

HONORABLE RICHARD A. JONES

UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON
AT SEATTLE

BLACK LIVES MATTER SEATTLE-KING
COUNTY, ABIE EKENEZAR, SHARON
SAKAMOTO, MURACO KYASHNA-
TOCHA, ALEXANDER WOLDEAB,
NATHALIE GRAHAM, AND
ALEXANDRA CHEN,

Plaintiffs,

v.

CITY OF SEATTLE, SEATTLE POLICE
DEPARTMENT,

Defendant.

Case No. 2:20-cv-00887-RAJ

ORDER

I. INTRODUCTION

Four weapons and four protests. This Order covers Seattle Police Department's use of four weapons (pepper spray, pepper balls, blast balls, and paintballs) during four protests (August 26, September 7, September 22, and September 23). The Court's duty is simple: it must determine which uses were fair and which were in violation of the Court's preliminary injunction orders.

In their briefing, Plaintiffs raise a range of concerns, from general police conduct and demeanor to specific SPD tactics, such as the use of bicycles to move crowds from

1 location to location, the towing of protestor vehicles blocking roads, and the playing of
2 loud country music during an arrest. Plaintiffs contend that they included these details
3 for context. For clarity, however, the Court states here: Those tactics were not and are
4 not before this Court. They were not part of the Court's temporary restraining order, and
5 they are not part of the Court's operative preliminary injunctions.

6 To be sure, the protests were much more complex and dynamic than set forth in
7 this Order. Hundreds of protestors, dozens of police officers, and countless projectiles
8 exchanged between them make it nearly impossible to render a comprehensive factual
9 account. And the evidence provided to this Court, though robust, is imperfect. Still,
10 despite the grey, the Court must determine by clear and convincing evidence whether the
11 City violated this Court's previous orders and should thereby be held in contempt.

12 Having reviewed the parties' briefing and the relevant record and having heard
13 oral argument, the Court **GRANTS in part** and **DENIES in part** Plaintiff's (Second)
14 Motion for Order to Show Cause Why City of Seattle Should Not Be Held in Contempt,
15 Dkt. # 114, and **HOLDS** the City in civil contempt for the specific violations of the
16 preliminary injunction orders explained below.

17 **II. BACKGROUND**

18 **A. Procedural History**

19 In June of this year, Plaintiffs obtained a temporary restraining order against
20 Defendant City of Seattle ("City"). Dkt. # 34. Under that order, the City, Seattle Police
21 Department ("SPD"), and its officers were enjoined from employing "chemical irritants
22 or projectiles of any kind against persons peacefully engaging in protests or
23 demonstrations." *Id.* at 11. Some irritants and projectiles included CS gas (tear gas), OC
24 spray (pepper spray), flash-bang grenades, "pepper balls," "blast balls," rubber bullets,
25 and foam-tip projectiles (collectively, "less lethal weapons"). *Id.* The order did not
26 prevent officers from using such weapons in certain limited cases. *Id.* Days after it
27 granted the temporary restraining order, this Court entered a stipulated preliminary

1 injunction with nearly identical terms. Dkt. # 42.

2 A month later, after a confrontation between protestors and SPD on July 25, 2020,
 3 Plaintiffs moved for an order to show cause why the City should not be held in contempt
 4 of the preliminary injunction. Dkt. # 51. The Court set that matter for an evidentiary
 5 hearing, Dkt. # 88, 90, but the hearing did not take place. Instead, the parties entered a
 6 stipulation, amending the previous preliminary injunction. Dkt. # 109. The amendment
 7 added certain protections for journalists, medics, and legal observers. *Id.* at 3-4. It also
 8 imposed additional obligations on SPD and additional limitations on its use of less lethal
 9 weapons. *Id.* at 3-6. The Court entered the amended preliminary injunction the day it
 10 was filed. Dkt. # 110. The original and amended preliminary injunctions are collectively
 11 referred to as the “Orders.” Dkt. ## 42, 110.

12 **B. Second Contempt Motion**

13 On September 30, 2020, Plaintiffs filed their second contempt motion. Dkt. # 114.
 14 The motion is based on protests that occurred on August 26, September 7, September 22,
 15 and September 23 of this year. *Id.* at 3-10. Plaintiffs argue that on these days SPD
 16 deployed less lethal weapons in violation of the Orders. *Id.* at 3. Plaintiffs and the City
 17 agreed to forego an evidentiary hearing, asking the Court instead to consider the motion
 18 based entirely on written submissions without any live testimony. Dkt. # 141 at 2. The
 19 written submissions included scores of video evidence. Both parties compiled their
 20 respective video evidence onto flash drives and submitted the flash drives to the Court.
 21 Dkt. ## 149, 154.

22 **i. August 26, 2020 Protest**

23 Many months ago, in early July, Summer Taylor was killed during a protest when
 24 a driver struck Taylor with his car. Dkt. # 114 at 3. On August 26, 2020, to
 25 commemorate Taylor’s death, protestors held a vigil on a sidewalk outside the
 26 Washington State Patrol station near Roanoke Street and East Broadway. Dkt. # 148
 27 ¶ 16. Gathering around a memorial, vigil attendees shared their feelings and a moment of

1 silence. Dkt. # 116 ¶ 4. To shield attendees from traffic, protestors formed a “car
2 brigade”¹ behind them. *Id.* ¶ 7; Dkt. # 134 ¶ 4.

3 According to SPD, however, the car brigade created several public safety hazards.
4 The dozen or so vehicles in the brigade were parked in front of the Washington State
5 Patrol station and the Seattle Fire station, blocking emergency vehicles from entering and
6 exiting. Dkt. # 148 ¶ 16. The brigade also blocked a highway off-ramp, endangering
7 motorists exiting the highway at high speeds. *Id.*

8 SPD instructed the brigade drivers to move their vehicles and told them that, if
9 they did not comply, their vehicles would be towed and impounded. Dkt. # 145-1 Ex. A
10 (8/26 Video) at 1:30 to 2:07.² Shortly after, SPD moved into the street and formed a
11 police line. Dkt. # 116 ¶ 6; Dkt. # 148 ¶ 17. The police line then advanced, pushing
12 protestors with batons while chanting “move back.” Dkt. # 117 ¶ 8. SPD pushed the
13 protestors westbound. Dkt. # 148 ¶ 17. During the push, the protestors resisted, using
14 umbrellas as shields and deploying “pyrotechnics” and “smoke devices.” *Id.* One
15 protestor was arrested for shining a laser pointer into an officer’s eyes. *Id.* Other
16 protestors tried to de-arrest the protestor with the laser pointer, prompting SPD to use OC
17 spray on them. *Id.*

18 Eventually, SPD steered the crowd north on Harvard Avenue. Dkt. # 148 ¶ 20.
19 There, an SPD officer observed a suspect throw “two spherical objects” at officers, which
20 he thought could be explosive devices. *Id.* ¶ 19. In response, the officer threw a blast
21 ball. *Id.* ¶¶ 19-20. The officer claimed that he tried to throw the blast ball towards the
22

23 ¹ Car brigades are when protestors form a barricade with their parked vehicles. See Dkt.
24 # 116 ¶ 7; Dkt. # 134 ¶ 4.

25 ² The City has provided three video compilations for the August 26, September 7, and
26 September 23 protests. Those compilations are attached to the declaration of Robert L.
27 Christie as Exhibits A (8/26 protest), B (9/7 protest), and C (9/23 protest). Dkt. # 145
28 ¶¶ 4-6; Dkt. # 145-1 at 1. Throughout this Order, the Court refers to specific portions of
those compilations and other video evidence. Those references are in the following
format—[hour]:[minute]:[second] or [minute]:[second].

1 protestor but that it accidentally bounced off another protestor's shield. Dkt. # 146-1 at
2 4-5.

3 On the night of Summer Taylor's vigil, OC spray was used multiple times. *See*,
4 *e.g.*, Dkt. # 145-1 Ex. A (8/26 Video) at 1:12:23 to 1:12:40, 1:17:20 to 1:17:35. In their
5 brief, Plaintiffs assert that "a number of blast balls" were used that night. Dkt. # 152 at 5;
6 *see also* Dkt. # 134 ¶¶ 6-7. But at oral argument the City represented that only one blast
7 ball was used (the one discussed above), to which Plaintiffs did not object.

8 **ii. September 7, 2020 Protest**

9 On Labor Day, September 7, 2020, hundreds of protestors gathered at the light rail
10 station in the International District. Dkt. # 120 ¶ 3; Dkt. # 148 ¶ 22. Calling for the
11 abolishment of SPD's police union, the protestors marched south from the rail station to
12 the Seattle Police Officers Guild ("SPOG") in SoDo. Dkt. # 122 ¶ 3; Dkt. # 123 ¶ 7; Dkt.
13 # 148 ¶ 22. SPD monitored them and received reports that a member of the crowd
14 possessed a Molotov cocktail. *Id.* ¶ 23.

15 When the protestors reached the SPOG building, they formed a crowd at the head
16 of an alleyway next to it. Dkt. # 145-1 Ex. B (9/7 Video) at 4:21 to 8:15. SPD spotted
17 the Molotov cocktail suspect in the crowd. Dkt. # 148 ¶ 25. Dozens of SPD officers on
18 bicycles emerged from the alleyway and stormed one side of the crowd to arrest the
19 suspect. *Id.* ¶ 25; Dkt. # 120 ¶ 10. A melee broke out, protestors on one side and SPD on
20 the other. Dkt. # 145-1 Ex. B (9/7 Video) at 23:23 to 25:33. Protestors threw projectiles,
21 discharged a fire extinguisher, and hid behind makeshift shields and umbrellas. Dkt.
22 # 120 ¶ 10. SPD threw blast balls, used OC spray, and made several arrests. *Id.*

23 SPD then pushed the crowd north, where the conflict continued. Dkt. # 148 ¶ 26.
24 During their retreat, several protestors saw SPD use less lethal weapons, including OC
25 spray, blast balls, and a pepper ball gun. Based on their observations, they thought the
26 deployments were random and unprovoked. *See, e.g.*, Dkt. # 116 ¶¶ 47-48; Dkt. # 117
27 ¶¶ 23-27; Dkt. # 122 ¶¶ 12-18. SPD said it used these weapons, however, because

1 protestors were throwing projectiles at officers, such as rocks, bottles, improvised
2 explosive devices, and smoke grenades. Dkt. # 148 ¶ 26. One protestor, from deep
3 within a crowd, even threw a lit Molotov cocktail. *Id.* ¶ 27. It nearly hit Plaintiff
4 Alexandra Chen and another protestor before exploding in the street and setting a portion
5 of the street on fire. Dkt. # 145-1 Ex. B (9/7 Video) at 56:50 to 57:55. After the protest
6 ended, SPD recovered a box of 12 unlit Molotov cocktails. *Id.* ¶ 28; Dkt. # 145-1 at 46-
7 48.

8 In total, SPD used three less lethal weapons that day: OC spray, blast balls, and
9 pepper balls.

10 **iii. September 22, 2020 Protest**

11 On the evening of September 22, 2020, after Seattle City Council voted to cut
12 SPD's budget, a small group of protestors gathered in Capitol Hill. Dkt. # 132 ¶ 4. They
13 were calling for the defunding and abolishing of SPD. *Id.*

14 SPD used vehicles to direct the protestors north on 12th Avenue, away from the
15 SPD East Precinct. Dkt. # 148 ¶ 30. Surrounding the protestors, SPD vehicles directed
16 protestors from behind, and further up the street there were SPD vehicles driving
17 backwards in front of the protestors. Dkt. # 131 ¶ 7. SPD turned on their lights and
18 sirens, and pedestrian traffic was limited. *Id.* ¶¶ 4-6. After a few blocks, the protestors
19 reversed course and headed south, back to the East Precinct. Dkt. # 148 ¶ 30. Protestors
20 shined strobe lights into the SPD vehicles in front of them; one even shined a laser-
21 pointer. *Id.* ¶ 31; *see also id.* Ex. F. They pounded on the windows of one vehicle and
22 "used lit cigarettes to damage the hood." *Id.* ¶ 31. SPD warned the protestors not to
23 interfere with the vehicles, which they ignored. *Id.* ¶¶ 31-32.

24 Nearing the East Precinct, Lieutenant John Brooks ordered another officer to use a
25 blast ball "to create separation" between the officers and crowd once they reached the
26 intersection in front of the precinct. Dkt. # 148 ¶ 32; *see also id.* Exs. E & F. The officer
27 who received the command was on a bicycle. *Id.* Ex. E. She rode to and parked at the

1 corner of the intersection, waiting for the crowd and SPD vehicles to catch up. *Id.* When
2 the protestors reached the middle of the intersection, they were feet away from an SPD
3 vehicle. *Id.* The bicycle officer then deployed a blast ball in the middle of the crowd,
4 which exploded and caused the protestors to turn into another street. *Id.*

5 SPD justified its use of the blast ball on public safety grounds. It said that the
6 strobe lights shined into SPD vehicles created an “obvious hazard for the driver,” who
7 was driving in reverse. Dkt. # 148 ¶ 33. Only a few of the many protestors had or used
8 strobe lights that night. *Id.* Ex. F.

9 In total, only one less lethal weapon was used, a single blast ball.

10 **iv. September 23, 2020 Protest**

11 Breonna Taylor was an African-American woman who, earlier this year, was shot
12 and killed in her apartment by police officers in Louisville, Kentucky. On September 23,
13 2020, a grand jury decided not to charge any officer for her death, prompting several
14 protests in Seattle later that evening. Dkt. # 117 ¶ 34; Dkt. # 122 ¶ 23; Dkt. # 133 ¶ 3;
15 Dkt. # 139 ¶¶ 5, 7. Of the protests, Plaintiffs’ motion focuses only on the one held at Cal
16 Anderson Park in Capitol Hill, just down the street from the SPD East Precinct. Dkt.
17 # 114 at 9-10.

18 The Cal Anderson Park protest began at 7:00 p.m. Dkt. # 139 ¶ 5. For hours, SPD
19 monitored the protestors as they marched about Capitol Hill and as some protestors
20 vandalized property and threw objects at police. *Id.* ¶¶ 10-22. Eventually, the crowd of
21 protestors settled at 11th Avenue and East Pine Street (the southeast corner of Cal
22 Anderson Park and a block away from the East Precinct). *Id.* ¶ 22. SPD monitored the
23 crowd from a distance. *Id.* But soon after, a protestor threw a firework into the East
24 Precinct, where officers were present. *Id.* ¶ 23-24; Dkt. # 117 ¶ 41.

25 Officers identified the protestor who threw the firework and tried to arrest him.
26 Dkt. # 139 ¶ 25. In their attempt, officers on bicycle, on foot, and in vehicles left the East
27 Precinct, pursued the protestor, and maneuvered into the crowd at 11th Avenue and East

Pine Street. Dkt. # 145-1 Ex. C (9/23 Video) at 14:47 to 24:29. Some protestors threw objects at officers, and some officers sprayed protestors with OC spray. *Id.* Afterwards, SPD retreated to the East Precinct. Dkt. # 139 ¶¶ 26, 29. During that retreat, an officer was hit in the head with a bat. *Id.* ¶ 28; *see infra* Section IV.C.ii.1

SPD monitored the protest from its new position. *Id.* ¶ 26. Not long after, several protestors started a fire in the middle of the road, between the officers at the East Precinct and the crowd at 11th Avenue and East Pine Street. *Id.* ¶ 29; Dkt. # 120 ¶ 37; Dkt. # 133 ¶ 10. The fire grew, as did SPD's concern for the safety of surrounding businesses and residences. Dkt. # 139 ¶ 29. SPD re-engaged the crowd and ordered them to disperse. *Id.* ¶¶ 29-30. Like the previous engagement, several protestors threw objects at SPD, and SPD responded with OC spray and blast balls. Dkt. # 145-1 Ex. C (9/23 Video) at 31:30 to 32:15.

For more than an hour, SPD pushed the crowd back and steered protestors throughout the Capitol Hill neighborhood. Dkt. # 139 ¶¶ 31-38; Dkt. # 122 ¶¶ 34, 41-42. During that push, SPD used OC spray, blast balls, and paintballs, while protestors threw rocks, fireworks, improvised explosive devices, and other projectiles. The constant that night: SPD's throwing of blast balls and protestors' throwing of projectiles. *See, e.g.*, Dkt. # 145-1 Ex. C (9/23 Video) at 1:11:55 to 1:13:25.

In total, SPD used three less lethal weapons that evening: OC spray, blast balls, and paintballs.

III. LEGAL STANDARD

Civil contempt occurs when a party disobeys a "specific and definite court order" by "fail[ing] to take all reasonable steps within the party's power to comply." *In re Dual-Deck Video Cassette Recorder Antitrust Litig.*, 10 F.3d 693, 695 (9th Cir. 1993). "A court has wide latitude in determining whether there has been contemptuous defiance of its order." *Gifford v. Heckler*, 741 F.2d 263, 266 (9th Cir. 1984).

A party alleging civil contempt must establish that the other party (1) violated a

ORDER – 8

1 court order, (2) beyond substantial compliance, (3) not based on a good faith and
 2 reasonable interpretation of the order, (4) by clear and convincing evidence. *Labor/Cnty.*
 3 *Strategy Ctr. v. Los Angeles Cty. Metro. Transp. Auth.*, 564 F.3d 1115, 1123 (9th Cir.
 4 2009) (citing *Dual-Deck*, 10 F.3d at 695). As to “substantial compliance,” if a violating
 5 party has taken “all reasonable steps” to comply with an order, then “technical or
 6 inadvertent violations” will not support a civil contempt finding. *Gen. Signal Corp. v.*
 7 *Donallco, Inc.*, 787 F.2d 1376, 1379 (9th Cir. 1986). And regarding the “clear and
 8 convincing” evidentiary standard, it is higher than the preponderance of the evidence
 9 standard but less stringent than beyond a reasonable doubt. *Balla v. Idaho State Bd. of*
 10 *Corr.*, 869 F.2d 461, 466 (9th Cir. 1989).

11 IV. DISCUSSION

12 A. *Monell*

13 The City argues that the Court must not only apply the traditional civil contempt
 14 analysis; it says that the Court must also apply the municipal liability analysis articulated
 15 in *Monell v. N.Y.C. Dep’t of Soc. Servs.*, 436 U.S. 658, 692 (1978). Dkt. # 144 at 4-5.
 16 According to the City, just as a municipality cannot be held *liable* for the actions of an
 17 individual tortfeasor, it cannot be held in *contempt* for the actions of an individual
 18 tortfeasor. *Id.* In effect, the City asks the Court to fuse the civil contempt analysis with
 19 *Monell*.

20 The City’s approach, though novel and innovative, is nowhere to be found in the
 21 “well-settled” civil contempt case law. *F.T.C. v. Affordable Media*, 179 F.3d 1228, 1239
 22 (9th Cir. 1999) (holding that the “standard for finding a party in civil contempt is well-
 23 settled”). Moreover, whether an individual officer’s actions may be fairly imputed to the
 24 City is not at issue. Both Orders—stipulated to by the City—provide that the City
 25 “including the *Seattle Police Department and any other officers*” are enjoined by the
 26 terms of the Orders. Dkt. # 42 at 2 (emphasis added); *see also* Dkt. # 110 at 3. Thus, the
 27 City has already agreed that violations by individual officers are nonetheless violations of

1 the Orders. For these reasons, *Monell* does not apply.

2 **B. Preliminary Injunction Orders**

3 Two questions are before this Court: (1) whether the City violated the Orders and
4 (2) if so, whether those violations were beyond substantial compliance and not based on a
5 good faith and reasonable interpretation. Plaintiffs must answer those questions in the
6 affirmative by clear and convincing evidence. For clarity, the Court will first summarize
7 the terms of the Orders and then resolve those two questions.

8 **i. Preliminary Injunction**

9 Under the Stipulated Order Entering a Preliminary Injunction, SPD and its officers
10 are enjoined from using less lethal weapons against “persons peacefully engaging in
11 protests or demonstrations.” Dkt. # 42 ¶ 1. But individual officers are not enjoined from
12 taking “*necessary, reasonable, proportional, and targeted* action to protect against a
13 specific *imminent threat of physical harm* to themselves or identifiable others or to
14 respond to *specific acts of violence or destruction* of property.” *Id.* (emphasis added).
15 Put differently, if an officer uses a less lethal weapon, then the use must be necessary,
16 reasonable, proportional, and targeted. *Id.* And the use is only justified if it is to protect
17 against a specific imminent threat of harm or to respond to acts of violence or destruction.
18 *Id.*

19 **ii. Amended Preliminary Injunction**

20 The Stipulated Clarification of Preliminary Injunction adds several new terms to
21 the initial preliminary injunction. Dkt. # 110. Only a few are relevant here.

22 Some new terms address specific SPD tactics, such as “re-routing” protests. SPD
23 and its officers are enjoined from using less lethal weapons to re-route a protest, unless
24 re-routing is “necessary to prevent specific imminent threat of physical harm to
25 themselves or identifiable others, or to respond to specific acts of violence or destruction
26 of property.” *Id.* ¶ 6(1)(a).

27 Other terms impose additional obligations on SPD and its officers and further

1 restrict their use of less lethal weapons. For example, SPD and its officers are enjoined
 2 from using less lethal weapons without, when feasible, first issuing a warning. *Id.*
 3 ¶ 6(1)(b). Further, if they use less lethal weapons in accordance with the Orders, they
 4 must not deploy the weapons “indiscriminately into a crowd.” *Id.* ¶ 6(7).

5 Finally, some terms address the use of certain less lethal weapons. Specifically,
 6 the City shall not be liable under either preliminary injunction order “if blast balls are
 7 used for reasons consistent with th[e Orders] but directed to an open space near the target
 8 individual(s) rather than at individuals.” *Id.* ¶ 6(5).

9 In sum, the Orders—stipulated to by both parties—outline the circumstances and
 10 manner in which less lethal weapons may be used. To determine if the City is in
 11 contempt, the Court must compare SPD’s actual deployments against the terms of the
 12 Orders.

13 **C. Violation of the Orders**

14 Four less lethal weapons were used during the protests: pepper balls, paintballs,
 15 OC spray, and blast balls. The Court analyzes SPD’s deployment of each weapon in turn.

16 **i. Pepper Balls & Paintballs**

17 The FN 303 is a “pressurized launcher that fires a .68 caliber 8.5[-]gram
 18 polystyrene projectile.” Dkt. # 146-4 at 14. The projectile is filled with either yellow
 19 paint or “powdered O.C.” Dkt. # 146-2 at 8. Put more plainly, the FN 303 shoots balls
 20 filled with paint or pepper powder. The weapon is covered under the Orders, which
 21 specifically apply to “pepper balls” and “projectiles of any kind.” Dkt. # 42 ¶ 1. SPD
 22 fired the FN 303 on only two of the four protests, September 7 and September 23.

23 During the September 7 protest, a female protestor holding a large traffic cone in
 24 each hand ran towards officers. Dkt. # 146-2 at 8-10. One officer, carrying an FN 303
 25 loaded with pepper balls, noticed the protestor and believed that she posed a threat. *Id.*
 26 The protestor threw one of the cones at a different officer, and as she prepared to throw
 27 the other, the officer carrying the FN 303 fired five pepper ball rounds at her. *Id.*; see

1 also Dkt. # 145-1 Ex. B (9/7 Video) at 42:45 to 44:11; Dkt. # 120 ¶ 16 at 0:38 to 0:46.
2 Based on the officer's observations, all five rounds hit her. See Dkt. # 146-2 at 10-11.

3 Similarly, on September 23, SPD fired yellow paintballs at a protestor threatening
4 officers with a broken umbrella, the fabric having been ripped away and the metal ribs
5 twirling about freely. Dkt. # 146-4 at 14-15. The protestor taunted and threatened the
6 officers with the umbrella by raising it to the officers' eye level. *Id.* As SPD pushed the
7 crowd back, the protestor with the umbrella again raised it inches away from an officer's
8 head. *Id.* That officer tried to seize the umbrella, but the protestor clung to it and fell.
9 *Id.* When the protestor fell, a different officer, carrying an FN 303 with yellow
10 paintballs, fired five rounds at the protestor. *Id.* The protestor released the umbrella and
11 retreated. *Id.*; see also Dkt. # 145-1 Ex. C (9/23 Video) at 56:00 to 59:20. Based on the
12 officer's observations, all five rounds hit the protestor. See Dkt. # 146-4 at 15-17.

13 Clearly, these two deployments are compliant with the Orders. On both occasions,
14 the protestors posed a "specific imminent threat of physical harm" to officers. Dkt. # 42
15 ¶ 1. One officer claimed that the traffic cone "could have struck [officers] in the head,
16 face or other body part" and could have "injure[d] [or] incapacitate[d]" them. Dkt.
17 # 146-2 at 10. The other officer said that the umbrella's "multiple sharp rigid [ribs] could
18 [have] cause[d] serious injury, especially to the face." Dkt. # 146-4 at 15. Plaintiffs do
19 not suggest that these threats lack credibility or that they were insufficiently grave. Also,
20 on both occasions, the officer's actions were "necessary, reasonable, proportional, and
21 targeted." Dkt. # 42 ¶ 1. Stopping an assault on other officers was reasonable and
22 necessary. Striking only the protestors posing a threat, and no others, was targeted. And
23 firing only as many rounds as necessary to disable the threat, as the officers did, was
24 proportional.

25 Thus, SPD's deployment of pepper balls and paintballs on September 7 and
26 September 23 complied with the Orders.

ii. OC Spray

Pepper spray (“oleoresin capsicum” or “OC” spray) is a less lethal weapon covered by the Orders. Dkt. # 42 ¶ 1. It was deployed on several occasions during the August 26, September 7, and September 23 protests. Exactly how many times it was deployed the parties do not say. They also do not say whether every use of OC spray has been captured by their declarations and video evidence or whether some uses have been missed or omitted. The Court can only evaluate the evidence presented to it. And it has indeed reviewed every declaration and video evidence submitted. But the Court will not be able to account for every single use of OC spray on those days, to the extent those uses have not been included in the parties’ submissions.

Based on the evidence available, the Court has identified one clear violation of the Orders. The Court has also found one use that was clearly compliant with the Orders. The Court refers to uses such as these as a “compliant uses.” The remaining uses are arguable and are therefore not “clear and convincing” violations.

(1) Compliant Use

On September 23, a protestor hit a retreating officer in the back of the head with a metal baseball bat; the officer deployed OC spray in response. Dkt. # 145-1 Ex. C (9/23 Video) at 25:20 to 27:09. This was a compliant use. The video evidence is clear and convincing that, immediately before the attack, an officer riding a bicycle was retreating to an SPD line formation. *Id.* He fell off his bicycle, and a protestor threw a traffic cone at him and another tried to grab his bicycle. *Id.* While the officer was distracted, a third protestor approached from behind, stepped forward, and struck the officer with a full swing to the back of the head with the bat. *Id.*; *see also* Dkt. # 145-1 at 27. The officer sprayed these three protestors before fleeing. Dkt. # 145-1 Ex. C (9/23 Video) at 25:20 to 27:09.³ This use was plainly permitted by the Orders. The officer was “respond[ing] to

³ Before this incident, the officer deployed OC spray a few other times. Dkt. # 145-1 Ex. C (9/23 Video) at 25:20 to 25:52. These earlier sprays and their surrounding context are

1 specific acts of violence” against him or, at the very least, “specific imminent threat[s]”
2 of harm. Dkt. # 42 ¶ 1. And given that he had just been assaulted and that he sprayed
3 those attacking him, his actions were necessary, reasonable, proportional, and targeted.
4 *Id.*

5 During his retreat, the officer also sprayed protestors apparently uninvolved in his
6 attack. Dkt. # 145-1 Ex. C (9/23 Video) at 26:15 to 26:27. After he was hit with the bat
7 and after he sprayed his three attackers, the officer rushed back to the police line
8 formation, dragging his bicycle in one hand and holding his OC cannister in the other.
9 *Id.* at 26:30 to 26:47. He ran into a few protestors who were standing between him and
10 the police line formation. *Id.* These protestors did not appear to be involved in his
11 attack, yet the officer briefly sprayed them as he passed by before reaching the police
12 line. *Id.* 26:15 to 26:27.

13 The Court neither condones nor endorses the use of less lethal weapons on random
14 protestors who pose no risk of imminent physical harm. But given the extreme
15 circumstances presented here, the Court must find this deployment permissible. The
16 officer was under a “specific imminent threat of physical harm” when he sprayed the
17 unrelated protestors. Dkt. # 42 ¶ 1. He had just been attacked by three different
18 protestors and had just been hit in the head with a baseball bat. During that incident,
19 nearby protestors were approaching him. Dkt. # 145-1 Ex. C (9/23 Video) at 25:20 to
20 27:09. Once he fled, the officer was still under a threat—the threat that protestors in the
21 vicinity, even unrelated protestors like the ones here, might also attack. That threat was
22 legitimate. Further, the officer’s brief deployment was not excessive. He sprayed the
23 unrelated protestors only until he reached the police line, and then he stopped. The Court
24 finds that, under these specific circumstances, there was no violation of the Orders.

25
26
27 _____
poorly documented. Therefore, they fall under the “remaining uses” category explained
in Section IV.C.ii.3 *infra*.

(2) Violation

On the other hand, the Court has identified one clear violation of the Orders. On September 7, while officers were pushing protestors away from SPOG, an officer on a bicycle rode up behind several retreating protestors. Dkt. # 145-1 Ex. B (9/7 Video) at 26:40 to 26:55. The protestors were moving northbound as instructed. *Id.* Yet, for no apparent reason, the officer sprayed them in the face with OC spray. *Id.* This was a plain violation of the Orders. There was no specific imminent threat of physical harm. Because the officer approached from behind, the protestors had their backs facing the officer at the time. Dkt. # 145-1 Ex. B (9/7 Video) at 26:40 to 26:55. At no time was the officer under attack or under threat of attack. *Id.* Therefore, his use of OC spray was unnecessary, unreasonable, and disproportionate. Dkt. # 42 ¶ 1. The Court further notes that the officer did not account for this use in his use of force report. Dkt. # 146-2 at 281-84. That the entire incident was brief and that the discharge of OC spray was minimal are irrelevant. It was a prohibited and needless action under the Orders.

(3) Remaining Uses

All other OC spray deployments before this Court are too close to call. The Court refers to these as “remaining uses.” Some deployments are poorly documented; the Court cannot see what SPD was responding to. For example, during the September 7 protest, once SPD charged the crowd of protestors in front of SPOG to arrest the Molotov cocktail suspect, a melee broke out. *See, e.g.,* Dkt. # 145-1 Ex. B (9/7 Video) at 23:23 to 25:33. During that melee, several officers sprayed protestors with OC spray. *Id.* at 24:45 to 24:58. Exactly what threat each officer was responding to is unclear, and the parties do not say. Given the dynamic and chaotic nature of the melee, even the best available evidence (body worn video footage of officers inside the melee) is unhelpful and inconclusive. *See id.* at 49:15 to 49:51, 55:39 to 56:40. Some footage for other deployments share similar deficiencies. Plaintiffs have the burden of showing that the City violated the Orders using evidence that is clear and convincing; for uses such as

1 these, where the evidence is unhelpful and inconclusive, that burden is not met.

2 Not all OC spray uses, however, were shrouded by chaos. Some uses are well-
3 documented, and the Court has adequate context to identify and assess both threat and
4 response.

5 Plaintiff Alexandra Chen, for example, was sprayed with OC spray during the
6 September 7 protest. For that incident, the Court has footage from the perspective of
7 both Ms. Chen and the officer that sprayed her. Dkt. # 145-1 Ex. B (9/7 Video) at 23:23
8 to 25:33. Both accounts reveal that, during SPD's initial charge of the crowd, one officer
9 began establishing a police line formation. *Id.* The officer repeatedly commanded the
10 protestors to move back. *Id.* Ms. Chen initially complied. *Id.* A different protestor,
11 however, ignored the command and approached the police line to film the officers. *Id.*
12 The officer who yelled at protestors to move back sprayed the encroaching protestor who
13 then retreated and fell. *Id.* Several other protestors, including Ms. Chen, rushed to that
14 protestor. *Id.* Although Ms. Chen's efforts could be considered rendering aide, she was
15 nonetheless disobeying the officer's command to move back. *Id.* The officer moved
16 forward and forced the protestors even farther back. *Id.* Ms. Chen, with both hands on
17 her phone, was filming the officer as she retreated slowly. *Id.* The officer then sprayed
18 her with OC spray. *Id.* The officer also sprayed another protestor behind her because
19 that protestor was throwing an object at the officer. *Id.*

20 Unlike the melee footage, this use of OC spray is clear; the Court can see what the
21 officer was responding to. But what is not clear is whether, all things considered, Ms.
22 Chen posed a "specific imminent threat of physical harm" at the time. Dkt. # 42 ¶ 1. The
23 Court doubts that she did. At no time did Ms. Chen threaten the officer with harm. In
24 fact, Ms. Chen retreated at first, as instructed, and announced to the officer that she was
25 moving backwards. And throughout the whole incident both her hands were visibly
26 gripping her phone.

27 That said, the Court must be mindful of the circumstances: The protestor who

1 encroached on the officers just disobeyed the officer's loud and continuous commands to
2 move back. Once that protestor was sprayed and on the ground, Ms. Chen also disobeyed
3 the officer's command by rushing towards the downed protestor. When Ms. Chen rose,
4 she was slow to comply with the officer's repeated commands to move back. What is
5 more, the exchange between Ms. Chen and the officer did not occur in a vacuum. Behind
6 the officer was a melee between SPD and protestors—OC spray, fire extinguishers,
7 makeshift shields, projectiles, and all. Behind Ms. Chen was a different protestor
8 throwing an object at the officer. In isolation, the Court doubts that Ms. Chen posed an
9 imminent threat of harm. In context, reasonable minds could disagree when considering
10 the totality of the circumstances at the time of discharge.

11 This incident is like many others, in which it is unclear whether an officer at the
12 time of deployment was facing “a specific imminent threat of physical harm” or
13 responding to “specific acts of violence or destruction of property.” Dkt. # 42 ¶ 1. The
14 examples are plenty. *See, e.g.*, Dkt. # 145-1 Ex. A (8/26 Video) at 1:17:20 to 1:17:35
15 (depicting officer using OC spray on protestor who refused to move back and who
16 grabbed another officer's baton); *id.* at 1:12:15 to 1:12:50 (depicting officers using OC
17 spray while trying to arrest a protestor who shined a laser pointer at officers); Dkt. # 119
18 ¶ 3 (8/26 Video) at 20:00 to 20:50 (same but from protestors' perspective); Dkt. # 145-1
19 Ex. B (9/7 Video) at 30:20 to 30:33 (depicting officers using OC spray on protestors
20 rushing to de-arrest other protestors).

21 In these cases, whether an officer was under a “specific imminent threat of harm”
22 or “responding to a specific act of violence” is unclear. The threat from a protestor who
23 rushes to de-arrest another or the threat from a protestor who refuses to move back
24 despite an officer's commands is arguable. *See* Dkt. # 148 ¶ 10 (explaining dangers of
25 de-arrest tactics). Arguable is not the standard. Plaintiff has the burden to prove a
26 violation of the Orders by clear and convincing evidence. For these remaining uses, the
27 Plaintiffs fail to meet that burden.

1 To be clear, the circumstances above do not automatically authorize use of OC
2 spray. True, they are not clear and convincing violations. But that does not make them
3 *compliant uses* all the same. The Court’s holding is limited to the facts presented in this
4 motion. The Court provides no bright-line rule for any future uses of OC spray, which, if
5 challenged, must be resolved on a case-by-case basis.

6 **iii. Blast Balls**

7 Blast balls are a “light and sound diversion device.” Dkt. # 148 ¶ 7. When they
8 explode they emit sound, heat, light, and OC powder. Dkt. # 146-2 at 92, 104. At oral
9 argument, the City represented that the deployment of blast balls is not a perfect science.
10 They are not perfectly round, which limits their precision, and they can bounce
11 unpredictably. *See, e.g.*, Dkt. # 146-1 at 4. They were used on all four days of protests.

12 Of the less lethal weapons, the Court is most concerned about SPD’s use of blast
13 balls, the most indiscriminate of the four. As explained below, SPD has often hurled
14 blast balls into crowds of protestors. In many cases, the accuracy of these baseball-style
15 throws is suspect. And when blast balls explode, they explode in all directions and kick
16 OC powder in the air. Given their indiscriminate nature, blast balls pose a greater
17 collateral danger to peaceful protestors than, for example, the FN 303 launcher. For
18 those reasons, independent from the determinations below, the City should take special
19 care to ensure that any future blast ball uses adhere to the Orders.

20 In any event, based on the available evidence of blast ball usage, the Court has
21 identified one compliant use and several violations of the Orders. As explained in the
22 previous section, the remaining uses are arguable and are therefore not “clear and
23 convincing” violations.

24 **(1) Compliant Use**

25 On September 7, while SPD pushed protestors north and away from SPOG,
26 throngs of protestors hurried along a sidewalk. Dkt. # 145-1 Ex. B (9/7 Video) at 56:50
27 to 57:55. From deep within the crowd, a protestor launched a Molotov cocktail at

1 officers riding their bicycles in the middle of the street. *Id.* The Molotov cocktail nearly
2 hit Ms. Chen, who was walking in the street at the time, before shattering and setting the
3 asphalt on fire. *Id.* In response, SPD deployed several blast balls. *Id.* at 33:30 to 34:10,
4 56:50 to 57:55. They deployed the blast balls next to the sidewalk, near the protestors but
5 still on the street. *Id.* As a result, the protestors turned east when they reached an
6 intersection. *Id.* One of the officers who threw a blast ball claimed that she was ordered
7 by Lieutenant Brooks to use blast balls to “continue pushing the crowd” and to steer them
8 eastward. Dkt. # 146-2 at 43.

9 These blast ball uses were clearly permitted by the Orders.⁴ They were used in
10 response to a “specific act[] of violence.” Dkt. # 42 ¶ 1. Molotov cocktails pose a grave
11 danger,⁵ and the use of one towards officers or protestors is no doubt a violent act.
12 Further, the magnitude of harm presented by a Molotov cocktail made blast balls
13 “necessary, reasonable, [and] proportional” to prevent future harm. *Id.* The officers
14 threw the blast balls in the direction of the protestor who threw the Molotov cocktail,
15 making their deployments also “targeted.” *Id.*

16 Although the blast balls do not appear to have been deployed specifically at the
17 Molotov cocktail thrower, they were “directed to an open space near the target
18 individual[],” which is permitted under the Orders. Dkt. # 110 ¶ 6(5). SPD threw the
19 blast balls in an open area on the street, next to a crowd of protestors who were primarily
20 on the sidewalk. Based on the evidence, the Molotov cocktail thrower was likely in or
21 near that crowd. Finally, even though less lethal weapons may not usually be used to “re-

22 ⁴ Though these uses may comply with the Orders, the Court makes no determination on
23 whether they comply with SPD’s own training manuals or policies. The parties have not
24 provided such evidence or argument to the Court.

25 ⁵ “Molotov cocktails can cause significant property damage, substantial injury, or death.
26 They can cause a person’s clothing to burn, and, if one hits a person on their head or
27 shoulder, the smoke is capable of blocking their airways before the fire can be
28 extinguished. They are also inaccurate and, if thrown, may not hit their intended target.
Debris from inside the bottle can also escape mid-air, posing additional hazards to those
nearby.” Dkt. # 148 ¶ 12

route” a protest, SPD may do so when necessary to prevent harm or to respond to specific acts of violence, as was the case here. *Id.* ¶ 6(1)(a). Thus, this was a clear compliant use.

(2) Violations

By contrast, the Court has found three clear violations of the Orders. The violations can be divided into two categories: throwing blast balls indiscriminately into a crowd and using blast balls to “create space” without any threat of imminent harm.

On at least two separate occasions, officers have thrown blast balls indiscriminately into crowds. During the September 7 protest, on the push north, protestors lined across an intersection. Dkt. # 145-1 Ex. B (9/7 Video) at 27:55 to 28:40. SPD formed their own line several feet opposite the protestors. *Id.* When one officer rode up on a bicycle and stopped several feet behind the police line, a glass shattered. *Id.* He asked another officer, “Who threw it?” to which another officer responded, “I don’t know.” *Id.* A third officer threw a blast ball overhand to the front of the protestor line. *Id.* The officer who asked who threw the glass dismounted his bicycle and threw a blast ball deep into the crowd of protestors. *Id.* He threw the blast ball at a different area than the officer who first threw a blast ball. *Id.* He did not account for this use in his use of force report. Dkt. # 146-2 at 281-84.

Weeks later at the September 23 protest, while SPD pushed protestors throughout Capitol Hill, one officer was walking several rows back from the front of the police line. Dkt. # 145-1 Ex. C (9/23 Video) at 49:15 to 50:10. He grabbed a blast ball and then threw it overhand into a crowd of protestors. *Id.* At the time, he was behind several rows of officers. *Id.* When he threw the ball, he immediately turned around to retrieve his bicycle and because of that, his body worn video footage does not reveal where the blast ball exploded. *Id.* He did not account for this use in his use of force report. Dkt. # 146-4 at 128-38.

Under the Orders, officers may use less lethal weapons in certain circumstances. Dkt. # 42 ¶ 1. But even when those circumstances are met, SPD must not deploy the

1 weapons “indiscriminately into a crowd.” Dkt. # 110 ¶ 6(7). Here, blast ball uses could
2 have been justified as a response to a specific imminent threat. Though the Court does
3 not know for sure because, in both cases, the footage is limited. But even if they were
4 justified, they were plain violations of the command that less lethal weapons should not
5 be deployed indiscriminately into a crowd.

6 On September 7, the officer who threw the blast ball did not know which protestor
7 threw the glass. Yet he threw a blast ball into a crowd of protestors anyway. That throw
8 was not sufficiently targeted to nullify a threat—the source of which the officer did not
9 know. In fact, when he threw the blast ball, he did not throw it at the same spot as the
10 officer who just threw a blast ball right before him, again betraying that he did not know
11 the source of the threat. Thus, this was an indiscriminate deployment into a crowd.

12 On September 23, the officer who threw the blast ball threw it in a crowd of
13 protestors and immediately turned around. This demonstrates a clear lack of care for
14 where the blast ball landed. Any threat of harm or violence that this officer was
15 responding to was not *targeted* in any meaningful way. This too was an indiscriminate
16 deployment into a crowd.

17 In both cases, the officers stood a great distance from protestors, used overhand
18 throws, and threw blast balls deep into a crowd. These indiscriminate deployments were
19 thus clear violations of the Orders.

20 Indiscriminate deployment aside, SPD has also used blast balls to “create
21 separation,” absent any specific threat of imminent harm. The Court has found two such
22 instances, one on September 22 and another on September 23.

23 As explained above, during a march through Capitol Hill on September 22, Dkt.
24 # 132 ¶¶ 4-9, SPD vehicles trailed protestors from the front and back, Dkt. # 131 ¶ 7.
25 Driving in reverse, the SPD vehicles in front of the protestors trailed the protestors
26 closely. *See, e.g.*, Dkt. # 148 Exs. E & F. The protestors shined lights into the vehicles
27 in front of them. *Id.*; Dkt. # 148 ¶ 31, Ex. F. Lieutenant John Brooks ordered a bicycle

officer to deploy a blast ball when the protestors reached the intersection near the East Precinct. *Id.* ¶ 33, Ex. E at 0:19 to 0:30. As instructed, the bicycle officer threw a blast ball in the middle of the crowd. *Id.* Ex. E at 0:36 to 1:30. The protestors then moved away from the SPD vehicle. *Id.* SPD claims that the strobe lights created an “obvious hazard for the driver” and that the blast ball was used to “create separation between officers and the crowd.” *Id.* ¶¶ 32, 33.

The need for “separation” is not an authorized basis to use less lethal weapons under the Orders. *See* Dkt. ## 42, 110. Thus, SPD must show that it was under a specific imminent threat of physical harm when it deployed the blast ball. *Id.* Based on the evidence, it cannot.

On September 22, there was no apparent physical threat to officers. At most, the protestors pounded on windows, stood in the way of vehicles, and used “lit cigarettes to damage the hood” of a vehicle. Dkt. # 148 ¶ 31. The City’s claim that protestors’ strobe lights created an “obvious hazard for the driver” is simply not credible. Dkt. # 148 ¶ 33. Though the strobe lights may have been a nuisance, they posed no serious threat to the SPD vehicles or officers. First, only a few of the many protestors had strobe lights, and at times they were several yards away, leaving much of the officers’ field of view unobscured. Second, because the SPD vehicles had their sirens and lights on, pedestrian traffic appeared to yield to them. Given that the vehicles were crawling in reverse at walking speed, any traffic hazard was thus greatly diminished. Under those circumstances, the hazard to the driver was insignificant and did not justify the use of a blast ball. SPD’s claimed threat of imminent harm is unconvincing, and its use of a blast ball was disproportional.

(3) Remaining Uses

For all other uses, the Court has insufficient evidence. Most officers claim that they used blast balls to stop certain protestors from throwing objects at police. *See, e.g.*, Dkt. # 146-1 at 4-5 (8/26 protest) (explaining that officer threw blast ball at protestor who

1 threw two items towards officers); Dkt. # 146-2 at 2-3 (9/7 protest) (same but protestors
2 throwing rocks); Dkt. # 146-4 (9/23 protest) (same but protestors throwing glass bottles
3 and “other miscellaneous projectiles”).

4 These officer accounts are generally credible. That many protestors have tried to
5 pelt officers with projectiles is indisputable, and the list of projectiles is long: water
6 bottles, glass bottles, Molotov cocktails, improvised explosive devices, fireworks, rocks,
7 and more. *See, e.g.*, Dkt. # 145-1 Ex. B (9/7 Video) at 24:28 to 24:32; *id.* at 36:40 to
8 37:05 (rock); *id.* at 52:20 to 52:55 (improvised explosive device); *id.* at 56:10 to 56:35
9 (water bottle and improvised explosive device); *id.* at 56:55 to 57:33 (Molotov cocktail);
10 *id.* at 1:03:45 to 1:03:55 (firework); Dkt. # 145-1 Ex. C (9/23 Video) at 18:30 to 18:40
11 (glass bottle); *id.* at 21:25 to 21:35 (glass bottle); *id.* at 37:30 to 37:40; *id.* at 1:11:55 to
12 1:12:25 (improvised explosive device); *id.* at 1:13:00 to 1:13:20 (firework). Based on the
13 video evidence, these do not appear to be isolated incidents.

14 But for most blast ball uses, it is unclear what *specific* threat a given officer was
15 responding to. *See, e.g.*, Dkt. # 145-1 Ex. B (9/7 Video) at 1:01:30 to 1:03:00 (depicting
16 officers throwing blast balls after rocks were thrown at them); Dkt. # 145-1 Ex. C (9/23
17 Video) at 31:30 to 32:15 (depicting several blast balls after protestors in a crowd threw
18 objects). For example, on August 26, one blast ball was deployed. The officer who
19 threw the blast ball claimed that a protestor threw two “unidentifiable spherical items”
20 towards officers and that, in response, he tried to throw a blast ball at the protestor. Dkt.
21 # 146-1 at 4. Plaintiffs say that the officer’s justification in his use of force report is
22 “plainly inconsistent with video evidence.” Dkt. # 152 at 5. The video evidence,
23 however, is inconclusive. Dkt. # 145-1 Ex. A (8/26 Video) at 41:15 to 42:07. Because
24 the body worn camera was not mounted at eye level and because the protest occurred at
25 night, it is hard to know whether the officer indeed saw a protestor throwing projectiles.
26 This incident is paradigmatic of the remaining blast ball uses where the evidence falls
27 short. *See, e.g.*, Dkt. # 145-1 Ex. C (9/23 Video) at 42:00 to 44:30.

1 Without sufficient evidence, the Court cannot assess the degree of threat that an
2 officer was under when a blast ball was deployed and therefore cannot determine if the
3 use was necessary, reasonable, proportional, and targeted. Again, Plaintiffs have the
4 burden of showing that the City violated the Orders by clear and convincing evidence.
5 For most blast ball uses, the evidence is simply neither clear nor convincing, so Plaintiffs
6 fail to meet their burden.

7 The Court's previous admonition on OC spray applies equally to blast balls:
8 Although these remaining blast ball uses are not clear violations, they are also not clearly
9 *compliant* with the Orders. The Court's holding is limited to the facts presented in this
10 motion. And the Court provides no bright-line rule for any future blast ball uses.

11 In all, Plaintiffs have demonstrated four violations of the Orders by clear and
12 convincing evidence: one OC spray violation and three blast ball violations. All other
13 examples that they have raised do not meet that bar. To that extent, this prong is met.

14 **D. Substantial Compliance**

15 “‘Substantial compliance’ with [a] court order . . . is not vitiated by ‘a few
16 technical violations’ where every reasonable effort has been made to comply.” *In re*
17 *Dual-Deck Video Cassette Recorder Antitrust Litig.*, 10 F.3d 693, 695 (9th Cir. 1993)
18 (quoting *Vertex Distrib., Inc. v. Falcon Foam Plastics, Inc.*, 689 F.2d 885, 889 (9th Cir.
19 1982)).

20 For the clear violations above, Plaintiffs have shown that the City violated the
21 Orders beyond substantial compliance. First, the clear violations were not necessarily
22 “few” in number. In total, there were four. And those are only the violations that were
23 presented to this Court. As Plaintiffs argue, many blast balls were used at the September
24 23 protest (at oral argument, the City estimated around 30), yet the City has not provided
25 body worn video footage for many of these deployments. Dkt. # 152 at 5-6. Of course,
26 the Court cannot say for sure how many of these unaccounted-for blast ball uses would
27 have been compliant uses, clear violations, or remaining uses. And the Court will not

1 engage in speculation. But the Court notes that the four clear violations here do not
2 include the unaccounted-for blast ball uses on September 23.

3 Second, the violations were not “technical violations.” The violations above are
4 clear, in part, because they fundamentally defy the Court’s Orders and the purpose behind
5 them. They were not at the boundary, overstepping ever so slightly or “technically.”
6 They violated the substantive terms of the Orders by a clear and convincing margin.

7 Surely, compared to its uses of less lethal weapons earlier this year when this
8 action was first brought, SPD’s uses at these four protests appear to be more restrained.
9 Deployments generally appear to be more targeted and proportional than before. And
10 SPD on its own volition has informed its officers of this Court’s orders on multiple
11 occasions. Under the amended preliminary injunction, the City had to distribute a copy
12 of the order to all SPD officers via email within 24 hours of entry, which it did. Dkt.
13 # 110 ¶ 6(6); Dkt. # 112. But the City has gone beyond that. Before each shift in which
14 officers are expected to provide crowd control management, SPD holds mandatory
15 briefings, reminding officers of the contents of the Orders and their duty to follow them.
16 Dkt. # 148 ¶¶ 3, 14; Dkt. # 147-1 at 20. Further, SPD has not used tear gas of any kind
17 on any of the four protests. Dkt. # 148 ¶ 35.

18 But the Court cannot ignore the clear violations above. Substantial compliance
19 shields a party from a few technical violations when that party has made every reasonable
20 effort to comply with a court order. Again, the violations here are not technical; they are
21 substantive. And the City has not shown that it has made every reasonable effort to
22 comply.

23 Some might say that four clear violations—out of four days of protests and
24 countless uses of less lethal weapons—must surely be insufficient to “vitate” the City’s
25 otherwise substantial compliance. But this is misguided. The relevant comparison is not
26 between the four clear violations and every single deployment. (For most deployments,
27 the Court lacks sufficient basis to deem them either a compliant use or a violation.) For

substantial compliance, the appropriate comparison must be between the times the City was compliant⁶ and the times it was not compliant. On that score, the Court has found that the City was clearly in compliance with the Orders four times and was clearly not in compliance with the Orders four times. Put that way, the four clear violations are significant and must be given their due weight. For those reasons, this prong is met.

E. Good Faith and Reasonable Interpretation

In the civil contempt context, contempt need not be willful, and there is no good faith exception. *Dual-Deck*, 10 F.3d 693 at 695. But a party should not be held in contempt if its actions appear to be “based on a good faith and reasonable interpretation” of a court’s order. *Id.* (quoting *Vertex*, 689 F.2d at 889).

Like substantial compliance, the clear violations above are clear, in part, because they plainly violate the text of the Orders. No good faith or reasonable interpretation could bring such violations under the Orders’ ambit. For example, no good faith or reasonable interpretation of the phrase “[less lethal weapons] shall not be deployed indiscriminately into a crowd,” Dkt. # 110 ¶ 6(7), could save the City from indiscriminate deployments of blast balls into crowds, *see supra* Section IV.C.iii.2. The same is true for the remaining violations. Thus, for the clear violations, Plaintiffs have met their burden for this prong.

⁶ As explained above, the Court has identified four uses that comply with the Orders: the two uses of the FN 303, the use of OC spray when the officer was hit in the head with a bat, and the use of blast balls to re-route protestors after a Molotov cocktail was thrown.

ORDER – 27
