Sec. 3. (1) The secretary of state shall prepare a map and a legal description of each district constituted under this act. The legal description shall be in terms of political subdivisions, such as counties, cities, and townships; man-made features, such as streets, roads, highways, and railroads; and natural features, such as waterways, which political subdivisions and man-made and natural features form the boundaries of the district. The secretary of state shall convey the map and legal description of each district to the legislature and the governor.

(2) For the fiscal year ending September 30, 2012, there is appropriated for the department of state the sum of \$30,000.00 for the costs incurred by the secretary of state in complying with subsection (1).

Sec. 4a. All of the following apply to the redistricting plan in section 1a:

(a) The number of county breaks in the redistricting plan is determined by the following principles:

(i) Breaking a county line means assigning part of the population of a county to 1 or more counties in the formation of a district.

(ii) If population is shifted from a county to a single election district, including a district from 2 geographically separate areas, there is 1 break. Except as provided in subparagraph (iii), if population from a county is shifted to 2 or more election districts, there are 2 or more breaks.

(iii) If 1 part of a county is shifted to a district and the rest of the county is shifted to another district, there is 1 break.

(b) The redistricting plan was designed to comply fully with both section 2 of the voting rights act of 1965, 42 USC 1973, and the requirements of the equal protection clause of amendment XIV of the constitution of the United States, as set forth in *Shaw v Reno*, 509 US 630 (1993), and subsequent cases concerning racial gerrymandering. In light of these dual obligations, the plan avoids any practice or district lines that result in the denial of any racial or ethnic group's equal opportunity to elect a representative of its choice and, at the same time, does not subordinate traditional redistricting principles for the purpose of accomplishing a racial gerrymander or creating a majority-minority district. As a consequence, the plan does not result in retrogression or dilution of minority voting strength, particularly in light of the demographic limitations caused by relative population losses and the neutral criteria set forth in section 3 of the congressional redistricting act, 1999 PA 221, MCL 3.63. However, the plan does not sacrifice traditional neutral principles, such as, most importantly, preservation of county and municipal boundaries, for the purpose of engaging in a gerrymander that unnecessarily favors 1 racial group over others.

(c) The redistricting plan for congressional districts consists of 14 single-member districts composed of convenient territories contiguous by land.

Sec. 5. As used in this act:

(a) "Block" means block as that term is used by the United States department of commerce, bureau of the census in conducting the 2010 decennial census.

(b) "Tract" means tract as that term is used by the United States department of commerce, bureau of the census in conducting the 2010 decennial census.

Sec. 3. The secretary of state shall prepare a map and a legal description of each district constituted under this act. The legal description shall be in terms of political subdivisions, such as counties, cities, and townships; man-made features, such as streets, roads, highways, and railroads; and natural features, such as waterways, which political subdivisions and man-made and natural features form the boundaries of the district. The secretary of state shall convey the map and legal description of each district to the legislature and the governor.

Sec. 4. All of the following apply to the redistricting plan in section 1:

(a) In adopting the redistricting plan for congressional districts, it is the intention of the legislature to comply fully with section 3 of the congressional redistricting act, 1999 PA 221, MCL 3.63.

(b) The number of county breaks in the redistricting plan is determined by the following principles:

(i) Breaking a county line means assigning part of the population of a county to 1 or more counties in the formation of a district.

(ii) If population is shifted from a county to a single election district, including a district from 2 geographically-separate areas, there is 1 break. Except as provided in subparagraph (iii), if population from a county is shifted to 2 or more election districts, there are 2 or more breaks.

(iii) If 1 part of a county is shifted to a district and the rest of the county is shifted to another district, there is 1 break.

(c) The redistricting plan was designed to comply fully with both section 2 of the voting rights act of 1965, Public Law 89-110, 42 U.S.C. 1973, and the requirements of the equal protection clause of amendment XIV of the constitution of the United States, as set forth in *Shaw v Reno*, 509 US 630 (1993), and subsequent cases concerning racial gerrymandering. In light of these dual obligations, the plan avoids any practice or district lines that result in the denial of any racial or ethnic group's equal opportunity to elect a representative of its choice and, at the same time, does not subordinate traditional redistricting principles for the purpose of accomplishing a racial gerrymander or creating a majority-minority district. As a consequence, the plan does not result in retrogression or dilution of minority voting strength, particularly in light of the demographic limitations caused by relative population losses and the neutral criteria set forth in section 3 of the congressional redistricting act, 1999 PA 221, MCL 3.63. However, the plan does not sacrifice traditional neutral principles, such as, most importantly, preservation of county and municipal boundaries, for the purpose of engaging in a gerrymander that unnecessarily favors 1 racial group over others.

(d) The plan furthers the underlying purpose of the state constitution of 1963 by facilitating effective representation in the legislature where elected representatives can advance the shared interests of unified municipalities or counties. It does so without sacrificing voting rights act of 1965 principles, equal electoral opportunities, or racial fairness.

(e) The redistricting plan for congressional districts consists of 15 single member districts comprised of convenient territories contiguous by land. All of the following apply to the plan:

(i) The population in each of districts 1-9 and 11-15 is 662,563. The population of district 10 is 662,562.

(ii) The number of breaks in county boundaries is 11.

(iii) The number of breaks in city and township lines is 14.

(iv) No congressional district is wholly contained within a city.

Sec. 5. As used in this act:

(a) "Block" means block as that term is used by the United States department of commerce, bureau of the census in conducting the 2000 decennial census.

(b) "Tract" means tract as that term is used by the United States department of commerce, bureau of the census in conducting the 2000 decennial census.

**STATE CONSTITUTION (EXCERPT)
CONSTITUTION OF MICHIGAN OF 1963**

§ 6 Commission on legislative apportionment.

Sec. 6. A commission on legislative apportionment is hereby established consisting of eight electors, four of whom shall be selected by the state organizations of each of the two political parties whose candidates for governor received the highest vote at the last general election at which a governor was elected preceding each apportionment. If a candidate for governor of a third political party has received at such election more than 25 percent of such gubernatorial vote, the commission shall consist of 12 members, four of whom shall be selected by the state organization of the third political party. One resident of each of the following four regions shall be selected by each political party organization: (1) the upper peninsula; (2) the northern part of the lower peninsula, north of a line drawn along the northern boundaries of the counties of Bay, Midland, Isabella, Mecosta, Newaygo and Oceana; (3) southwestern Michigan, those counties south of region (2) and west of a line drawn along the western boundaries of the counties of Bay, Saginaw, Shiawassee, Ingham, Jackson and Hillsdale; (4) southeastern Michigan, the remaining counties of the state.

Eligibility to membership.

No officers or employees of the federal, state or local governments, excepting notaries public and members of the armed forces reserve, shall be eligible for membership on the commission. Members of the commission shall not be eligible for election to the legislature until two years after the apportionment in which they participated becomes effective.

Appointment, term, vacancies.

The commission shall be appointed immediately after the adoption of this constitution and whenever apportionment or districting of the legislature is required by the provisions of this constitution. Members of the commission shall hold office until each apportionment or districting plan becomes effective. Vacancies shall be filled in the same manner as for original appointment.

Officers, rules of procedure, compensation, appropriation.

The secretary of state shall be secretary of the commission without vote, and in that capacity shall furnish, under the direction of the commission, all necessary technical services. The commission shall elect its own chairman, shall make its own rules of procedure, and shall receive compensation provided by law. The legislature shall appropriate funds to enable the commission to carry out its activities.

Call to convene; apportionment; public hearings.

Within 30 days after the adoption of this constitution, and after the official total population count of each federal decennial census of the state and its political subdivisions is available, the secretary of state shall issue a call convening the commission not less than 30 nor more than 45 days thereafter. The commission shall complete its work within 180 days after all necessary census information is available. The commission shall proceed to district and apportion the senate and house of representatives according to the provisions of this constitution. All final decisions shall require the concurrence of a majority of the members of the commission. The commission shall hold public hearings as may be provided by law.

Apportionment plan, publication; record of proceedings.

Each final apportionment and districting plan shall be published as provided by law within 30 days from the date of its adoption and shall become law 60 days after publication. The secretary of state shall keep a public record of all the proceedings of the commission and shall be responsible for the publication and distribution of each plan.

Disagreement of commission; submission of plans to supreme court.

If a majority of the commission cannot agree on a plan, each member of the commission, individually or jointly with other members, may submit a proposed plan to the supreme court. The supreme court shall determine which plan complies most accurately with the constitutional requirements and shall direct that it be adopted by the commission and published as provided in this section.

Jurisdiction of supreme court on elector's application.

Upon the application of any elector filed not later than 60 days after final publication of the plan, the supreme court, in the exercise of original jurisdiction, shall direct the secretary of state or the commission to perform their duties, may review any final plan adopted by the commission, and shall remand such plan to the commission for further action if it fails to comply with the requirements of this constitution.

Act 221 of 1999

AN ACT to provide for the redistricting of congressional districts; and to establish guidelines for the decennial adoption of a redistricting plan for congressional districts.

History: 1999, Act 221, Eff. Mar. 10, 2000.

The People of the State of Michigan enact:

3.61 Short title.

Sec. 1. This act shall be known and may be cited as the "congressional redistricting act".

History: 1999, Act 221, Eff. Mar. 10, 2000.

3.62 Enactment of redistricting plan for congressional districts apportioned to Michigan.

Sec. 2. Not later than November 1, 2001, and every 10 years thereafter, the legislature shall enact a redistricting plan for congressional districts apportioned to Michigan.

History: 1999, Act 221, Eff. Mar. 10, 2000.

3.63 Redistricting plan; guidelines.

Sec. 3. Except as otherwise required by federal law for congressional districts in this state, the redistricting plan shall be enacted using only these guidelines in the following order of priority:

(a) The constitutional guideline is that each congressional district shall achieve precise mathematical equality of population in each district.

(b) The federal statutory guidelines in no order of priority are as follows:

(i) Each congressional district shall be entitled to elect a single member.

(ii) Each congressional district shall not violate section 2 of title I of the voting rights act of 1965, Public Law 89-110, 42 U.S.C. 1973.

(c) The secondary guidelines in order of priority are as follows:

(i) Each congressional district shall consist of areas of convenient territory contiguous by land. Areas that meet only at points of adjoining corners are not contiguous.

(ii) Congressional district lines shall break as few county boundaries as is reasonably possible.

(iii) If it is necessary to break county lines to achieve equality of population between congressional districts as provided in subdivision (a), the number of people necessary to achieve population equality shall be shifted between the 2 districts affected by the shift.

(iv) Congressional district lines shall break as few city and township boundaries as is reasonably possible.

(v) If it is necessary to break city or township lines to achieve equality of population between congressional districts as provided in subdivision (a), the number of people necessary to achieve population equality shall be shifted between the 2 districts affected by the shift.

(vi) Within a city or township to which there is apportioned more than 1 congressional district, district lines shall be drawn to achieve the maximum compactness possible.

(vii) Compactness shall be determined by circumscribing each district within a circle of minimum radius and measuring the area, not part of the Great Lakes and not part of another state, inside the circle but not inside the district.

(viii) If a discontinuous township island exists within an incorporated city or discontinuous portions of townships are split by an incorporated city, the splitting of the township shall not be considered a split if any of the following circumstances exist:

(A) The city must be split to achieve equality of population between congressional districts as provided in subdivision (a) and it is practicable to keep the township together within 1 district.

(B) A township island is contained within a whole city and a split of the city would be required to keep the township intact.

(C) The discontinuous portion of a township cannot be included in the same district with another portion of the same township without creating a noncontiguous district.

(ix) Each congressional district shall be numbered in a regular series, beginning with congressional district 1 in the northwest corner of the state and ending with the highest numbered district in the southeast corner of the state.

3.64 Severability provision.

Sec. 4. If any portion of this act or the application of this act to any person or circumstances is found to be invalid by a court, the invalidity shall not affect the remaining portions or applications of the act which can be given effect without the invalid portion or application. The provisions of this act are severable.
