Intervenors.

No. 92-2062 M1/A

ORDER GRANTING DEFENDANTS' MOTION TO MODIFY REMEDIAL ORDER

On August 24, 1998, Defendants moved the Court to modify paragraph XIV.B.12 of the Remedial Order in this matter. No party has opposed this motion. For good cause, the Court GRANTS the motion and ORDERS that the Remedial Order be modified so that paragraph XIV.B.12 now reads:

Defendants shall develop a support coordination system sufficient to ensure that the needs of each resident placed in the community based program pursuant to this Order are consistently reviewed and met. Every resident in the community and transitioning to the community will have an Independent Support Coordinator (ISC). No ISC shall have a case load in excess of thirty developmentally disabled persons. ISCs will receive a minimum of eighty hours training in the requirements identified in Paragraph P in addition to other job-related training. ISCs will be in regular, frequent contact with the people on their caseload in both their residential and day program or work site. ISCs will observe participation in programs and therapeutic interventions and will evaluate the degree to which services in the individualized plan are being delivered. In no event will ISCs visit each of their
