of personal space assigned to each individual in all directions
- As a cohort, in a large, well-ventilated cell with solid walls and at least 6 feet of personal space assigned to each individual in all directions, but without a solid door
- As a cohort, in single cells without solid walls or solid doors (i.e., cells enclosed entirely with bars), preferably with an empty cell between occupied cells creating at least 6 feet of space between individuals. (Although individuals are in single cells in this scenario, the airflow between cells essentially makes it a cohort arrangement in the context of COVID-19.)
- As a cohort, in multi-person cells without solid walls or solid doors (i.e., cells enclosed entirely with bars), preferably with an empty cell between occupied cells. Employ social distancing strategies related to housing in the Prevention section to maintain at least 6 feet of space between individuals housed in the same cell.
- As a cohort, in individuals' regularly assigned housing unit but with no movement outside the unit (if an entire housing unit has been exposed). Employ social distancing strategies related to housing in the Prevention section above to maintain at least 6 feet of space between individuals.
- Safely transfer to another facility with capacity to quarantine in one of the above arrangements

(NOTE—Transfer should be avoided due to the potential to introduce infection to another facility; proceed only if no other options are available.)

✓ **Quarantined individuals should wear face masks if feasible based on local supply, as source control, under the following circumstances** (see PPE section and Table 1):

- If cohorted, quarantined individuals should wear face masks at all times (to prevent transmission from infected to uninfected individuals).
- If quarantined separately, individuals should wear face masks whenever a non-quarantined individual enters the quarantine space.
- All quarantined individuals should wear a face mask if they must leave the quarantine space for any reason.
- Asymptomatic individuals under routine intake quarantine (with no known exposure to a COVID-19 case) do not need to wear face masks.

✓ **Staff who have close contact with quarantined individuals should wear recommended PPE if feasible based on local supply, feasibility, and safety within the scope of their duties** (see PPE section and Table 1).

- Staff supervising asymptomatic incarcerated/detained persons under routine intake quarantine (with no known exposure to a COVID-19 case) do not need to wear PPE.

- ✓ **Quarantined individuals should be monitored for COVID-19 symptoms twice per day, including temperature checks.**
 - If an individual develops symptoms, they should be moved to medical isolation immediately and further evaluated. (See Medical Isolation section above.)
 - See Screening section for a procedure to perform temperature checks safely on asymptomatic close contacts of COVID-19 cases.
- ✓ **If an individual who is part of a quarantined cohort becomes symptomatic:**
 - **If the individual is tested for COVID-19 and tests positive:** the 14-day quarantine clock for the remainder of the cohort must be reset to 0.
 - **If the individual is tested for COVID-19 and tests negative:** the 14-day quarantine clock for this individual and the remainder of the cohort does not need to be reset. This individual can return from medical isolation to the quarantined cohort for the remainder of the quarantine period.
 - **If the individual is not tested for COVID-19:** the 14-day quarantine clock for the remainder of the cohort must be reset to 0.
- ✓ **Restrict quarantined individuals from leaving the facility (including transfers to other facilities) during the 14-day quarantine period, unless released from custody or a transfer is necessary for medical care, infection control, lack of quarantine space, or extenuating security concerns.**
- ✓ **Quarantined individuals can be released from quarantine restrictions if they have not developed symptoms during the 14-day quarantine period.**
- ✓ **Meals should be provided to quarantined individuals in their quarantine spaces.** Individuals under quarantine should throw disposable food service items in the trash. Non-disposable food service items should be handled with gloves and washed with hot water or in a dishwasher. Individuals handling used food service items should clean their hands after removing gloves.
- ✓ **Laundry from quarantined individuals can be washed with other individuals' laundry.**
 - Individuals handling laundry from quarantined persons should wear disposable gloves, discard after each use, and clean their hands after.
 - Do not shake dirty laundry. This will minimize the possibility of dispersing virus through the air.
 - Launder items as appropriate in accordance with the manufacturer's instructions. If possible, launder items using the warmest appropriate water setting for the items and dry items completely.
 - Clean and disinfect clothes hampers according to guidance above for surfaces. If permissible, consider using a bag liner that is either disposable or can be laundered.

Management of Incarcerated/Detained Persons with COVID-19 Symptoms

NOTE: Some recommendations below apply primarily to facilities with onsite healthcare capacity. Facilities without onsite healthcare capacity or without sufficient space for medical isolation should coordinate with local public health officials to ensure that suspected COVID-19 cases will be effectively isolated, evaluated, tested (if indicated), and given care.

- ✓ **If possible, designate a room near each housing unit for healthcare staff to evaluate individuals with COVID-19 symptoms, rather than having them walk through the facility to be evaluated in the medical unit.**
- ✓ **Incarcerated/detained individuals with COVID-19 symptoms should wear a face mask and should be placed under medical isolation immediately. Discontinue the use of a face mask if it inhibits breathing. See Medical Isolation section above.**

- ✓ **Medical staff should evaluate symptomatic individuals to determine whether COVID-19 testing is indicated.** Refer to CDC guidelines for information on evaluation and testing. See Infection Control and Clinical Care sections below as well.
- ✓ **If testing is indicated (or if medical staff need clarification on when testing is indicated), contact the state, local, tribal, and/or territorial health department. Work with public health or private labs as available to access testing supplies or services.**
 - If the COVID-19 test is positive, continue medical isolation. (See Medical Isolation section above.)
 - If the COVID-19 test is negative, return the individual to their prior housing assignment unless they require further medical assessment or care.

Management Strategies for Incarcerated/Detained Persons without COVID-19 Symptoms

- ✓ **Provide clear information to incarcerated/detained persons about the presence of COVID-19 cases within the facility, and the need to increase social distancing and maintain hygiene precautions.**
 - Consider having healthcare staff perform regular rounds to answer questions about COVID-19.
 - Ensure that information is provided in a manner that can be understood by non-English speaking individuals and those with low literacy, and make necessary accommodations for those with cognitive or intellectual disabilities and those who are deaf, blind, or low-vision.
- ✓ **Implement daily temperature checks in housing units where COVID-19 cases have been identified, especially if there is concern that incarcerated/detained individuals are not notifying staff of symptoms.** See Screening section for a procedure to safely perform a temperature check.
- ✓ **Consider additional options to intensify social distancing within the facility.**

Management Strategies for Staff

- ✓ **Provide clear information to staff about the presence of COVID-19 cases within the facility, and the need to enforce social distancing and encourage hygiene precautions.**
 - Consider having healthcare staff perform regular rounds to answer questions about COVID-19 from staff.
- ✓ **Staff identified as close contacts of a COVID-19 case should self-quarantine at home for 14 days and may return to work if symptoms do not develop.**
 - See above for definition of a close contact.
 - Refer to CDC guidelines for further recommendations regarding home quarantine for staff.

Infection Control

Infection control guidance below is applicable to all types of correctional facilities. Individual facilities should assess their unique needs based on the types of exposure staff and incarcerated/detained persons may have with confirmed or suspected COVID-19 cases.

- ✓ **All individuals who have the potential for direct or indirect exposure to COVID-19 cases or infectious materials (including body substances; contaminated medical supplies, devices, and equipment; contaminated environmental surfaces; or contaminated air) should follow infection control practices outlined in the CDC Interim Infection Prevention and Control Recommendations for Patients with Suspected or Confirmed Coronavirus Disease 2019 (COVID-19) in Healthcare Settings. Monitor these guidelines regularly for updates.**

- Implement the above guidance as fully as possible within the correctional/detention context. Some of the specific language may not apply directly to healthcare settings within correctional facilities and detention centers, or to facilities without onsite healthcare capacity, and may need to be adapted to reflect facility operations and custody needs.
- Note that these recommendations apply to staff as well as to incarcerated/detained individuals who may come in contact with contaminated materials during the course of their work placement in the facility (e.g., cleaning).
- ✓ **Staff should exercise caution when in contact with individuals showing symptoms of a respiratory infection.** Contact should be minimized to the extent possible until the infected individual is wearing a face mask. If COVID-19 is suspected, staff should wear recommended PPE (see PPE section).
- ✓ **Refer to PPE section to determine recommended PPE for individuals persons in contact with confirmed COVID-19 cases, contacts, and potentially contaminated items.**

Clinical Care of COVID-19 Cases

- ✓ **Facilities should ensure that incarcerated/detained individuals receive medical evaluation and treatment at the first signs of COVID-19 symptoms.**
 - If a facility is not able to provide such evaluation and treatment, a plan should be in place to safely transfer the individual to another facility or local hospital.
 - The initial medical evaluation should determine whether a symptomatic individual is at higher risk for severe illness from COVID-19. Persons at higher risk may include older adults and persons of any age with serious underlying medical conditions such as lung disease, heart disease, and diabetes. See CDC's website for a complete list, and check regularly for updates as more data become available to inform this issue.
- ✓ **Staff evaluating and providing care for confirmed or suspected COVID-19 cases should follow the CDC Interim Clinical Guidance for Management of Patients with Confirmed Coronavirus Disease (COVID-19) and monitor the guidance website regularly for updates to these recommendations.**
- ✓ **Healthcare staff should evaluate persons with respiratory symptoms or contact with a COVID-19 case in a separate room, with the door closed if possible, while wearing recommended PPE and ensuring that the suspected case is wearing a face mask.**
 - If possible, designate a room near each housing unit to evaluate individuals with COVID-19 symptoms, rather than having them walk through the facility to be evaluated in the medical unit.
- ✓ **Clinicians are strongly encouraged to test for other causes of respiratory illness (e.g., influenza).**
- ✓ **The facility should have a plan in place to safely transfer persons with severe illness from COVID-19 to a local hospital if they require care beyond what the facility is able to provide.**
- ✓ **When evaluating and treating persons with symptoms of COVID-19 who do not speak English, using a language line or provide a trained interpreter when possible.**

Recommended PPE and PPE Training for Staff and Incarcerated/Detained Persons

- ✓ **Ensure that all staff (healthcare and non-healthcare) and incarcerated/detained persons who will have contact with infectious materials in their work placements have been trained to correctly don, doff, and dispose of PPE relevant to the level of contact they will have with confirmed and suspected COVID-19 cases.**

- Ensure that staff and incarcerated/detained persons who require respiratory protection (e.g., N95s) for their work responsibilities have been medically cleared, trained, and fit-tested in the context of an employer's respiratory protection program.
- For PPE training materials and posters, please visit the [CDC website on Protecting Healthcare Personnel](#).

- ✓ **Ensure that all staff are trained to perform hand hygiene after removing PPE.**
- ✓ **If administrators anticipate that incarcerated/detained persons will request unnecessary PPE, consider providing training on the different types of PPE that are needed for differing degrees of contact with COVID-19 cases and contacts, and the reasons for those differences (see Table 1). Monitor linked CDC guidelines in Table 1 for updates to recommended PPE.**
- ✓ **Keep recommended PPE near the spaces in the facility where it could be needed, to facilitate quick access in an emergency.**
- ✓ **Recommended PPE for incarcerated/detained individuals and staff in a correctional facility will vary based on the type of contact they have with COVID-19 cases and their contacts (see Table 1). Each type of recommended PPE is defined below. As above, note that PPE shortages are anticipated in every category during the COVID-19 response.**

- **N95 respirator**

See below for guidance on when face masks are acceptable alternatives for N95s. N95 respirators should be prioritized when staff anticipate contact with infectious aerosols from a COVID-19 case.

- **Face mask**
- **Eye protection**—goggles or disposable face shield that fully covers the front and sides of the face
- **A single pair of disposable patient examination gloves**

Gloves should be changed if they become torn or heavily contaminated.

- **Disposable medical isolation gown or single-use/disposable coveralls, when feasible**

- * If custody staff are unable to wear a disposable gown or coveralls because it limits access to their duty belt and gear, ensure that duty belt and gear are disinfected after close contact with the individual. Clean and disinfect duty belt and gear prior to reuse using a household cleaning spray or wipe, according to the product label.
- * If there are shortages of gowns, they should be prioritized for aerosol-generating procedures, care activities where splashes and sprays are anticipated, and high-contact patient care activities that provide opportunities for transfer of pathogens to the hands and clothing of staff.

- ✓ **Note that shortages of all PPE categories are anticipated during the COVID-19 response, particularly for non-healthcare workers. Guidance for optimizing the supply of each category can be found on CDC's website:**

- **Guidance in the event of a shortage of N95 respirators**

- * Based on local and regional situational analysis of PPE supplies, **face masks are an acceptable alternative when the supply chain of respirators cannot meet the demand.** During this time, available respirators should be prioritized for staff engaging in activities that would expose them to respiratory aerosols, which pose the highest exposure risk.

- **Guidance in the event of a shortage of face masks**

- **Guidance in the event of a shortage of eye protection**

- **Guidance in the event of a shortage of gowns/coveralls**

Table 1. Recommended Personal Protective Equipment (PPE) for Incarcerated/Detained Persons and Staff in a Correctional Facility during the COVID-19 Response

Classification of Individual Wearing PPE	N95 respirator	Face mask	Eye Protection	Gloves	Gown/Coveralls
Incarcerated/Detained Persons					
Asymptomatic incarcerated/detained persons (under quarantine as close contacts of a COVID-19 case*)	Apply face masks for source control as feasible based on local supply, especially if housed as a cohort				
Incarcerated/detained persons who are confirmed or suspected COVID-19 cases, or showing symptoms of COVID-19	-	✓	-	-	-
Incarcerated/detained persons in a work placement handling laundry or used food service items from a COVID-19 case or case contact	-	-	-	✓	✓
Incarcerated/detained persons in a work placement cleaning areas where a COVID-19 case has spent time	Additional PPE may be needed based on the product label. See CDC guidelines for more details.			✓	✓
Staff					
Staff having direct contact with asymptomatic incarcerated/detained persons under quarantine as close contacts of a COVID-19 case* (but not performing temperature checks or providing medical care)	-	Face mask, eye protection, and gloves as local supply and scope of duties allow.			-
Staff performing temperature checks on any group of people (staff, visitors, or incarcerated/detained persons), or providing medical care to asymptomatic quarantined persons	-	✓	✓	✓	✓
Staff having direct contact with (including transport) or offering medical care to confirmed or suspected COVID-19 cases (see CDC infection control guidelines)	✓**		✓	✓	✓
Staff present during a procedure on a confirmed or suspected COVID-19 case that may generate respiratory aerosols (see CDC infection control guidelines)	✓	-	✓	✓	✓
Staff handling laundry or used food service items from a COVID-19 case or case contact	-	-	-	✓	✓
Staff cleaning an area where a COVID-19 case has spent time	Additional PPE may be needed based on the product label. See CDC guidelines for more details.			✓	✓

* If a facility chooses to routinely quarantine all new intakes (without symptoms or known exposure to a COVID-19 case) before integrating into the facility's general population, face masks are not necessary.

** A NIOSH-approved N95 is preferred. However, based on local and regional situational analysis of PPE supplies, face masks are an acceptable alternative when the supply chain of respirators cannot meet the demand. During this time, available respirators should be prioritized for procedures that are likely to generate respiratory aerosols, which would pose the highest exposure risk to staff.

Verbal Screening and Temperature Check Protocols for Incarcerated/Detained Persons, Staff, and Visitors

The guidance above recommends verbal screening and temperature checks for incarcerated/detained persons, staff, volunteers, and visitors who enter correctional and detention facilities, as well as incarcerated/detained persons who are transferred to another facility or released from custody. Below, verbal screening questions for COVID-19 symptoms and contact with known cases, and a safe temperature check procedure are detailed.

✓ **Verbal screening for symptoms of COVID-19 and contact with COVID-19 cases should include the following questions:**

- *Today or in the past 24 hours, have you had any of the following symptoms?*
 - *Fever, felt feverish, or had chills?*
 - *Cough?*
 - *Difficulty breathing?*
- *In the past 14 days, have you had contact with a person known to be infected with the novel coronavirus (COVID-19)?*

✓ **The following is a protocol to safely check an individual's temperature:**

- Perform hand hygiene
- Put on a face mask, eye protection (goggles or disposable face shield that fully covers the front and sides of the face), gown/coveralls, and a single pair of disposable gloves
- Check individual's temperature
- **If performing a temperature check on multiple individuals, ensure that a clean pair of gloves is used for each individual and that the thermometer has been thoroughly cleaned in between each check.** If disposable or non-contact thermometers are used and the screener did not have physical contact with an individual, gloves do not need to be changed before the next check. If non-contact thermometers are used, they should be cleaned routinely as recommended by CDC for infection control.
- Remove and discard PPE
- Perform hand hygiene

March 26, 2020

MEMORANDUM FOR DIRECTOR OF BUREAU PRISONS

FROM: THE ATTORNEY GENERAL

SUBJECT: Prioritization of Home Confinement As Appropriate in Response to COVID-19 Pandemic

Thank you for your tremendous service to our nation during the present crisis. The current situation is challenging for us all, but I have great confidence in the ability of the Bureau of Prisons (BOP) to perform its critical mission during these difficult times. We have some of the best-run prisons in the world and I am confident in our ability to keep inmates in our prisons as safe as possible from the pandemic currently sweeping across the globe. At the same time, there are some at-risk inmates who are non-violent and pose minimal likelihood of recidivism and who might be safer serving their sentences in home confinement rather than in BOP facilities. I am issuing this Memorandum to ensure that we utilize home confinement, where appropriate, to protect the health and safety of BOP personnel and the people in our custody.

I. TRANSFER OF INMATES TO HOME CONFINEMENT WHERE APPROPRIATE TO DECREASE THE RISKS TO THEIR HEALTH

One of BOP's tools to manage the prison population and keep inmates safe is the ability to grant certain eligible prisoners home confinement in certain circumstances. I am hereby directing you to prioritize the use of your various statutory authorities to grant home confinement for inmates seeking transfer in connection with the ongoing COVID-19 pandemic. Many inmates will be safer in BOP facilities where the population is controlled and there is ready access to doctors and medical care. But for some eligible inmates, home confinement might be more effective in protecting their health.

In assessing which inmates should be granted home confinement pursuant to this Memorandum, you are to consider the totality of circumstances for each individual inmate, the statutory requirements for home confinement, and the following non-exhaustive list of discretionary factors:

- The age and vulnerability of the inmate to COVID-19, in accordance with the Centers for Disease Control and Prevention (CDC) guidelines;

Memorandum from the Attorney General

Page 2

Subject: Prioritization of Home Confinement As Appropriate in Response to COVID-19
Pandemic

- The security level of the facility currently holding the inmate, with priority given to inmates residing in low and minimum security facilities;
- The inmate's conduct in prison, with inmates who have engaged in violent or gang-related activity in prison or who have incurred a BOP violation within the last year not receiving priority treatment under this Memorandum;
- The inmate's score under PATTERN, with inmates who have anything above a minimum score not receiving priority treatment under this Memorandum;
- Whether the inmate has a demonstrated and verifiable re-entry plan that will prevent recidivism and maximize public safety, including verification that the conditions under which the inmate would be confined upon release would present a lower risk of contracting COVID-19 than the inmate would face in his or her BOP facility;
- The inmate's crime of conviction, and assessment of the danger posed by the inmate to the community. Some offenses, such as sex offenses, will render an inmate ineligible for home detention. Other serious offenses should weigh more heavily against consideration for home detention.

In addition to considering these factors, before granting any inmate discretionary release, the BOP Medical Director, or someone he designates, will, based on CDC guidance, make an assessment of the inmate's risk factors for severe COVID-19 illness, risks of COVID-19 at the inmate's prison facility, as well as the risks of COVID-19 at the location in which the inmate seeks home confinement. We should not grant home confinement to inmates when doing so is likely to increase their risk of contracting COVID-19. You should grant home confinement only when BOP has determined—based on the totality of the circumstances for each individual inmate—that transfer to home confinement is likely not to increase the inmate's risk of contracting COVID-19.

II. PROTECTING THE PUBLIC

While we have an obligation to protect BOP personnel and the people in BOP custody, we also have an obligation to protect the public. That means we cannot take any risk of transferring inmates to home confinement that will contribute to the spread of COVID-19, or put the public at risk in other ways. I am therefore directing you to place any inmate to whom you grant home confinement in a mandatory 14-day quarantine period before that inmate is discharged from a BOP facility to home confinement. Inmates transferred to home confinement under this prioritized process should also be subject to location monitoring services and, where a court order is entered, be subject to supervised release.

We must do the best we can to minimize the risk of COVID-19 to those in our custody, while also minimizing the risk to the public. I thank you for your service to the country and assistance in implementing this Memorandum.

April 3, 2020

MEMORANDUM FOR DIRECTOR OF BUREAU OF PRISONS

FROM: THE ATTORNEY GENERAL *W. Barr*
SUBJECT: Increasing Use of Home Confinement at Institutions Most Affected by COVID-19

The mission of BOP is to administer the lawful punishments that our justice system imposes. Executing that mission imposes on us a profound obligation to protect the health and safety of all inmates.

Last week, I directed the Bureau of Prisons to prioritize the use of home confinement as a tool for combatting the dangers that COVID-19 poses to our vulnerable inmates, while ensuring we successfully discharge our duty to protect the public. I applaud the substantial steps you have already taken on that front with respect to the vulnerable inmates who qualified for home confinement under the pre-CARES Act standards.

As you know, we are experiencing significant levels of infection at several of our facilities, including FCI Oakdale, FCI Danbury, and FCI Elkton. We have to move with dispatch in using home confinement, where appropriate, to move vulnerable inmates out of these institutions. I would like you to give priority to these institutions, and others similarly affected, as you continue to process the remaining inmates who are eligible for home confinement under pre-CARES Act standards. In addition, the CARES Act now authorizes me to expand the cohort of inmates who can be considered for home release upon my finding that emergency conditions are materially affecting the functioning of the Bureau of Prisons. I hereby make that finding and direct that, as detailed below, you give priority in implementing these new standards to the most vulnerable inmates at the most affected facilities, consistent with the guidance below.

- I. IMMEDIATELY MAXIMIZE APPROPRIATE TRANSFERS TO HOME CONFINEMENT OF ALL APPROPRIATE INMATES HELD AT FCI OAKDALE, FCI DANBURY, FCI ELKTON, AND AT OTHER SIMILARLY SITUATED BOP FACILITIES WHERE COVID-19 IS MATERIALLY AFFECTING OPERATIONS

Memorandum from the Attorney General

Page 2

Subject: Increasing Use of Home Confinement at Institutions Most Affected by COVID-19

While BOP has taken extensive precautions to prevent COVID-19 from entering its facilities and infecting our inmates, those precautions, like any precautions, have not been perfectly successful at all institutions. I am therefore directing you to immediately review all inmates who have COVID-19 risk factors, as established by the CDC, starting with the inmates incarcerated at FCI Oakdale, FCI Danbury, FCI Elkton, and similarly situated facilities where you determine that COVID-19 is materially affecting operations. You should begin implementing this directive immediately at the facilities I have specifically identified and any other facilities facing similarly serious problems. And now that I have exercised my authority under the CARES Act, your review should include all at-risk inmates—not only those who were previously eligible for transfer.

For all inmates whom you deem suitable candidates for home confinement, you are directed to immediately process them for transfer and then immediately transfer them following a 14-day quarantine at an appropriate BOP facility, or, in appropriate cases subject to your case-by-case discretion, in the residence to which the inmate is being transferred. It is vital that we not inadvertently contribute to the spread of COVID-19 by transferring inmates from our facilities. Your assessment of these inmates should thus be guided by the factors in my March 26 Memorandum, understanding, though, that inmates with a suitable confinement plan will generally be appropriate candidates for home confinement rather than continued detention at institutions in which COVID-19 is materially affecting their operations.

I also recognize that BOP has limited resources to monitor inmates on home confinement and that the U.S. Probation Office is unable to monitor large numbers of inmates in the community. I therefore authorize BOP to transfer inmates to home confinement even if electronic monitoring is not available, so long as BOP determines in every such instance that doing so is appropriate and consistent with our obligation to protect public safety.

Given the speed with which this disease has spread through the general public, it is clear that time is of the essence. Please implement this Memorandum as quickly as possible and keep me closely apprised of your progress.

II. PROTECTING THE PUBLIC

While we have a solemn obligation to protect the people in BOP custody, we also have an obligation to protect the public. That means we cannot simply release prison populations en masse onto the streets. Doing so would pose profound risks to the public from released prisoners engaging in additional criminal activity, potentially including violence or heinous sex offenses.

That risk is particularly acute as we combat the current pandemic. Police forces are facing the same daunting challenges in protecting the public that we face in protecting our inmates. It is impossible to engage in social distancing, hand washing, and other recommended steps in the middle of arresting a violent criminal. It is thus no surprise that many of our police officers have fallen ill with COVID-19, with some even dying in the line of duty from the disease. This pandemic has dramatically increased the already substantial risks facing the men and women who keep us safe, at the same time that it has winnowed their ranks while officers recover from getting sick, or self-quarantine to avoid possibly spreading the disease.

Memorandum from the Attorney General

Page 3

Subject: Increasing Use of Home Confinement at Institutions Most Affected by COVID-19

The last thing our massively over-burdened police forces need right now is the indiscriminate release of thousands of prisoners onto the streets without any verification that those prisoners will follow the laws when they are released, that they have a safe place to go where they will not be mingling with their old criminal associates, and that they will not return to their old ways as soon as they walk through the prison gates. Thus, while I am directing you to maximize the use of home confinement at affected institutions, it is essential that you continue making the careful, individualized determinations BOP makes in the typical case. Each inmate is unique and each requires the same individualized determinations we have always made in this context.

I believe strongly that we should do everything we can to protect the inmates in our care, but that we must do so in a careful and individualized way that remains faithful to our duty to protect the public and the law enforcement officers who protect us all.

MCC-PET_0000643

EXHIBIT 23

U.S. DEPARTMENT OF JUSTICE
Federal Bureau of Prisons
Metropolitan Correctional Center

*150 Park Row
New York, New York 10007*

May 26, 2020

The Honorable Roslynn R. Mauskopf
Chief Judge
United States District Judge
Eastern District of New York
225 Cadman Plaza East
Brooklyn, NY 11201

Re: **Administrative Order No. 2020-14**

Dear Judge Mauskopf:

The Court has ORDERED that the MDC and MCC respond to concerns about the institutions' response to the COVID-19 pandemic. Specifically, the Court asked about protocols for screening and testing inmates, staff and others entering or leaving each facility; the number of inmates tested and the number of positive tests; the number of staff and/or others testing positive; and all efforts undertaken to mitigate the spread of COVID-19 both generally and in response to any symptomatic inmate(s) and/or positive test(s).

Staff have been tasked with screening each and every staff member who walks in the door at both facilities. Specifically, a temperature is taken and the staff member is asked to fill out a screening form. If the staff member has a fever or answers yes to any of the questions, a medical professional can deny entry to the institution.

Medical staff are also screening new inmate arrivals to the institution in the same manner. Specifically, staff who are conducting the screening are to wear appropriate personal protective equipment (PPE) in accordance with guidance promulgated by the Centers for Disease Control (CDC). Inmates with a temperature greater than, or equal to, 100.4 degrees, or with overt respiratory symptoms, are placed in isolation. New arrivals with a temperature of less than 100.4 degrees are placed in quarantine for fourteen days as a precautionary measure. Inmates leaving either BOP facility are also screened.

Any inmate currently in BOP custody who presents with COVID-19 like symptoms is assessed by institution health services staff. An inmate exhibiting symptoms consistent with COVID-19 will be placed in isolation. The remainder of the inmates on his or her unit will be quarantined to ensure additional inmates do not develop symptoms. The inmates' medical isolation will be evaluated by medical staff at least twice a day, and the inmates on a medically quarantined unit will have their temperature checked twice a day.

The Honorable Roslynn R. Mauskopf

May 26, 2020

Page 2

On April 1, 2020, the BOP enacted a national 14-day action plan to increase social distancing in the facilities. Specifically, inmates in every institution are to be secured in their assigned cells. On April 13, 2020, the BOP ordered an extension of the April 1, 2020 action plan through May 18, 2020. On May 18, 2020, the BOP ordered a further extension of the April 13, 2020 action plan through June 30, 2020. At MDC and MCC, inmates will continue to be released from their cells several days per week in order to shower, use the phones, and utilize the TRULINCS system. This will continue to be done in small groups and social distancing has been encouraged. The national action plan will not, however, affect the provision of legal phone calls. Inmates will still be taken out of their cells for legal phone calls.

Inmate orderlies continue to clean the common areas of all housing units, and inmates have been instructed to continue to wipe down and sanitize their living quarters.

MCC and MDC unit team staff and officers are available to the inmate population to address any and all issues, including medical concerns, property concerns, and/or food related issues. Unit team staff are providing legal calls to attorneys. Additionally, any inmate can also request medical care from health services providers when they make rounds on the housing units.

Please be advised that the following numbers constitute a running tally, which began on March 13, 2020.

With regard to the numbers as of May 26, 2020 for MDC:

Inmates tested: 17

Inmates positive: 6

Staff Positive: 39

With regard to the numbers as of May 26, 2020 for MCC:

Inmates tested: 15

Inmates positive: 5

Staff Positive: 46

Respectfully submitted,

/s/

M. Licon-Vitale

FROM: Jeffery D. Allen, M.D., Medical Director
Health Services Division

SUBJECT: Guidance Update for Coronavirus Disease 2019
(COVID-19)

This memorandum serves to update the Bureau of Prisons' guidance related to Coronavirus Disease 2019 (COVID-19), previously referred to as the 2019 Novel Coronavirus Infection (2019-nCoV) and described in memos dated January 31, 2020. This change in nomenclature aligns with the new World Health Organization and Centers for Disease Control and Prevention (CDC) terminology. Of note, the virus that causes COVID-19 is now referred to as SARS-CoV-2.

COVID-19 now demonstrates person-to-person spread and is occurring in a growing number of locations outside of China, including the U.S. The vast majority of U.S. cases to date have been travel-related, with only three cases of person-to-person transmission known to have occurred within the U.S. However, the situation is evolving rapidly; several additional cases of suspected community transmission have been reported in the last 24 hours. Although the risk of transmission in the U.S. is still considered low, current global circumstances suggest that the virus is likely to cause a pandemic. In response, BOP institutions need to continue screening for COVID-19 risk factors and symptoms and be prepared for a possible pandemic and managing a case of COVID-19 in either staff or inmates.

In addition to the guidance provided in the previous memos, the BOP recommends the following.

1. Perform COVID-19 screening of all new inmate admissions to the BOP early during the intake screening process.

- a. The inmate screening tool has been modified to incorporate new guidance from the CDC to assist in efficiently accomplishing this task. If used, institutions should replace prior versions of the screening tool with this current version (attached).
 - b. Separate out and place a regular surgical mask on any inmate arriving to an institution with symptoms of acute respiratory illness. Having a supply of these masks and other personal protective equipment (PPE) readily available in the screening area is recommended.
 - c. Have a means available in R&D for inmates to accomplish hand hygiene / washing upon arrival.
2. Educate staff about COVID-19 and screen staff with potential risk factors in accordance with the revised staff screening tool (attached).
3. Assure fit-testing for use of the N-95 respirator mask is being conducted at institutions. A current list of fit-tested personnel should be established and maintained in Ops Planner.
4. Disseminate education and provide demonstrations on appropriate procedures for donning and doffing of PPE.
5. Establish communication with local public health authorities for reporting and management procedures, to include a determination of where to send, suspected COVID-19 cases, Persons Under Investigation (PUIs) or quarantined inmates who develop signs or symptoms of illness.
6. Utilize the Pandemic Influenza Plan to initiate preparations for a potential COVID-19 pandemic.
 - a. Meet with executive staff leadership to determine where persons with COVID-19 risk factors would be quarantined in the facility, if needed.
 - b. Establish baseline PPE supplies for gloves, surgical masks, N-95 respirator masks, face shields and gowns. Each institution should develop a current list of PPE supplies and maintain an accurate inventory in Ops Planner. Institutions should also move to purchase additional supplies, as necessary.
 - c. Post a visitor notice alerting people with illness (fever, sore throat, cough, shortness of breath) not to visit. English and Spanish versions are attached.
 - d. Initiate means for inmates to wash hands after arriving to R&D, prior to fingerprinting or other procedures.

The following items have been updated or added to align with CDC guidance or definitions and to assist institutions to prepare for potential COVID-19 suspects or illness. Please note the

first two items are available on the Health Services Division Infectious Disease Sallyport page.

- 2019 Novel Coronavirus (COVID-19) Inmate Screening Tool
- 2019 Novel Coronavirus (COVID-19) Staff Screening Tool
- CDC COVID-19 education flyers (3)
- Visitor notifications signs (2)
- OSHA Respiratory Protection Program Toolkit, available at <https://www.osha.gov/Publications/OSHA3767.pdf>

Notify appropriate Regional and Central Office QIIPC Consultants, Supervisory Occupational Medicine Physician or Chief, Occupational Safety and Health Branch, as indicated on the screening tools, of any inmates or staff identified with exposure risk factors, with or without symptoms. They are also a good point of contact for questions you may have regarding this issue.

Please share this memorandum and associated attachments with Executive Staff at your location. These resources and screening tools will be posted and available on the HSD Sallyport web page.

**UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF NEW YORK**

CESAR FERNANDEZ-RODRIGUEZ, ROBER
GALVEZ-CHIMBO, SHARON HATCHER,
JONATHAN MEDINA, and JAMES WOODSON,
individually and on behalf of all others similarly situated,

Petitioners,

v.

MARTI LICON-VITALE, in her official capacity as
Warden of the Metropolitan Correctional Center,

Respondent.

20 Civ. 3315 (ER)

**RESPONDENT'S RESPONSES AND OBJECTIONS TO PETITIONERS'
FIRST SET OF INTERROGATORIES**

Pursuant to Rules 26 and 33 of the Federal Rules of Civil Procedure, Procedure, as well as Local Civil Rule 33.3, Respondent Marti Licon-Vitale ("Respondent"), in her official capacity as Warden of the Metropolitan Correctional Center ("MCC"), by her attorney, Geoffrey S. Berman, United States Attorney for the Southern District of New York, responds to Petitioners' First Set of Interrogatories (the "Requests") as follows:

GENERAL OBJECTIONS AND RESERVATIONS

1. Respondent objects to the Requests to the extent they purport to require the disclosure of information beyond the scope permitted by the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the Southern District of New York, or other applicable law.

2. Respondent objects to the Requests to the extent they seek information protected from discovery under the attorney-client privilege, the self-evaluative or self-critical analysis privilege, the work-product doctrine, the deliberative process privilege, or the law enforcement privilege, or that is otherwise privileged or protected from disclosure by any applicable statute, regulation, rule, or doctrine.

3. Respondent objects to the Requests to the extent they purport to require the disclosure of information protected by the Privacy Act of 1974, 5 U.S.C. § 552a (the “Privacy Act”) or the Health Insurance Portability and Accountability Act, 42 U.S.C. § 1320d *et seq.* (“HIPAA”).

4. Respondent objects to the Requests to the extent they call for the disclosure of information not relevant to a claim or defense in this litigation and/or not proportional to the needs of the case and/or would be unduly burdensome or oppressive to answer.

5. Respondent objects to the Requests to the extent they seek the disclosure of information that is publicly available to, previously provided to, otherwise within the possession, custody or control of, or readily obtainable by, petitioners, their agents and/or counsel, such that the requested disclosure is unduly burdensome or expensive to the United States.

6. Petitioners’ Requests are being answered subject to the limitation that the investigation and discovery in this action are ongoing. Respondent expressly reserves the right

to supplement, clarify, revise, or correct any or all of these responses at any time. By making the following responses to the Requests, Respondent does not waive, and hereby expressly reserves, the right to assert any and all objections as to the admissibility of such responses into evidence at the trial of this action, or in any other proceedings, on any and all grounds, including, but not limited to, competency, relevancy, materiality, and privilege. Further, Respondent provides the responses below without in any manner implying or admitting that she considers any item in the Requests or any response thereto to be relevant or material to the subject matter of this action.

7. Respondent's general objections are incorporated into and continue throughout its responses to the specific Requests.

OBJECTIONS AND RESPONSES TO SPECIFIC INTERROGATORIES

Subject to and without waiving the foregoing general objections and reservations, which Respondent hereby incorporates into each response given below, Respondent responds to the specific interrogatories as follows.

Interrogatory No. 1:

Identify all MCC inmates tested for COVID-19 since March 1, 2020, including each inmate's symptoms prior to testing, who performed the testing, the test results, where the inmate has been housed since March 1, 2020, the medical treatment provided to the inmate during that time, what institution or facility provided the treatment, and when the medical treatment was provided..

Response: Respondent objects to Interrogatory No. 1 on the specific grounds that it is vague and overbroad, and that it calls for the production of information protected by the Privacy Act and HIPAA. Subject to and without waiving the foregoing general and specific objections, Respondent hereby produces an anonymized chart¹ entitled Quarantine Isolation Flowsheet,

¹ As explained in Respondent's Responses to Petitioners' Requests for the Production of Documents, we have assigned each MCC inmate a Litigation Number for purposes of this case to permit the matching of anonymized records. The Litigation Numbers for the named petitioners are as follows: Cesar Fernandez-Rodriguez (160), Rober Galvez-Chimbo (369), Sharon Hatcher (177), Jonathan Medina (13), and James Woodson (94). The Litigation Numbers for the four

prepared by MCC medical staff, which contains the requested information. In addition, one inmate (number 293) was tested at MCC on 5/11/20 because the inmate was scheduled to go to an outside hospital to undergo oral surgery (and not because the inmate had any symptoms of COVID infection), and the test came back negative. Furthermore, as explained in the response to Document Request No. 3, several inmates were tested at the hospital as part of admissions for non-COVID-related medical treatment. With respect to the inmates' housing assignments, the Quarantine Isolation Flowsheet provides some information in that regard, as does the response to Interrogatory No. 3.

Interrogatory No. 2:

Identify all MCC inmates who, since March 1, 2020, have been identified as having COVID-19 symptoms and, for each such inmate, describe where the inmate has been housed since March 1, 2020, the medical treatment provided to the inmate during that time, what institution or facility provided the treatment, and when the medical treatment was provided.

Response: Respondent objects to Interrogatory No. 2 on the specific grounds that it is vague and overbroad, and that it calls for the production of information protected by the Privacy Act and HIPAA. Subject to and without waiving the foregoing general and specific objections, Respondent hereby refers to the Quarantine Isolation Flowsheet, prepared by MCC medical staff, which contains the requested information. With respect to the inmates' housing assignments, the Quarantine Isolation Flowsheet provides some information in that regard, as does the response to Interrogatory No. 3.

Interrogatory No. 3:

Identify all MCC inmates who, since March 1, 2020, have been identified as being vulnerable to COVID-19 and, for each such inmate, describe where the inmate has been housed since March 1, 2020, the medical treatment provided to the inmate during that time, what institution or facility provided the treatment, and when the medical treatment was provided.

Response: Respondent objects to Interrogatory No. 3 on the specific grounds that it is overbroad, and not proportional to the needs of the case, considering the burden of the request is unlikely to outweigh the benefit. Historic information regarding inmate housing is not available to the MCC. In light of the foregoing, the requested information can only be obtained by BOP central office information systems staff who respond to data requests nationwide. In addition, because BOP electronic information systems do not specifically identify inmates who are vulnerable to COVID-19, any request for this information must be obtained either by: (a) performing an individualized query for each inmate; or (b) performing a query for the entire MCC population on a specific date, and then removing the responsive inmates from the query results. Without waiving the foregoing general and specific objections, Respondent will provide

additional inmates who may be providing declarations and who Petitioners' counsel has indicated have authorized the release of their information (and thus, pursuant to the Court's order of May 12, 2020, may be provided) are: Darius Davis (146), Michael Falu (351), Ahmad Naqvi (527), and Nicolas Sucich (72).

in response to this interrogatory five “Housing Charts” that reflect the MCC housing information listed on BOP’s electronic information systems for March 1, 2020, March 15, 2020, April 2, 2020, April 16, 2020, April 30, 2020, and May 14, 2020.

The charts for March 1, 2020 through April 16, 2020, reflect: (1) the anonymized Litigation Number associated with the responsive inmate; (2) the unit the inmate was assigned to on the date reflected in the header; (3) the start date on which the inmate was assigned to that unit; and (4) the last date on which the inmate was assigned to the unit. The chart for April 30, 2020, reflects: (1) the anonymized number associated with the responsive inmate; (2) the unit the inmate was assigned to on April 30, 2020; (3) the start date on which the inmate was assigned to that unit; (4) the last date on which the inmate was assigned to that unit; and (5) the inmate’s assigned unit on May 14, 2020.² To the extent the chart reflects “current,” that is the inmate’s assignment as of May 14, 2020.

The inmates previously identified by the Bureau of Prisons as being at potentially greater risk of developing serious complications from COVID-19 are assigned to Litigation Nos. 1-205. To the extent any of these inmates have been isolated for confirmed or suspected COVID-19 infection, they additionally appear on the Quarantine Isolation Flowsheet being produced in response to Interrogatory Nos. 1 and 2. In addition, Respondent is producing, in response to Document Request No. 3, a report entitled BOP Health Services Activities Report—which it did not have at the time it responded in writing to Document Request No. 3—which lists for each inmate the dates and times of certain encounters with MCC medical staff since March 1, though it does not provide much information about the substance of those encounters. Respondent notes that this report does not necessarily include all interactions between MCC medical staff and inmates, as some such encounters are classified as “administrative encounters” and not included on this report, and some informal encounters also may not be included in this report.

Interrogatory No. 4:

Identify all locations within the MCC that have been used to isolate inmates relating to COVID-19 since March 1, 2020, including the dates on which those locations have been used for that purpose and the number of inmates in those locations on those dates.

² The following data dictionary is provided to assist in identifying the units:

Unit B - Unit 2 females
 Unit C - Unit 3 Quarantine Isolation
 E01 to E06 - 5 North
 E07 to E12 - 5 South
 G01 to G06 - 7 South
 G07 to G12 - 7 South
 I01 to I06 - 9 North
 K01 to K06 - 11 North
 K07 to K12 - 11 South
 Z01 to Z06 - Special Housing (9 South)

Response: Respondent objects to Interrogatory No. 4 on the specific grounds that it is vague and overbroad. Subject to and without waiving the foregoing general and specific objections, Respondent states that the following MCC units have been used to isolate inmates with confirmed or suspected COVID-19 infection since March 1: From March 22 (when the first suspected cases were identified) until March 29, MCC isolated inmates in a separate tier of the Special Housing Unit. Since March 30, MCC has isolated inmates in Unit 3. (In addition, newly admitted inmates or inmates returning from outside engagements are quarantined in Unit 3, and if there is not sufficient room in that unit, in Unit 5-South, Tiers 7 and 8.)

Interrogatory No. 5:

Identify all units placed in quarantine relating to COVID-19 since March 1, 2020, including the dates of quarantine and the number of inmates within each unit.

Response: Respondent objects to Interrogatory No. 5 on the specific grounds that it is vague and overbroad. Subject to and without waiving the foregoing general and specific objections, Respondent provides the following information:

Unit	Quarantine Start Date	Quarantine End Date	No. of Inmates
2	4/5/20	4/21/20	18
5 South	3/28/20	4/14/20	58
5 North	4/7/20	4/22/20	88
7 South	4/9/20	4/21/20	75
7 North	3/23/20	4/24/20	81
9 North	4/8/20	4/23/20	86
11 North	3/26/20	4/26/20	73
11 South	3/23/20	4/12/20	128

Interrogatory No. 6:

Identify the size of the MCC's inmate population on each day since March 1, 2020.

Response: Respondent objects to Interrogatory No. 6 on the specific grounds that it is not relevant to Petitioners' claims. Subject to and without waiving the foregoing general and specific objections, Respondent provides in response to this interrogatory the document entitled "Response to Interrogatory No. 6."

Interrogatory No. 7:

Identify the number of MCC's staff members who were working (on duty) at the MCC on each day since March 1, 2020. For any staff members who were not working due to a positive test for COVID-19, COVID-19 symptoms, or exposure to other persons with or believed to have COVID-19, identify for each the reason they were not working (as set forth above) and the dates they were not working.

Response: Respondent objects to Interrogatory No. 7 on the specific grounds that it is vague and overbroad, unduly burdensome, and calls for the production of information protected by the Privacy Act and HIPAA. Subject to and without waiving the foregoing general and specific objections, Respondent states that as of April 28, 2020, there were 242 authorized positions at MCC, 199 of which were filled. Respondent produces the following documents: (a) a redacted document entitled Staff Listing 5-13-20, which lists all MCC staff who have notified the prison of the results of their test results for COVID-19 and the dates when they were tested, were last at work, and returned to work; and (b) a series of documents entitled “INST OPS DIR,” which list the number of MCC staff who were on leave on the day in question, as well as the number of BOP staff whose normal place of work is not at MCC who were temporarily working at MCC on that date (“Staff in on TDY Status”). Respondent has produced such reports for March 23 (the first date on which such a report was created), April 6, April 20, May 5, and May 13. Respondent is not able to produce such reports for each requested date because of the burden involved.

Interrogatory No. 8:

Identify any MCC inmates or staff members who have died since March 1, 2020 and the cause of death, to the extent such death was caused, or suspected to have been caused, in any way by COVID-19.

Response: Respondent objects to Interrogatory No. 8 on the specific grounds that it is vague and overbroad, and calls for the production of information protected by the Privacy Act and HIPAA. Subject to and without waiving the foregoing general and specific objections, Respondent states that there are no MCC staff members or inmates whose deaths since March 1, 2020, are known or suspected to be caused by COVID-19.

Interrogatory No. 9:

Identify all MCC cadre inmates and orderlies, their assigned duties, their assigned work locations, and their housing locations, for each day since March 1, 2020.

Response: Respondent objects to Interrogatory No. 9 on the specific grounds that it is vague and overbroad. Subject to and without waiving the foregoing general and specific objections, Respondent produces a list reflecting each inmate’s work assignment and a list of orderlies assigned to COVID-19 sanitation detail.

Interrogatory No. 10:

Identify all medical personnel working at the MCC since March 1, 2020, including their names, job titles, medical qualifications, length of employment at the MCC, foreign language ability, work schedule, and the dates on which they have worked (on duty).

Response: Respondent objects to Interrogatory No. 10 on the specific grounds that it is vague and overbroad, and is not relevant to Petitioners’ claims. Subject to and without waiving

the foregoing general and specific objections, Respondent provides the following information about the medical staff at MCC:

Name	Title	Qualif.	Schedule	Foreign Language
Robert Beaudouin	Acting Clinical Director (Aug. 2018-present); Medical Officer (2014-18)	M.D.	M-F 7:30-4:00	French
Cheryl Ancrum	Chief Dentist (Mar. 2019-present)	D.D.S.	M-F 7:00-3:30	
Chae Un Chong	Chief Pharmacist (Apr. 2016-present)	Pharm. D.	M-F 7:30-4:00	
Chidubem Okafor	Psychiatrist (for approx. 4 years)	D.O.	M-F 7:30-4:00	
Terrance Thomas	Health Services Admin. (Mar. 2019-present)	R.N., Mast. Health Serv.	M-F 7:30-4:00	
Mark Yonnone	Asst. Health Services Admin. (Oct. 2016-present)	Licensed paramedic	M-F 7:30-4:00	
Ismael Joaquin	Mid-Level Practitioner (20+ years)	Foreign Medical Graduate	M-F 6:00-2:30	Spanish
Mandeep Singh	Physician Assistant (for approx. 3-4 years)	P.A.	Thu-Mon 2:00pm-10:00pm	Hindi, Punjabi
Yoon Kang	Physician Assistant (Apr. 2019-present)	P.A.	M-F 7:30-4:00	
Sandra Esguerra	Registered X-Ray Technologist (2009-present)		M-F 8:00-4:00	
Jessibell Mueses	Certified EKG and phlebotomist technician (Feb. 2019-present)		M-F 8:00-2:00	Spanish

In addition, certain medical staff from other BOP facilities have been brought in to assist MCC medical staff on a temporary basis. Furthermore, all MCC medical staff have access to a service called Language Line, which offers telephonic simultaneous translation for healthcare encounters.

Interrogatory No. 11:

Describe all actions taken by the MCC since March 1, 2020 to obtain COVID-19 tests and testing equipment, including who took such actions, when such actions were taken, the nature of the actions taken, from whom such tests and testing equipment was sought, and the results of such actions.

Response: Respondent objects to Interrogatory No. 11 on the specific grounds that it is vague and overbroad. Subject to and without waiving the foregoing general and specific objections, MCC placed its first order for COVID-19 test kits on 4/10/20, and has placed several orders since then. The orders have been placed by Dr. Robert Beaudouin, MCC's medical director. MCC uses two vendors for these tests: Quest Diagnostics (which will supply a maximum of 10 kits per order) and LabCorp (which will supply a maximum of 5 kits per order). As of May 12, MCC has 32 test kits on hand and has ordered more. Furthermore, since the court hearing on May 4, MCC has inquired again with BOP as to whether it can get a rapid testing machine for COVID-19. *See generally* https://www.bop.gov/resources/news/20200424_expanded_testing.jsp. MCC has just received this machine (on May 14) but it is not yet operational; MCC medical staff plans to use the machine to test all new inmates and symptomatic inmates. The machine will have the capacity to perform up to 250 tests per week.

AS TO INTERROGATORY RESPONSES 1-2 (except with respect to housing assignments), 3-5, 7 (with respect to staff members who have tested positive for COVID-19), 8 (with respect to inmates), AND 10-11 ONLY:

I, Robert Beaudouin, M.D., state under penalty of perjury pursuant to the provisions of 28 U.S.C. § 1746, that these responses are true and correct to the best of my knowledge, information and belief.

MEMORANDUM FOR ALL MCC NEW YORK STAFF

FROM: //s//
M. Licon-Vitale, Warden

SUBJECT: Positive Staff Case

We have a confirmed staff case of COVID-19 at MCC New York. Please ensure you are practicing hand washing, coughing/sneezing in your elbow and following all other advertised precautions to assist in reducing the spread of the illness. We are conducting a contact investigation to notify those who may have come in direct contact with the staff member. Please note, we must maintain confidentiality to the contact source due to HIPPA. Additionally, employees exposed to a co-worker with confirmed COVID-19 should refer to CDC guidance on how to conduct a risk assessment of their potential exposure at www.cdc.gov.

Please know we are concerned about the health and safety of all of our staff and their families and will continue to keep you updated as information becomes available.

Inmate Work Assignment: none

We have had the same clothing since returning from Otisville over 3 weeks ago. There has been no exchange of underwear, socks, or greens as of today. I have attempted to order socks, underwear, sweatpants/shirts on commissary numerous times and the order was not filled. I was told only food items were being filled, due to the revised spending limit. I prefer to have the clothing items filled rather than the food items, or a combination of both. Corrective action needs to be taken. it is unhygienic to have to wear the same clothes for a month.

Inmate Work Assignment: None

Sorry to keep bothering you with things. But we need help with things in 11 South. The are not getting the disinfectant cleaning stuff. We need new mop heads. The ones we have were given over a month ago, and stink real bad. We have no laundry soap to use for the washing machine. Those of us that went to Oatisville were given underwear and socks. I am still in the same underclothing and socks I was given in Oatisville, and I am back at the MCC Bldg from March 9. This is crazy. I have asked over and over, and submitted clothing requests forms for the underwear, t-shirts, and socks. I hope that you can help in this matter. Thank you, and I hope you have a good Sunday.

April 22, 2020

MEMORANDUM FOR CHIEF EXECUTIVE OFFICERS

FROM: Andre Matevosian, Acting Assistant Director
Correctional Programs Division

HUGH HURWITZ
Digitally signed by HUGH
HURWITZ
Date: 2020.04.22 14:17:15 -04'00'
Hugh J. Hurwitz, Assistant Director
Reentry Services Division

SUBJECT: Home Confinement

In an effort to protect the health and safety of staff and inmates during the COVID-19 pandemic, it has become imperative to review at-risk inmates for placement on home confinement. This memorandum provides additional guidance and direction and rescinds the memorandum dated April 3, 2020.

It should be noted that for public safety reasons, in accordance with the March 26, 2020, memorandum from the Attorney General, and to ensure BOP is deploying its limited resources in the most effective manner, the BOP is currently assessing the following factors to ensure inmates are suitable for home confinement:

- reviewing the inmate's institutional discipline history for the last twelve months;
- ensuring the inmate has a verifiable release plan;
- verifying the inmate's primary or prior offense history does not include violence, a sex offense, or terrorism related;
- confirming the inmate does not have a current detainer;
- reviewing the security level of the facility currently housing the inmate, with priority given to inmates residing in Low and Minimum security facilities;
- reviewing the inmate's score under PATTERN, with inmates who have anything above a minimum score not receiving priority treatment;

- and reviewing the age and vulnerability of the inmate to COVID-19, in accordance with the CDC guidelines.

In addition, and in order to prioritize its limited resources, BOP has generally prioritized for home confinement those inmates who served a certain portion of their sentences, or who only have a relatively short amount of time remaining on those sentences. While these priority factors are subject to deviation in the BOP's discretion in certain circumstances and are subject to revision as the situation progresses, at this time, the BOP is prioritizing for consideration those inmates who either:

- have served 50% or more of their sentences,
- or have 18 months or less remaining on their sentences and have served 25% or more of their sentences.

Additionally, pregnant inmates should be considered for viability of placement in a community program to include Mothers and Infants Together (MINT) programs and home confinement.

All inmates must be reviewed by the SIS Department at the referring facility to determine if the inmate has engaged in violent or gang-related activity in prison. Additionally, inmates must have maintained clear conduct for the past 12 months to be eligible.

Referrals must be made based on appropriateness for home confinement. Consideration should be given to whether the inmate has demonstrated a verifiable reentry plan that will prevent recidivism and maximize public safety, including verification that the conditions which the inmate would be confined upon release would present a lower risk of contracting COVID-19 than the inmate would face in his or her BOP facility.

All referrals should clearly document the review of the following:

- Unit Team staff will screen each inmate identified to determine if they have a viable release residence and ask questions specific to:
 - Specific type of release residence (House/Apt/Group home, etc.),
 - Who will the inmate live with,
 - Any health concerns of individuals in the residence,
 - Contact phone numbers should he/she be placed on home confinement,
 - Transportation plan as to how the inmate will be transferred to the home confinement location.

All the above information must be clearly documented on the referral for home confinement prior to submission to the RRM Office.

Inmates determined to have a viable release residence will be screened by Health Services and a determination made as to if the inmate requires frequent and on-going medical care within the next 90 days. If frequent and on-going medical care is required, then:

- Health Services staff will coordinate with Naphcare and RRMBS Health Services Specialists to determine if the inmate's medical needs can be met in the community at this time. Naphcare will set up follow-up care prior to the inmate's transfer. An inmate must transfer with AT LEAST 90 days of any prescribed medications.
- If the inmate's medical needs cannot be met in the community at this time, the inmate will remain at the BOP facility.
- If the inmate does not require frequent and on-going medical care, a referral to the community will be processed.
- All the above information must be clearly documented on the referral for home confinement prior to submission to the RRM Office.

Once an inmate is referred for home confinement due to the COVID-19 pandemic, the Case Management Activity (CMA) assignment **CV-COM-REF** should be loaded in SENTRY.

If the Warden determines there is a need to refer an inmate for placement in the community due to risk factors, or as a population management strategy during the pandemic; however, the inmate does not meet the above listed criteria, a packet should be forwarded to the Correctional Programs Division for further review. Packets should be sent to BOP-CPD/Assistant Director from the Warden's general mailbox.

Case Management Coordinators must track all inmates determined to be ineligible for home confinement or the Elderly Offender Pilot Program and enter the appropriate denial code in SENTRY. Reports outlining reason for denial must be reported to BOP-CPD/Unit Management on a weekly basis by Monday at 2:00 p.m. EST.

If an inmate does not currently qualify for home confinement under BOP criteria, they should be reviewed for placement in a

Residential Reentry Center and for home confinement at a later date, in accordance with applicable laws and BOP policies.

If you have any questions, please contact David Brewer, Acting Senior Deputy Assistant Director, Correctional Programs Division, at (202)353-3638 or Alix McLearen, Senior Deputy Assistant Director, Reentry Services Division, at (202)514-4919.

MEMORANDUM FOR CORRECTIONAL PROGRAM ADMINISTRATORS

FROM: 
David Brewer, Acting Senior Deputy Assistant
Director

SUBJECT: Furlough and Home Confinement Additional Guidance

The following guidance is provided from information contained in the CARES Act, memoranda from Attorney General Barr, and the Bureau of Prisons. This memorandum rescinds guidance previously provided.

Furlough

The current pandemic is considered an urgent situation that may warrant an emergency furlough under 570.32(b)(1) and 570.33(b). These regulations authorize a non-transfer emergency furlough if the inmate is otherwise deemed appropriate, even if he/she has been submitted for Home Confinement (HC). Effective April 16, 2020, all inmates referred for an emergency furlough due to the Covid-19 pandemic should be submitted and keyed as FURL CRI.

Inmates who have been referred for a release planning furlough based on guidance issued prior to April 16, 2020, do not require a new application. These inmates should be keyed out of the facility as FURL REL. Furlough applications completed on or after April 16, 2020, should follow the updated guidance. Inmates within 12 months of his/her Projected Release Date (PRD), or those who have received Home Confinement placement and have a PRD exceeding one year, should be reviewed for furlough.

Home Confinement

In an effort to alleviate concerns and questions, the following criteria should be met when reviewing and referring inmates for HC:

- Primary or prior offense is not violent

- Primary or prior offense is not a sex offense
- Primary or prior offense is not terrorism
- No detainer
- Mental Health Care Level is less than CARE-MH 4
- PATTERN risk score is Minimum (R-MIN)
- No incident reports in the past 12 months (regardless of severity level)
- U.S. Citizen
- Viable Release Plan

If the inmate meets the criteria above, the following factors should be noted, but are not a reason for denial:

- Age
- Projected Release Date
- Percentage of time served
- Medical Care Level
- Victim Witness Program
- Arrival dated (ARSD)

Any concerns regarding an inmate's suitability for HC placement should be noted in Section 11 of the BP-210, *Institutional Referral for CCC Placement*. It is strongly encouraged to refer inmates currently housed in a facility with active Covid-19 cases.

For inmates requesting relocation, a release plan must be submitted to the USPO prior to HC referral submission. The USPO approval letter must be forwarded to the RRM, once received. Institution staff should contact the Health Service Specialist in the RRM's office with questions regarding HC placement for inmates with medical concerns.

If you have any questions, please contact David Brewer, Acting Senior Deputy Assistant Director, Correctional Programs Division, at (202)353-3638.

Good Morning,

Effective on Sunday, April 26, 2020, all Unit Team staff will be returned to their assigned position and work schedule to facilitate their regular unit team assignments, i.e., legal mail, legal phone calls, intake screening, compassionate release, etc.

Thank you all for assisting custody with the 12 hour roster implementation.

Your refill has been requested. The bureau does not recommend the antibody test as it is not accurate enough to give proper results.

Hi Dr. Beaudoin

My attorney has been asking me for a copy of my medical records so he could submit a motion to the court for my early release due to my health conditions and my increase risk of contracting COVID 19 with dire consequences. I messaged medical records March 31, April 21, and again today with no reply and no medical records being given to me. I have messaged several other people who I know and still haven't been able to get a copy of them. Could you please look into this for me? I really need these records so he can prove I qualify for an early release due to my medical history and my court date is June 11 only 6 weeks away.

Thank you so much!!

Inmate Work Assignment: Doctor

Hello,

The medical staff at the MCC in January told me that I may have a heart issue. They said, that I need to have an EKG and Ultrasound. Until now, I have not been given either. Can I please at least get the EKG? I am pretty concerned, especially after I had contracted the coronavirus. I am feeling much better than before but still coughing. Can I get something for the cough and see the doctor?

Can you schedule an EKG?

Thank you,
Fred

My respiratory system is not well. My lungs are always aching me and this is not normal for me at all, on the inhale is pain occasionally and consistantly at the sametime, i hope that makes since. And i swear its like i can only smell the inside of my body for at least the last week unless there a very strong other odor! Im truly scared, i heard on the radio people are dying from lung issues without any fever and i dont want to be one of them. I dont have any prior lung problems or respiratory issues this is not suppose to be happening!

Hello, I am currently in 11 North. For the past 10 days I have experienced symptoms related to the coronavirus. I have had the chills, body aches, fatigue and experienced heavy coughing. I find it hard to breathe at times. I avoid taking deep breathes because it feels like my lungs get congested or filled with some type of fluid.

Most of the people in my tier are sick. I would say 13 out of the 16 inmates in my tier are sick. The quarantine is a good idea. I know not much can be done but is it possible to get some type of medication that will help alleviate the coughing? What about taking an antibiotic like Z-pak? This feels like a respiratory illness and I don't think the coughing will entirely go away without antibiotics.

Thank you

Im currently having occasional hot flashes in my head, the other night i was having cold sweats all night, really cold but sweating and then really hot all over, but my temperature was only a little above average, sometimes from my nose up feels a little tight for about a minute or two, everything is on and off though, also at times my stomach feels a little off not really crazy pain but uncomfortable and ill feel as if i have to throw up for about three minutes! Im not saying i believe i have covid-19 but im for sure worried and would like to find out exactly whats going on with my body!

Hello Team

I have been suffering from Cold from cough and pain in throat. Pain like of Tonsils in throat. I have already informed about the same 2-3 times last week early to the medical officers but I was never called for the same. After that I felt a little better. But since last 2 days the cough, cold, sneezing is again too much and the pain in the throat is also too much. I want to get it tested and need medical for the same at the earliest. Please consider it urgent.

MEMORANDUM FOR CHIEF EXECUTIVE OFFICERS

APR 3 2020

FROM: Andre Matevousian, Acting Assistant Director
Correctional Programs Division

HUGH HURWITZ Digitally signed by HUGH HURWITZ
Date: 2020.04.03 12:23:46 -0400

Hugh J. Hurwitz, Assistant Director
Reentry Services Division

SUBJECT: Home Confinement

In an effort to protect the health and safety of staff and inmates during the COVID-19 pandemic, it has become imperative to review at-risk inmates for placement on home confinement. Sample rosters are attached to aid in the identification of inmates who may be eligible for home confinement, based on the memorandum from the Attorney General (AG) dated March 26, 2020 and the Elderly Offender Pilot program. Inmates must be reviewed utilizing the Elderly Offender Home Confinement program criteria and the discretionary factors listed in the AG's memo. Additionally, pregnant inmates should be considered for viability of placement in Community Program to include Mothers and Infants Together (MINT) programs and Home Confinement.

All inmates must be reviewed by the SIS Department at the referring facility to determine if the inmate has engaged in violent or gang-related activity in prison. Additionally, inmates must have maintained clear conduct for the past 12 months to be eligible.

Referrals must be based on appropriateness for home confinement. Consideration should be given to whether the inmate has a demonstrated a verifiable reentry plan that will prevent recidivism and maximize public safety, including verification by

Health Services staff that the conditions under which the inmate would be confined upon release would present a lower risk of contracting COVID-19 than the inmate would face in his or her BOP facility.

Unit Management staff will ensure each inmate submitted for Home Confinement has a viable release residence. Staff will submit the Supervised Release Plan and other necessary documentation to the United States Probation Office (USPO) in the release district. Staff need not receive USPO approval prior to submitting the referral for Home Confinement, even if a request for relocation has been submitted. The approval letter will be forwarded to the appropriate RRM once received from the USPO. The following information must be clearly documented on the referral for Home Confinement prior to submission to the RRM Office:

- The structural type of release residence (house, apartment, group home, etc.)
- The name and relationship of the individual with whom the inmate will be residing
- Information regarding health concerns of any of the individuals living at the release residence
- Valid contact telephone number(s) for the inmate if he/she should be placed on Home Confinement
- The specific transportation plan detailing how the inmate will be transferred to the Home Confinement location

Inmates determined to have viable release residences will be screened by Health Services staff to determine if frequent and on-going medical care is required within the next 90 days. If frequent and on-going medical care is required, the following actions will be taken:

- Health Services staff will coordinate with Naphcare and the Residential Reentry Management Branch's (RRMB) Health Services Specialists to determine if the inmate's medical needs can be met in the community at this time. Naphcare will set up follow up care prior to the inmate's transfer out of the facility. The inmate must transfer with **at least** a 90-day supply of any prescribed medication(s).
- If the inmate's medical needs cannot be met in the community at this time, the inmate will remain at his/her current BOP facility.

If frequent and on-going medical care is not required, the referral for Home Confinement will be processed.

Inmates being referred for home confinement due to the COVID-19 pandemic must have the Case Management Activity (CMA) assignment of **CV-COM-REF** loaded into SENTRY. If the inmate is denied at the institution or RRM level the CMA assignment of **COV-HC-DENY** must be loaded.

Case Management Coordinators must track all inmates deemed ineligible for Home Confinement or the Elderly Offender Pilot Program. The attached form should be used to record this information and must be forwarded via e-mail to the Correctional Programs Branch, via GroupWise to BOP-CPD/Unit Management. This report must be forwarded on a weekly basis and is due every Monday by 2:00 PM (EST).

If you have any questions, please contact David Brewer, Acting Senior Deputy Assistant Director, Correctional Programs Division, at (202)353-3638.

MEMORANDUM FOR CHIEF EXECUTIVE OFFICERS

FROM:  Andros Matevosian, Acting Assistant Director
Correctional Programs Division

HUGH HURWITZ Digitally signed by HUGH HURWITZ
Date: 2020.05.08 15:57:01 -0400

Hugh J. Hurwitz, Assistant Director
Reentry Services Division

SUBJECT: Home Confinement

In our continued effort to protect the health and safety of staff and inmates during the COVID-19 pandemic, it is imperative to review at-risk inmates for placement on home confinement. This memorandum provides updated guidance and direction and rescinds the memorandum dated April 22, 2020.

In accordance with the March 26, 2020, Memorandum, and to ensure the BOP is deploying its limited resources in the most effective manner, the following factors must be assessed to ensure inmates are suitable for home confinement:

- Reviewing the inmate's institutional discipline history for the last twelve months (Inmates who have received a 300 or 400 series incident report in the past 12 months may be referred for placement on Home Confinement, if in the Warden's judgement such placement does not create an undue risk to the community.)
- Ensuring the inmate has a verifiable release plan;
- Verifying the inmate's primary offense is not violent, a sex offense, or terrorism related;
- Confirming the inmate does not have a current detainer.

- Priority should be given to inmates residing in Low and Minimum security facilities;
- Inmates who have anything above a Minimum score not receiving priority treatment;
- And the age and vulnerability of the inmate to COVID-19, in accordance with the CDC guidelines

Home Confinement is generally prioritized for those inmates who have served a certain portion of their sentence, or who only have a relatively short amount of time remaining on their sentence. While these priority factors are subject to deviation in certain circumstances and are subject to revision as the situation progresses, we are currently prioritizing for consideration those inmates who either:

- have served 50% or more of their sentence,
- or have 18 months or less remaining on their sentence and have served 25% or more of their sentence.

If the Warden determines there is a need to refer an inmate for placement in the community due to COVID-19 risk factors who is outside of the criteria listed above. Then, the Warden should forward the Home Confinement referral to the Correctional Programs Division in Central Office for further review.

All inmates must be reviewed by the SIS Department at the referring facility to determine if the inmate has engaged in violent or gang-related activity in prison. **Inmates who have received a 300 or 400 series incident report in the past 12 months may be referred for placement on Home Confinement.**

Referrals must be made based on appropriateness for home confinement. Consideration should be given to whether the inmate has a verifiable reentry plan, which will prevent recidivism and maximize public safety; including verification, the conditions under which the inmate would be confined upon release would present a lower risk of contracting COVID-19.

All referrals should clearly document the review of the following:

- Specific type of release residence (House/Apt/Group home etc.),
- Who inmate will be living with,
- Any health concerns of individuals in the residence,
- Contact phone numbers of the inmate should he/she be placed on Home Confinement,

- Transportation plan as to how the inmate will be transferred to the Home Confinement location.

All the above information must be documented on the referral for Home Confinement prior to submission to the RRM Office.

Inmates will be screened by Health Services to determine if the inmate requires frequent and on-going medical care within the next 90 days, if frequent and on-going medical care is required then:

- Health Services staff will coordinate with Naphcare and RRMBS Health Services Specialists to determine if the inmates' medical needs can be met in the community at this time. Naphcare will set up follow up care prior to transfer. The inmate must transfer with AT LEAST 90 days of any prescribed medications.
- If inmates' medical needs cannot be met in the community, then the inmate will remain at BOP Facility.
- If inmates do not require frequent and on-going medical care then the referral will be processed.
- All the above information must be clearly documented on the referral for Home Confinement prior to submission to the RRM Office.
- Medical staff must add COVID specific risk factors to the medical (BEMR) exit summary.

Pregnant inmates should be considered for viability of placement in a community program to include Mothers and Infants Together (MINT) programs and Home Confinement.

If an inmate is referred for home confinement due to the COVID-19 pandemic, the Case Management Activity (CMA) assignment **CV-COM-REF** should be loaded.

Case Management Coordinators must track all inmates determined to be ineligible for Home Confinement or the Elderly Offender Pilot Program and enter the appropriate denial code in SENTRY. Reports outlining the reason for denial must be reported to BOP-CPD/Unit Management on a weekly basis by Monday at 2pm EST.

If you have any questions, please contact David Brewer, Acting Senior Deputy Assistant Director, Correctional Programs Division.
